8. COUNTYWIDE TRANSIT REPORT: FISCAL YEARS 2021/22 THROUGH 2023/24

Eric DeHate, Transit Manager, presented the Countywide Transit Report for Fiscal Years 2021/22 – 2023/24, highlighting the following areas:

- Service overview
- How much does it cost?
  - ✓ Total operating costs in Riverside County from FY 2021/22 to FY 2023/24
  - ✓ Average breakdown of funding by program graph
- How are we paying for it?
  - ✓ State
    - Local Transportation Funds

  - ✓ Ridership trends and percent changes by fiscal year graph
- Looking ahead
  - ✓ Prioritized safety and restoring ridership
  - ✓ Expanded community outreach, and technology advancements
  - ✓ Free or discounted fares
  - ✓ Transitioning to zero-emission

Commissioner Vandever stated that before COVID happened, they were up at 15 percent.

Eric DeHate replied at 15.5 million.

Commissioner Vandever asked if there was a specific reason or is there any resource as to why people are not riding the bus anymore.

Eric DeHate stated during the pandemic a lot of service was cut that has not yet been restored based on ridership trends. They have seen hybrid schedules or different changes in travel patterns that affected a lot of commuter people that have now turned back to their cars due to more flexibility. Also, most of the population that were more vulnerable did not want to go back into the population for fear of continuously contracting COVID or other viruses. The bus operators and specialized transit services have seen a bigger increase going back towards pre-pandemic levels. The smaller systems are recovering a lot more easily as they did not cut as much service, so their services kept moving but the larger operators had to make major changes. Also, a lot of bus operators had left so it was hard for transit services to be able to retain an active workforce development.

Commissioner Vandever stated there is no Metrolink in San Jacinto and it would make a big difference because since she has been in council there are 5,000 new homes that went in. That is a lot more people that are going to be commuting from Orange County and San Diego that are not ready to give up their cars, but she is pushing for that.

Chair Molina stated there has been a lot of talk about ebikes and the managing of them. When she rides the Metrolink train everyone has an ebike but now there are issues with regulating it because they are not safe. She asked if there were statistics on ebike impacts on transportation.

Eric DeHate stated he does not, but he does know that it is a developing phenomenon, especially with a lot of safety concerns regarding ebikes.

Aaron Hake, Executive Director, stated he is hearing in Sacramento this year that the Legislature is going to be considering several bills pertaining to ebikes. He is not aware of

what side of the issue it will be on or what they are aiming to do. Connecting with the League of California Cities (Cal Cities) and California State Association of Counties (CSAC) would be good on this. Also, if there were any bills of interest, the Commissioners would like staff to look into or monitor staff would be happy to do that.

Chair Molina stated that there are so many for safety to enforce the laws of the road but also kids are killing themselves and causing accidents. They are dangerous and the committees that she sits on now are discussing ebikes and determining what classification it is and then enforcing the rules to keep everybody safe.

M/S/C for the Committee to recommend the Commission take the following action(s):

1) Receive and file the Countywide Transit Report for Fiscal Years (FYs) 2021/22 through 2023/24.

9. FISCAL YEARS 2021/22 - 2023/24 TRANSPORTATION DEVELOPMENT ACT TRIENNIAL PERFORMANCE AUDIT RESULTS FOR THE COMMISSION AND RIVERSIDE COUNTY TRANSIT OPERATORS

Monica Morales, Senior Management Analyst, presented the Fiscal Years 2021/22 – 2023/24 Transportation Development Act Triennial Performance Audit Results for the Commission and Riverside County Transit Operators, highlighting the following:

- Background
  - ✓ The Commission is required per Public Utilities Code 99246 to conduct performance audits on its programs and transit operators receiving Transportation Development Act (TDA) funds

    - Two recommendations:
      - Carryover, city of Beaumont

✓ SunLine Transit Agency (SunLine)
- Continue addressing maintenance facility conditions
- Improve grant financial management

✓ Palo Verde Valley Transit Agency (PVVTA)
- Conduct a comprehensive fare study

- Next steps

Commissioner Bob Karwin stated there are a lot of things on here that make him wonder why they were not done in the first place. An example is the one from SunLine to continue to review maintenance facilities why do they need a recommendation for them to continue to do something they are already doing. If anybody is overseeing the day-to-day operations these are basic recommendations and is concerned about the operational management of these programs. He asked if RCTC has oversight over that.

Monica Morales stated that these recommendations are not always requirements per the guidelines, these are just suggestions that the auditors are recommending RCTC and the operators perform if there is room for more improvement.

Commissioner Karwin stated the reason he asked specifically is because of Chair Molina's question in the previous item which was why they are not achieving the ridership levels that they had before COVID. Is any of this feeding into the reduction in ridership.

Monica Morales replied no this is strictly operational and has nothing to do with actually providing service.

Aaron Hake stated these recommendations are administrative in nature and a lot of it had to do with reminding the agencies they should be reporting to RCTC or the state. Regarding the SunLine maintenance facility, that is the auditor calling out something that they have all already prioritized in their meetings with SunLine. They know and are helping SunLine with that maintenance facility it is an issue of funding and are trying to help SunLine identify funding to get that maintenance facility taken care of. In some of these cases it reminds the operators of things they can step up their game on or in other cases calling out that this should continue to be a priority for that operator, RCTC sees they are addressing it and keeping it on their radar.

Commissioner Karwin asked if it is administration reducing liability or consistency with the service that is causing consumer reflection on that. Some of these things are so basic for an audit that the administration is affecting ridership.

Commissioner Jan Harnik stated that SunLine has been working vigorously on the issues the auditors called out and it is a funding issue. It certainly does not hurt if they go for grant funding to show that the auditors have called this out as something that needs to be done. In the desert when they have those people who have the expertise to work on those buses whether it is hydrogen fuel or other types to be out in that weather is grueling. They have been working on this for a long time, SunLine has been growing, so they need to pay more attention to it. The need for transit has grown and SunLine has been diligent in addressing this issue and it is good that RCTC is aware of it so they can help SunLine. The second thing there is grant management, getting more grants to help with those projects is important and that RCTC can help SunLine and that the auditors highlighted it is also an asset in that process.

Commissioner Karwin suggested seeing an update on this sooner than later for the level of compliance with the auditors' suggestions. There are a lot of suggestions here that if they are implemented on a daily basis would increase rider confidence and performance.

Monica Morales clarified that they review this every year through the Short Range Transit Plan process. Staff is reviewing the recommendations provided by the auditors as well as in addition they are required to do this audit every three years, so they do see where they are with the recommendations every single year.

M/S/C for the Committee to recommend the Commission take the following action(s):

1) **Receive and file the Fiscal Years (FYs) 2021/22 through 2023/24 Transportation Development Act (TDA) Triennial Performance Audit report for the Commission; and**
2) **Receive and file the FYs 2021/22 through 2023/24 TDA Triennial Performance Audit reports for the cities of Banning, Beaumont, Corona, and Riverside; Palo Verde Valley Transit Agency (PVVTA); Riverside Transit Agency (RTA); and SunLine Transit Agency (SunLine).**

10. STATE AND FEDERAL LEGISLATIVE UPDATE

Tyler Madary, Legislative Affairs Manager, presented an update on state and federal legislative activities, including a support position on AB 1855 by Assemblymember Jeff Gonzalez.

Chair Molina thanked Tyler Madary for a good report and stated that advocacy has grown from when Assemblymember Gonzalez first proposed it, which is good news. Also, a trip to Washington, D.C. is wonderful.

Aaron Hake stated next week Chair Gregory and Second Vice Chair Washington will be going with staff to Washington D.C. and they have a great schedule of meetings. That line up of coauthors on that bill is a result of the hard work of RCTC's Government Relations team and the trip they made to Sacramento to meet with members to let them know what RCTC is doing and to advocate.

Chair Molina stated that she has been on one of those trips and they really do appreciate it when the Commissioners come out there and ask questions.

Aaron Hake stated that February 20 was the deadline to introduce bills in the Legislature. There will be a bunch of bills they will find out about within the next week between the time this committee takes a position on this bill and the Commission meets. There may be a bill or two that staff wants to take directly to the Commission for support just because of the timing of policy hearing in the Legislature. He anticipates there will be a bill related to Vehicle Miles Traveled (VMT) that would reform how that is working in a way that would be favorable to the Commission. They do not have that bill here today because it has not been printed but he may ask for advance forgiveness from this Committee to bring a bill like that to the Commission so they can weigh in on it and advocate in Sacramento.

Commissioner Bob Magee stated to Aaron Hake related to VMT he would be supporting only if the gas tax goes away.

Aaron Hake clarified that he is not talking about the bill pertaining to switching from a gas tax revenue model to a VMT model. He is talking about the California Environmental

Quality Act (CEQA) process where they are having to mitigate for VMT in their environmental documents at great expense. There are efforts in the Legislature to amend that process so that it is not as costly for their projects.

Commissioner Magee stated that Senator Tony Strickland is going to be advocating for a stay on all gas taxes in the state of California so that might be something if he got any traction that the Commission would want to get behind.

M/S/C (Harnik/Fitzpatrick) for the Committee to recommend the Commission take the following action(s):

1) Receive and file a state and federal legislative update; and
2) Adopt the following bill position:
a) AB 1855 (Gonzalez) – Support.

Chair Molina thanked the Commissioners for participating in these committee meetings as they get a lot done and appreciated all their time.

11. ITEM(S) PULLED FROM CONSENT CALENDAR AGENDA

There were no items pulled from the Consent Calendar.

12. EXECUTIVE DIRECTOR REPORT

Aaron Hake:

- Regarding the two transit items that were heard earlier today, he thanked the Multimodal team for working for a long time on these audits and working with all the transit operators in a very collaborative and cooperative fashion. He thanked RCTC's transit operators as they put a lot into this and worked collaboratively with staff and the auditor. Staff will be monitoring those recommendations and reporting back to the Commission through their regular Short Range Transit Plan process that they do on an annual basis.
- Thanked and acknowledged Jennifer Fuller for the budget presentation. It was five years ago that Jennifer Fuller came to RCTC from the Western Riverside County Regional Conservation Authority (RCA) and congratulated her on her new position as Deputy Director of Finance and what she is leading this year in RCTC's budget.
- On February 20, RCTC began data collection on the Interstate 15 SMART Freeway Project which is a big deal and should be celebrated as a win. That project is now collecting baseline data on what the traffic is on northbound I-15 through Temecula. There will be a 90-day data collection period where they will establish the baseline of what the traffic patterns look like before they flip the switch on the SMART freeway system. It is a big milestone, and it is the first time this type

of technology has been turned on in California. He congratulated the project team, Caltrans, and their leadership that they are quietly operating in the background now.

13. COMMISSIONER COMMENTS

There were no comments from the Commissioners.

14. ADJOURNMENT

There being no further business for consideration by the Budget and Implementation Committee, the meeting was adjourned at 10:15 a.m.

Respectfully submitted,

The bill, which the Commission sponsored and voted to support on March 11, expands California Environmental Quality Act (CEQA) exemptions to certain passenger rail projects, such as the Coachella Valley Rail Project. Staff is conducting outreach to educate stakeholders about the benefits of the legislation and to solicit support.

Federal Update

Fiscal Year 2027 Appropriations

As part of the federal Fiscal Year (FY) 2027 appropriations process, staff submitted applications to Riverside County's congressional delegation for Community Project Funding (CPF)/Congressionally Directed Spending (CDS), otherwise known as earmarks. These requests include:

- $10 million for the Interstate 15 Express Lanes Project Southern Extension, submitted to Representative Ken Calvert (Corona);
- $10 million for the 91 Eastbound Corridor Operations Project, submitted to Representative Young Kim (Anaheim);

- $3 million for the Interstate 15 Express Lanes Project Southern Extension, submitted to Senators Alex Padilla and Adam Schiff;
- $5 million for a new regional arterial in the communities of Hemet, San Jacinto, and Winchester (formerly the State Route 79 Realignment Project), submitted to Representative Raul Ruiz (Indio);
- $3 million for a new regional arterial in the communities of Hemet, San Jacinto, and Winchester (formerly the State Route 79 Realignment Project), submitted to Senators Alex Padilla and Adam Schiff; and
- $3 million for the Mead Valley Metrolink Station/Mobility Hub, submitted to Representative Mark Takano (Riverside).

Senators and Members of Congress must now review the applications received and determine if they wish to submit those funding requests to their respective Appropriations subcommittees for consideration for inclusion in FY 2027 appropriations legislation. Staff will keep the Commission updated as the process continues.

March 4-5 Washington, D.C. Trip

On March 4 and 5, RCTC Chair Raymond Gregory and Second Vice Chair Chuck Washington traveled to Washington, D.C. with RCTC staff to meet with administration officials and representatives in Congress to advocate in support of RCTC's priority projects and legislative proposals for the next surface transportation reauthorization. Meetings were held with Senator Alex Padilla, Representative Ken Calvert (Corona), Representative Young Kim (Anaheim), Representative Mark Takano (Riverside), as well as professional staff from the offices of Representative Raul Ruiz, Representative Darrell Issa, and Representative Norma Torres. Additionally, RCTC met with Loren Smith, Deputy Assistant Secretary for Policy at the U.S. Department of Transportation as well as Drew Feeley, Deputy Administrator for the Federal Railroad Administration.

These meetings served as an opportunity to highlight the Commission's progress on key projects including the Coachella Valley Rail Project, Interstate 15 Express Lanes Project Southern Extension, and 91 Eastbound Corridor Operations Project, and advance surface transportation reauthorization proposals to restore county transportation commission distribution of federal formula funds and expedite passenger rail project delivery.

TO:	Budget and Implementation Committee
FROM:	Sheldon Peterson, Rail Manager
THROUGH:	Lorelle Moe-Luna, Multimodal Services Director
SUBJECT:	Master Agreements and Resolutions with Caltrans for State-Funded Transit Projects, Transit and Intercity Rail Capital Program, and State Rail Assistance Program

STAFF RECOMMENDATION:

This item is for the Committee to recommend the Commission take the following action(s):

1) Adopt Resolution No. 26-005, "*Authorization for the Execution of a Master Agreement and Program Supplements for State- Funded Projects"* with California Department of Transportation (Caltrans);
2) Approve Agreement No. 26-25-065-00 with Caltrans for state-funded transit projects;
3) Adopt Resolution No. 26-004, *"Authorization for the Execution of a Master Agreement and Program Supplements for Transit and Intercity Rail Capital Program (TIRCP)-Funded Projects"* with Caltrans;
4) Approve Agreement No. 26-25-064-00 with Caltrans for state-funded TIRCP projects;
5) Adopt the State Rail Assistance (SRA) program, Resolution No. 26-006, *"Authorization for the Execution of the State Rail Assistance Project"* with Caltrans, the Authorized Agent Form, and Certification Assurances; and
6) Authorize the Executive Director, pursuant to legal counsel review, to finalize and execute the agreement and future program supplements on behalf of the Commission.

BACKGROUND INFORMATION:

In its role as the Regional Transportation Planning Agency, the Commission regularly enters into funding agreements with various agencies to deliver projects and programs for regional transportation projects. This item updates and expands on previous agreements to provide state funding for critical infrastructure.

Caltrans Master Agreement for State Funded Transit Projects and Resolution

Going as far back as 2001, the Commission has maintained a master agreement for state-funded transit projects with Caltrans. This agreement allows the Commission the opportunity to use state transit funds for commuter rail and transit projects. The duration of the agreements are

typically ten years, and the current agreement is due for renewal. The new agreement will go into effect once signed and continue until January 2036. This master agreement will apply to funding from the following state sources:

- General Fund
- State Highway Account
- Public Transportation Account
- Clean Air and Transportation Improvement Act of 1990 (Proposition 116) Bond Fund
- Traffic Congestion Relief Fund, GC 14556.40
- Proposition 1A, the Safe, Reliable High-Speed Passenger Train Bond Act
- Road Repair and Accountability Act of 2017, Senate Bill 1
- 2018 Local Partnership Program
- Other State Funding Sources (Existing and Future), except the Transit and Intercity Rail Program (TIRCP)

This multi-year agreement will identify the key procedures, administration and oversight regarding the general funding process. On a project-by-project basis, a more detailed Program Supplement Agreement (PSA) will be developed cooperatively with Caltrans to finalize the specific funding and terms. Staff recommends adoption of Resolution No. 26-005 (Attachment 1), *"Resolution of the Riverside County Transportation Commission regarding Authorization for the Execution of a Master Agreement, and Program Supplements for State-Funded Projects*" and approval of Agreement No. 26-25-065-00 (Attachment 2) with Caltrans for state-funded transit projects.

The next major project requiring state transit funds will be the Coachella Valley Corridor that will be requesting state funds for environmental and preliminary design efforts.

Caltrans Master Agreement for TIRCP Projects and Resolution

The original TIRCP program was created by Senate Bill 862 and modified by SB 9, to provide grants from the Greenhouse Gas Reduction Fund (GGRF) to fund transformative capital improvements that will modernize California's intercity, commuter, and urban rail systems and bus and ferry transit systems to significantly reduce emissions of greenhouse gases, vehicle miles traveled, and congestion. The objectives of the program are to:

- Reduce greenhouse gas emissions;
- Expand and improve transit service to increase ridership;
- Integrate the state's various rail operations, including integration with the high-speed rail system; and
- Improve transit safety.

The Commission has been successful with several TIRCP grants for regional rail projects including the South Perris Double Track Platform, Perris Valley Line Double Track Project, and most recently the Mead Valley Metrolink Station and Mobility Hub project. To receive these TIRCP grant funds,

Caltrans requires that the Commission update its master agreement. Caltrans uses the master agreement and related PSAs for state-funded transit projects in order to properly administer and reimburse state transit funds to regional and local agencies. The new agreement will go into effect once signed and continue until January 2036. Staff recommends adoption of Resolution No. 26-004 (Attachment 3), *"Authorization for the Execution of a Master Agreement and Program Supplements for Transit and Intercity Rail Capital Program-Funded Projects"* and approval of Agreement No. 26-25-064-00 (Attachment 4) with Caltrans for state-funded TIRCP projects.

State Rail Assistance (SRA) Program

The Commission is also the recipient of SRA program funding that is part of Senate Bill 1. The funds will be applied to the Coachella Valley San Gorgonio Pass Rail Corridor Study Tier 2 Environmental Impact Report and Conceptual Engineering Development Report in the amount of $5,942,510. The Commission recently approved the contract to move forward with this Tier 2 project development, and this will require specific actions to make these SRA funds available. The administrative guidelines for the SRA program require the Commission to approve Resolution No. 26-006, *"Authorization for the Execution of the State Rail Assistance Project"* (Attachment 5), the Authorized Agent Form (Attachment 6), and the Certifications and Assurances form (Attachment 7). After approval of these elements, staff will submit a project allocation request form which will allow the state to distribute the SRA funding for this project.

FISCAL IMPACT:

There is no fiscal impact for approval of this item.

This AGREEMENT, entered into effective as of the date set forth above, is between the signatory public entity identified hereinabove, hereinafter referred to as **RECIPIENT**, and the STATE OF CALIFORNIA, acting by and through its Department of Transportation, hereinafter referred to as **STATE**.

ARTICLE I - PROJECT ADMINISTRATION

Section 1. Program Supplement

A. *General*

(1) This AGREEMENT shall have no force and effect with respect to any PROJECT unless and until a separate PROJECT specific "PROGRAM SUPPLEMENT – STATE FUNDED TRANSIT PROJECT(S)," hereinafter referred to as "PROGRAM

SUPPLEMENT," adopting all of the terms and conditions of this AGREEMENT has been fully executed by both **STATE** and **RECIPIENT**.

(2) **RECIPIENT** agrees to complete each defined PROJECT, or the identified PROJECT Phase/Component thereof, described in the PROGRAM SUPPLEMENT adopting all of the terms and conditions of this AGREEMENT.

(3) A financial commitment of actual PROJECT funds will only occur in each detailed and separate PROGRAM SUPPLEMENT. No funds are obligated by the prior execution of this AGREEMENT alone.

(4) **RECIPIENT** further agrees, as a condition to the release and payment of the funds encumbered for the PROJECT described in each PROGRAM SUPPLEMENT, to comply with the terms and conditions of this AGREEMENT and all the agreed-upon Special Covenants and Conditions attached to or made a part of the PROGRAM SUPPLEMENT identifying and defining the nature of that specific PROJECT.

(5) The PROGRAM SUPPLEMENT shall include: a detailed Scope of Work conforming to the included Project Description, a Project Schedule, an Overall Funding Plan, and a Project Financial Plan as required by the applicable Program Guidelines.

a. The Scope of Work shall include a detailed description of the PROJECT and will itemize the major tasks and their estimated costs.
b. The Project Schedule shall include major tasks and/or milestones and their associated beginning and ending dates and duration.
c. The Overall Funding Plan shall itemize the various PROJECT Components, the committed funding program(s) or source(s), and the matching funds to be provided by **RECIPIENT** and/or other funding sources, if any [these Components include Environmental and Permits; Plans, Specifications and Estimates (PS&E); Right-of-Way (ROW); and Construction (including transit vehicle acquisition)].
d. The Project Financial Plan shall identify estimated expenditures for each PROJECT Component by funding source.

(6) Adoption and execution of the PROGRAM SUPPLEMENT by **RECIPIENT** and **STATE**, incorporating the terms and conditions of this AGREEMENT into the PROGRAM SUPPLEMENT as though fully set forth therein, shall be sufficient to bind **RECIPIENT** to these terms and conditions when performing the PROJECT. Unless otherwise expressly delegated to a third-party in a resolution by **RECIPIENT**'s governing body, which delegation must be expressly assented to and concurred in by **STATE**, the PROGRAM SUPPLEMENT shall be managed by **RECIPIENT**.

(7) The estimated cost and scope of each PROJECT will be as described in the applicable PROGRAM SUPPLEMENT. **STATE** funding participation for each PROJECT is limited to those amounts actually encumbered by **STATE** as evidenced in that applicable PROGRAM SUPPLEMENT. A contract awarded by **RECIPIENT** for

DRAFT

PROJECT work in an amount in excess of said approved estimate or the PROGRAM SUPPLEMENT funding limit may exceed any said PROGRAM SUPPLEMENT cost estimate and the limits of **STATE**'s participation provided:

a. **RECIPIENT** provides the necessary additional funding, or
b. A cost increase in **STATE**'s share of PROJECT funding is first requested by **RECIPIENT** (before the cost overrun occurs) and that increase is approved by **STATE** in the form of an Allocation Letter comprising the encumbrance document for that increased **STATE** funding level.

(8) State programmed fund amounts may be increased to cover PROJECT cost increases only if:

a. Such funds are available;
b. **STATE** concurs with that proposed increase; and
c. **STATE** issues an approved Allocation Letter, Fund Shift Letter, or a Time Extension Letter with additional funding as stated in an executed amendment to that PROGRAM SUPPLEMENT.

(9) When additional State programmed funds are not available, **RECIPIENT** agrees that reimbursements of invoiced PROJECT costs paid to **RECIPIENT** will be limited to, and shall not exceed, the amounts already approved in the PROGRAM SUPPLEMENT containing the **STATE** approved encumbrance documents and that any increases in PROJECT costs above that **STATE** supported funding level must be defrayed by **RECIPIENT** with non-State funds.

(10) For each approved PROGRAM SUPPLEMENT, **RECIPIENT** agrees to contribute at least the statutorily or other required local contribution of appropriate matching funds (other than State funds) if any matching funds are specified within the PROGRAM SUPPLEMENT, or any attachment thereto, toward the actual cost of the PROJECT or the amount, if any, specified in an executed SB 2800 (Streets and Highways Code section 164.53) Agreement for local match fund credit, whichever is greater. **RECIPIENT** shall contribute not less than the required match amount toward the cost of the PROJECT in accordance with a schedule of payments as shown in a Project Financial Plan prepared by **RECIPIENT** as part of a PROGRAM SUPPLEMENT.

(11) Upon the stated expiration date of this AGREEMENT, any PROGRAM SUPPLEMENTS executed under this AGREEMENT for a PROJECT with work yet to be completed pursuant to the approved Project Schedule shall be deemed to extend the term of this AGREEMENT only to conform to the specific PROJECT termination or completion date contemplated by the applicable PROGRAM SUPPLEMENT to allow that uncompleted PROJECT to be administered under the extended terms and conditions of this AGREEMENT.

DRAFT

(12) Total project cost includes the cost of a project for all phases (Plans, Specifications, and Estimates (PS&E), Project Approval and Environmental Document (PA&ED) Right-of-Way (ROW), and Construction (CON) including rolling stock) of a Project from start to finish.

B. *Project Overrun*

(1) If **RECIPIENT** and **STATE** determine, at any time during the performance of a PROJECT, that the PROJECT budget may be exceeded, **RECIPIENT** shall take the following steps:

a. Notify the designated **STATE** representative of the nature and projected extent of the overrun and, within a reasonable period thereafter, identify and quantify potential cost savings or other measures which **RECIPIENT** will institute to bring the Project Budget into balance; and

b. Schedule the projected overrun for discussion at the next Quarterly Review meeting; and

c. Identify the source of additional **RECIPIENT** or other third party funds that can be made available to complete PROJECT.

C. *Scope of Work*

(1) **RECIPIENT** shall be responsible for complete performance of the work described in the approved PROGRAM SUPPLEMENT for the PROJECT related to the commitment of encumbered funds. All work shall be accomplished in accordance with the applicable provisions of the Public Utilities Code, the Streets and Highways Code, the Government Code, and other applicable statutes and regulations.

(2) **RECIPIENT** acknowledges and agrees that **RECIPIENT** is the sole control and manager of each PROJECT and its subsequent employment, operation, repair and maintenance for the benefit of the public. **RECIPIENT** shall be solely responsible for complying with the funding and use restrictions established by (a) the statutes from which these funds are derived, (b) the California Transportation Commission (CTC), (c) the State Treasurer, (d) the Internal Revenue Service, (e) the applicable PROGRAM SUPPLEMENT, and (f) this AGREEMENT.

D. *Program Supplement Amendments*

PROGRAM SUPPLEMENT amendments will be required whenever there are CTC-approved changes to the cost, scope of work, or delivery schedule of a PROJECT from those specified in the original PROJECT Application and the original PROGRAM SUPPLEMENT. Those changes shall be mutually binding upon the Parties only following the execution of a PROGRAM SUPPLEMENT amendment.

Section 2. Allowable Costs and Payments

A. *Allowable Costs and Progress Payment Vouchers*

(1) Not more frequently than once a month, but at least quarterly, **RECIPIENT** will prepare and submit to **STATE** (directed to the attention of the appropriate State District Transit Representative) signed Progress Payment Vouchers for actual PROJECT costs incurred and paid for by **RECIPIENT** consistent with the Scope of Work document in the PROGRAM SUPPLEMENT and **STATE** shall pay those uncontested allowable costs once the voucher is approved. If no costs were incurred during any given quarter, **RECIPIENT** is exempt from submitting a signed Progress Payment Voucher; but is still required to present a progress report at each Quarterly Review.

(2) **STATE** shall not be required to reimburse more funds, cumulatively, per quarter of any fiscal year greater than the sums identified and included in the PROJECT Financial Plan. However, accelerated reimbursement of PROJECT funds in excess of the amounts indicated in the Project Financial Plan, cumulatively by fiscal year, may be allowed at the sole discretion of **STATE** if such funds are available for encumbrance to fulfill that need.

(3) Each such voucher will report the total of PROJECT expenditures from all sources (including those of **RECIPIENT** and third parties) and will specify the percent of State reimbursement requested and the fund source. The voucher should also summarize State money requested by PROJECT component (environmental and permits, plans specifications, and estimates (PS&E); right of way; construction; rolling stock; or--if bond funded--private activity usage) and phase, and shall be accompanied by a report describing the overall work status and progress on PROJECT tasks. If applicable, the first voucher shall also be accompanied by a report describing any tasks specified in the PROGRAM SUPPLEMENT which were accomplished prior to the Effective Date of this AGREEMENT or the PROGRAM SUPPLEMENT with costs to be credited toward any required local contribution described in Article II, Section 1 of this Agreement (but only if expended pursuant to any applicable prior executed Agreement for Local Match Fund Credit between **RECIPIENT** and **STATE)**.

(4) An Indirect Cost Rate Proposal and/or Central Service Cost Allocation plan and related documentation approved under cognizant agency regulations are to be provided to **STATE** (Caltrans Audits & Investigations) annually for their review, and approval and filing prior to ADMINISTERING AGENCY seeking reimbursement of indirect costs incurred within each fiscal year being claimed for reimbursement.

B. *Advance Payments (TCR Projects Only)*

(1) Advance reimbursements or payments by **STATE** are not allowed except in the case of TCR funded Projects, and only then when expressly authorized by the CTC.

DRAFT

(2) In order to receive a CTC approved TCR payment advance, **RECIPIENT** must provide duplicate signed invoices to **STATE** requesting payment of that authorized advance.

(3) For TCR Projects approved for advanced payment allocation by the CTC, said advance payment shall be deposited by **RECIPIENT** in an interest bearing account held by institutions with long-term credit ratings of "AA" or better from at least two nationally recognized credit rating agencies, or in instruments issued by and secured by the full faith and credit of the U.S. Government or by an agency of the U.S. Government. No TCR interest earnings may be spent on the PROJECT. Interest earned shall be recorded and documented from the time the TCR funds are first deposited in **RECIPIENT**'s account until all the approved TCR advance funds have been expended or returned to **STATE** together with all accrued interest. Interest earned shall be reported to **STATE**'s Project Coordinator on an annual basis and upon the final PROJECT payment when interest earnings, overpayments, and unexpended advanced TCR funds shall be returned to **STATE** no later than thirty (30) days after PROJECT completion or termination of the PROGRAM SUPPLEMENT, whichever is first in time.

(4) Advanced funds are to be expended only as indicated in the approved TCR Application. **RECIPIENT** must be able to document the expenditures/disbursement of funds advanced to only pay for actual allowable PROJECT costs incurred.

(5) Except as expressly allowed hereinbelow, non-TCR funds and TCR project funds not authorized for advance payment can only be released by **STATE** as reimbursement of actual allowable PROJECT costs already incurred and paid for by **RECIPIENT** no earlier than the effective date of this AGREEMENT and not incurred beyond the AGREEMENT/PROGRAM SUPPLEMENT Termination Date.

(6) Where advance payments are authorized in a PROGRAM SUPPLEMENT, **RECIPIENT** must report and document the expenditure/disbursement of funds advanced to pay for actual eligible PROJECT costs incurred, at least quarterly, using a Progress Payment Voucher to be approved by **STATE**'s District Project Administrator.

C. *Expedited Payments*

Should **RECIPIENT** have a valid Memorandum of Understanding (MOU) for "Expedited Payment" on file with **STATE**'s Accounting Service Center, **RECIPIENT** will, not more frequently than as authorized by that MOU, prepare and submit to **STATE** an Expedited Payment Invoice for reimbursements that are consistent with that MOU, this AGREEMENT, and the applicable PROGRAM SUPPLEMENT. Expedited Payments are subject to policies established in the Caltrans Accounting Manual. One time payments and final payments eligible for expedited pay pursuant to this Section will have ten percent (10%) of each invoice amount withheld until PROJECT completion and **STATE** has evaluated **RECIPIENT**'s performance and made a determination that all requirements assumed under this AGREEMENT and the relevant PROGRAM SUPPLEMENT have been satisfactorily fulfilled by **RECIPIENT**.

DRAFT

D. *Advance Expenditure of Local Funds*

Government Code section 14529.17 (AB 872) allows public agencies to expend their own funds on certain programmed projects prior to the CTC's allocation of funds, and, upon receipt of CTC approval, to then seek reimbursement for those allowable prior expenditures following execution of a PROGRAM SUPPLEMENT wherein **STATE** acknowledges and accepts those statutorily authorized prior expenditures as a credit towards a required **RECIPIENT** match, (if any) or as eligible PROJECT expenditures for reimbursement.

E. *Travel Reimbursement*

Payments to **RECIPIENT** for PROJECT related travel and subsistence expenses of **RECIPIENT** forces and its subcontractors claimed for reimbursement or applied as local match credit shall not exceed rates authorized to be paid rank and file State employees under current State Department of Personnel Administration (DPA) rules. If the rates invoiced by **RECIPIENT** are in excess of those authorized DPA rates, then **RECIPIENT** is responsible for the cost difference, and any overpayments inadvertently paid by **STATE** shall be reimbursed to **STATE** by **RECIPIENT** on demand.

F. *Final Invoice*

The PROGRAM SUPPLEMENT Termination Date refers to the last date for **RECIPIENT** to incur valid PROJECT costs or credits and is the date that the PROGRAM SUPPLEMENT expires. **RECIPIENT** has one hundred and eighty (180) days after that Termination Date to make already incurred final allowable payments to PROJECT contractors or vendors, prepare the PROJECT Closeout Report, and submit the final invoice to **STATE** for reimbursement of allowable PROJECT costs before those remaining State funds are unencumbered and those funds are reverted as no longer available to pay any PROJECT costs. **RECIPIENT** expressly waives any right to allowable reimbursements from **STATE** pursuant to this AGREEMENT for costs incurred after that termination date and for costs invoiced to RECIPIENT for payment after that one hundred and eightieth (180th) day following the PROJECT Termination Date.

ARTICLE II – GENERAL PROVISIONS

Section 1. Funding

A. *Local Match Funds*

Subparagraphs "(1) and (2)" within this Section 1.A. apply only to those PROJECTS where the PROJECT funding is programmed to require a local match. (See individual Program Guidelines for specific funding requirements).

(1) Except where specifically allowed by the applicable PROGRAM SUPPLEMENT, reimbursement of and credits for local matching funds will be made or allowed only for

DRAFT

work performed after the Effective Date of a PROGRAM SUPPLEMENT and prior to the Termination Date unless permitted as local match PROJECT expenditures made prior to the effective date of the PROGRAM SUPPLEMENT pursuant to Government Code section 14529.17 or by an executed SB 2800 Agreement for Local Match Fund Credit.

(2) **RECIPIENT** agrees to contribute at least the statutorily or other required local contribution of matching funds (other than State or federal funds), if any is specified within the PROGRAM SUPPLEMENT or any attachment thereto, toward the actual cost of the PROJECT or the amount, if any, specified in any executed SB 2800 (Streets and Highways Code Section 164.53) Agreement for local match fund credit, whichever is greater. **RECIPIENT** shall contribute not less than its required match amount toward the PROJECT cost in accordance with a schedule of payments as shown in the Project Financial Plan prepared by **RECIPIENT** and approved by **STATE** as part of a PROGRAM SUPPLEMENT.

B. *Funding Contingencies*

Delivery by **STATE** of all funds encumbered to reimburse allowable PROJECT costs pursuant to this AGREEMENT is contingent upon prior budget action by the Legislature, fund allocation by the CTC or the United States Department of Transportation, and submittal by **RECIPIENT** and approval by **STATE** of all PROJECT documentation, including, without limitation, that required by Government Code section 14085. In the event of the imposition of additional conditions, delays, or a cancellation or reduction in funding, as approved by the Legislature, the CTC or the United States Department of Transportation, **RECIPIENT** shall be excused from meeting the time and expenditure constraints set forth in the Project Financial Plan and the Project Schedule to the extent of such delay, cancellation or reduction and the PROGRAM SUPPLEMENT will be amended to reflect the resultant necessary changes in PROJECT funding, scope, or scheduling.

C. *Funds Movement*

RECIPIENT shall not make any proposed changes in any of the four PROJECT expenditure Components (Environmental and Permits, PS&E, Right-of-Way and Construction), including major equipment acquisitions without prior written **STATE** approval. **STATE** will also determine whether those proposed changes are significant enough to warrant CTC review. Specific rules and guidelines regarding this process may be detailed in the applicable CTC Resolutions, including, but not limited to, numbers G-06-04 and G-06-20 or their successors.

Section 2. Audits and Reports

A. *Cost Principles*

(1) **RECIPIENT** agrees to comply with Title 2 Code of Federal Regulations 200 (2 CFR 200), Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards.

DRAFT

(2) **RECIPIENT** agrees, and will assure that its contractors and subcontractors will be obligated to agree to follow 2 CFR 200 and it shall be used to determine the allowability of individual Project cost items. Every sub-recipient receiving Project funds as a contractor or sub-contractor under this agreement shall comply with 2 CFR 200.

(3) Any PROJECT costs for which **RECIPIENT** has received payment or credit that are determined by subsequent audit to be unallowable under 2 CFR 200, are subject to repayment by **RECIPIENT** to **STATE**. Should **RECIPIENT** fail to reimburse moneys due **STATE** within thirty (30) days of demand, or within such other period as may be agreed in writing between the Parties hereto, **STATE** is authorized to intercept and withhold future payments due **RECIPIENT** from **STATE** or any third-party source, including but not limited to, the State Treasurer, the State Controller and the CTC.

B. *Record Retention*

(1) **RECIPIENT** agrees, and will assure that its contractors and subcontractors shall establish and maintain an accounting system and records that properly accumulate and segregate incurred PROJECT costs and matching funds by line item for the PROJECT. The accounting system of **RECIPIENT**, its contractors and all subcontractors shall conform to Generally Accepted Accounting Principles (GAAP), enable the determination of incurred costs at interim points of completion, and provide support for reimbursement payment vouchers or invoices. All accounting records and other supporting papers of **RECIPIENT**, its contractors and subcontractors connected with PROJECT performance under this AGREEMENT and each PROGRAM SUPPLEMENT shall be maintained for a minimum of three (3) years from the date of final payment to **RECIPIENT** under a PROGRAM SUPPLEMENT and shall be held open to inspection, copying, and audit by representatives of **STATE**, the California State Auditor, and auditors representing the federal government. Copies thereof will be furnished by **RECIPIENT**, its contractors, and subcontractors upon receipt of any request made by **STATE** or its agents. In conducting an audit of the costs and match credits claimed under this AGREEMENT, **STATE** will rely to the maximum extent possible on any prior audit of **RECIPIENT** pursuant to the provisions of federal and State law. In the absence of such an audit, any acceptable audit work performed by **RECIPIENT**'s external and internal auditors may be relied upon and used by **STATE** when planning and conducting additional audits.

(2) For the purpose of determining compliance with Title 21, California Code of Regulations, Section 2500 et seq., when applicable, and other matters connected with the performance of **RECIPIENT**'s contracts with third parties pursuant to Government Code section 8546.7, **RECIPIENT**, **RECIPIENT**'s contractors and subcontractors and **STATE** shall each maintain and make available for inspection all books, documents, papers, accounting records, and other evidence pertaining to the performance of such

DRAFT

contracts, including, but not limited to, the costs of administering those various contracts. All of the above referenced parties shall make such AGREEMENT and PROGRAM SUPPLEMENT materials available at their respective offices at all reasonable times during the entire PROJECT period and for three (3) years from the date of final payment to **RECIPIENT** under any PROGRAM SUPPLEMENT. **STATE**, the California State Auditor, or any duly authorized representative of **STATE** or the United States Department of Transportation, shall each have access to any books, records, and documents that are pertinent to a PROJECT for audits, examinations, excerpts, and transactions, and **RECIPIENT** shall furnish copies thereof if requested.

(3) **RECIPIENT**, its contractors and subcontractors will permit access to all records of employment, employment advertisements, employment application forms, and other pertinent data and records by the State Fair Employment Practices and Housing Commission, or any other agency of the State of California designated by **STATE**, for the purpose of any investigation to ascertain compliance with this AGREEMENT.

C. *Quarterly Review*

(1) Subject to the discretion of **STATE**, **RECIPIENT** and **STATE** agree to conduct, on a quarterly basis, on-site reviews of all aspects of the progress of each PROJECT. **RECIPIENT** agrees, during each quarterly progress review, to inform **STATE** regarding:

a. Whether the PROJECT is proceeding on schedule and within budget;
b. Any requested changes to the Project Description, Scope of Work, Project Schedule, Overall Funding Plan, or Project Financial Plan contained in a PROGRAM SUPPLEMENT;
c. Major construction accomplishments during the quarter;
d. Any actual or anticipated problems which could lead to delays in schedule, increased costs or other difficulties;
e. The status of the PROJECT budget; and
f. The status of critical elements of PROJECT.

(2) Quarterly reviews of **RECIPIENT** progress will include consideration of whether reported implementation activities are within the scope of the PROJECT PROGRAM SUPPLEMENT and in compliance with State laws, regulations, and administrative requirements.

Section 3. Special Requirements

A. *California Transportation Commission (CTC) Resolutions*

(1) **RECIPIENT** shall adhere to applicable CTC policies, as may be adopted or amended from time to time, governing eligibility, project management, use of funds including,

DRAFT

but not limited to the "Timely Use of Funds" as stated in Resolution G-06-04, adopted April 26, 2006, addressing the expenditure and reimbursement of TCR funds and Resolution G-09-11, adopted October 14, 2009, to provide guidance for the use of Proposition 116 and STIP funds. All CTC resolutions, and/or successor resolutions in place at the time a PROGRAM SUPPLEMENT is executed, shall be applicable to all state funded projects including, but not limited to Prop 116, STIP, TCR funds, Proposition 1A, and the Road Repair and Accountability Act of 2017, respectively.

(2) **RECIPIENT** shall be bound to the terms and conditions of this AGREEMENT; the PROJECT application contained in the PROGRAM SUPPLEMENT (as applicable); and CTC Resolutions G-06-04, G-09-11 and/or their respective successors in place at the time the PROGRAM SUPPLEMENT is signed (as applicable) and all restrictions, rights, duties and obligations established therein on behalf of **STATE** and CTC shall accrue to the benefit of the CTC and shall thereafter be subject to any necessary enforcement action by CTC or **STATE**. All terms and conditions stated in the aforesaid CTC Resolutions and CTC-approved Guidelines in place at the time the PROGRAM SUPPLEMENT is signed (if applicable) shall also be considered to be binding provisions of this AGREEMENT.

(3) **RECIPIENT** shall conform to any and all permit and mitigation duties associated with PROJECT as well as all environmental obligations established in CTC Resolution G-91-2 and/or its successors in place at the time a PROGRAM SUPPLEMENT is signed, as applicable, at the expense of **RECIPIENT** and/or the responsible party and without any further financial contributions or obligations on the part of **STATE** unless a separate PROGRAM SUPPLEMENT expressly provides funding for the specific purpose of hazardous materials remediation.

(4) **RECIPIENT** acknowledges when the PROGRAM SUPPLEMENT is executed the **RECIPIENT** is to comply with all CTC resolutions as adopted or currently amended as well as the guidelines, and policies applicable to state funded programs (or projects) including, but not limited to, Prop 116, STIP, TCR, Proposition 1A, and the Road Repair and Accountability Act of 2017.

B. ***RECIPIENT*** *Resolution*

(1) **RECIPIENT** has executed this AGREEMENT pursuant to the authorizing **RECIPIENT** resolution, attached as Attachment II to this AGREEMENT, which empowers **RECIPIENT** to enter into this AGREEMENT and which may also empower **RECIPIENT** to enter into all subsequent PROGRAM SUPPLEMENTS adopting the provisions of this AGREEMENT.

(2) If **RECIPIENT** or **STATE** determines that a separate Resolution is needed for each PROGRAM SUPPLEMENT, **RECIPIENT** will provide information as to who the authorized designee is to act on behalf of the **RECIPIENT** to bind **RECIPIENT** with

DRAFT

regard to the terms and conditions of any said PROGRAM SUPPLEMENT or amendment and will provide a copy of that additional Resolution to **STATE** with the PROGRAM SUPPLEMENT or any amendment to that document.

C. *Termination*

(1) **STATE** reserves the right to terminate funding for any PROGRAM SUPPLEMENT upon written notice to **RECIPIENT** in the event that **RECIPIENT** fails to proceed with PROJECT work in accordance with the PROGRAM SUPPLEMENT, the bonding requirements, if applicable, or otherwise violates the conditions of this AGREEMENT and/or the PROGRAM SUPPLEMENT or the funding allocation such that substantial performance is significantly endangered.

(2) No such termination shall become effective if, within thirty (30) days after receipt of a Notice of Termination, **RECIPIENT** either cures the default involved or, if not reasonably susceptible of cure within said thirty (30)-day period, **RECIPIENT** proceeds thereafter to complete the cure in a manner and time line acceptable to **STATE**. Any such termination shall be accomplished by delivery to **RECIPIENT** of a Notice of Termination, which notice shall become effective not less than thirty (30) days after receipt, specifying the reason for the termination, the extent to which funding of work under this AGREEMENT is terminated and the date upon which such termination becomes effective, if beyond thirty (30) days after receipt. During the period before the effective termination date, **RECIPIENT** and **STATE** shall meet to attempt to resolve any dispute.

(3) Following a fund encumbrance made pursuant to a PROGRAM SUPPLEMENT, if **RECIPIENT** fails to expend TCR/GENERAL FUND monies by June 30 of any applicable Fiscal Year that those funds would revert, those funds will be deemed withdrawn and will no longer be available to reimburse PROJECT work unless those funds are specifically made available beyond the end of that Fiscal Year through re-appropriation or other equivalent action of the Legislature and written notice of that action is provided to **RECIPIENT** by **STATE**.

(4) In the event **STATE** terminates a PROGRAM SUPPLEMENT for convenience and not for a default on the part of **RECIPIENT** as is contemplated in C (1) and (2) above of this Section 3, **RECIPIENT** shall be reimbursed its authorized costs up to **STATE**'s proportionate and maximum share of allowable PROJECT costs incurred to the date of **RECIPIENT**'s receipt of that notice of termination, including any unavoidable costs reasonably and necessarily incurred up to and following that termination date by **RECIPIENT** to effect such termination following receipt of that termination notice.

D. *Third Party Contracting*

(1) **RECIPIENT** shall not award a construction contract over $10,000 or other contracts over $25,000 [excluding professional service contracts of the type which are required to

DRAFT

be procured in accordance with Government Code Sections 4525 (d), (e) and (f)] on the basis of a noncompetitive negotiation for work to be performed under this AGREEMENT without the prior written approval of **STATE**. Contracts awarded by **RECIPIENT**, if intended as local match credit, must meet the requirements set forth in this AGREEMENT regarding local match funds.

(2) Any subcontract entered into by **RECIPIENT** as a result of this AGREEMENT shall contain the provisions of ARTICLE II – GENERAL PROVISIONS, Section 2. Audits and Reports and shall mandate that travel and per diem reimbursements and third-party contract reimbursements to subcontractors will be allowable as PROJECT costs only after those costs are incurred and paid for by the subcontractors.

(3) To be eligible for local match credit, **RECIPIENT** must ensure that local match funds used for the PROJECT meet the General Provisions requirements outlined in this ARTICLE II in the same manner as required of all other PROJECT expenditures.

(4) In addition to the above, the preaward requirements of third party contractor/consultants with local transit agencies should be consistent with Local Program Procedures (LPP-00-05).

E. *Change in Funds and Terms/Amendments*

This AGREEMENT and the resultant PROGRAM SUPPLEMENTS may be modified, altered, or revised only with the joint written consent of **RECIPIENT** and **STATE**.

F. *Project Ownership*

(1) Unless expressly provided to the contrary in a PROGRAM SUPPLEMENT, subject to the terms and provisions of this AGREEMENT, **RECIPIENT**, or a designated subrecipient acceptable to **STATE**, as applicable, shall be the sole owner of all improvements and property included in the PROJECT constructed, installed or acquired by **RECIPIENT** or subrecipient with funding provided to **RECIPIENT** under this AGREEMENT. **RECIPIENT**, or subrecipient, as applicable, is obligated to continue operation and maintenance of the physical aspects of the PROJECT dedicated to the public transportation purposes for which PROJECT was initially approved unless **RECIPIENT**, or subrecipient, as applicable, ceases ownership of such PROJECT property; ceases to utilize the PROJECT property for the intended public transportation purposes; or sells or transfers title to or control over PROJECT and **STATE** is refunded the Credits due **STATE** as provided in paragraph (4) herein below.

(2) Should State bond funds be encumbered to fund any part of a PROJECT under this AGREEMENT, then, at **STATE**'s option, before **RECIPIENT** will be permitted to make any proposed change in use, **RECIPIENT** shall be required to first obtain a determination by Bond Counsel acceptable to the State Treasurer's Office and **STATE**

DRAFT

that a change in the operation, proportion, or scope of PROJECT as originally proposed by **RECIPIENT** will not adversely affect the tax exempt status of those bonds.

(3) PROJECT right-of-way, PROJECT facilities constructed or reconstructed on a PROJECT site and/or PROJECT property (including vehicles and vessels) purchased by **RECIPIENT** (excluding temporary construction easements and excess property whose proportionate resale proceeds are distributed pursuant to this AGREEMENT) shall remain permanently dedicated to the described public transit use in the same proportion and scope, and to the same extent as mandated in the PROGRAM SUPPLEMENT and related Bond Fund Certification documents, if applicable, unless **STATE** agrees otherwise in writing. Vehicles acquired as part of PROJECT, including, but not limited to, buses, vans, rail passenger equipment and ferry vessels, shall be dedicated to that public transportation use for their full economic life cycle, which, for the purpose of this AGREEMENT, will be determined in accordance with standard national transit practices and applicable rules and guidelines, including any extensions of that life cycle achievable by reconstruction, rehabilitation or enhancements.

(4) (a) Except as otherwise set forth in this Section 4, **STATE**, or any other **STATE**-assignee public body acting on behalf of the CTC, shall be entitled to a refund or credit (collectively the Credit), at **STATE**'s sole option, equivalent to the proportionate PROJECT funding participation received by **RECIPIENT** from **STATE** if **RECIPIENT,** or a sub-recipient, as applicable, (i) ceases to utilize PROJECT for the original intended public transportation purposes or (ii) sells or transfers title to or control over PROJECT. If federal funds (meaning only those federal funds received directly by **RECIPIENT** and not federal funds derived through or from the State) have contributed to the PROJECT, **RECIPIENT** shall notify both **STATE** and the original federal source of those funds of the disposition of the PROJECT assets or the intended use of those sale or transfer receipts.

(b) **STATE** shall also be entitled to an acquisition Credit for any future purchase or condemnation of all or portions of PROJECT by **STATE** or a designated representative or agent of **STATE**.

(c) The Credit due **STATE** will be determined by the ratio of **STATE**'s funding when measured against the **RECIPIENT**'s funding participation (the Ratio). For purposes of this Section 4, the State's funding participation includes federal funds derived through or from **STATE**. That Ratio is to be applied to the then present fair market value of PROJECT property acquired or constructed as provided in (d) and (e) below.

(d) For Mass Transit vehicles, this Credit [to be deducted from the then remaining equipment value] shall be equivalent to the percentage of the full extendable vehicle economic life cycle remaining, multiplied by the Ratio of funds provided for that equipment acquisition. For real property, this same funding Ratio shall be applied

DRAFT

to the then present fair market value, as determined by **STATE**, of the PROJECT property acquired or improved under this AGREEMENT.

(e) Such Credit due **STATE** as a refund shall not be required if **RECIPIENT** dedicates the proceeds of such sale or transfer exclusively to a new or replacement **STATE** approved public transit purpose, which replacement facility or vehicles will then also be subject to the identical use restrictions for that new public purpose and the Credit ratio due **STATE** should that replacement project or those replacement vehicles cease to be used for that intended described pre-approved public transit purpose.

(1) In determining the present fair market value of property for purposes of calculating **STATE**'s Credit under this AGREEMENT, any real property portions of a PROJECT site contributed by **RECIPIENT** shall not be included. In determining **STATE**'s proportionate funding participation, **STATE**'s contributions to third parties (other than **RECIPIENT**) shall be included if those contributions are incorporated into the PROJECT.

(2) Once **STATE** has received the Credit as provided for above because **RECIPIENT**, or a sub-recipient, as applicable**,** has (a) ceased to utilize the PROJECT for the described intended public transportation purpose(s) for which **STATE** funding was provided and **STATE** has not consented to that cessation of services or (b) sold or transferred title to or control over PROJECT to another party (absent **STATE** approval for the continued transit operation of the PROJECT by that successor party under an assignment of **RECIPIENT**'s duties and obligations), neither **RECIPIENT**, subrecipient, nor any party to whom **RECIPIENT** or subrecipient, as applicable, has transferred said title or control shall have any further obligation under this AGREEMENT to continue operation of PROJECT and/or PROJECT facilities for those described public transportation purposes, but may then use PROJECT and/or any of its facilities for any lawful purpose.

(3) To the extent that **RECIPIENT** operates and maintains Intermodal Transfer Stations as any integral part of PROJECT, **RECIPIENT** shall maintain each station and all its appurtenances, including, but not limited to, restroom facilities, in good condition and repair in accordance with high standards of cleanliness (Public Utilities Code section 99317.8). Upon request of **STATE**, **RECIPIENT** shall also authorize State-funded bus services to use those stations and appurtenances without any charge to **STATE** or the bus operator. This permitted use will include the placement of signs and informational material designed to alert the public to the availability of the State-funded bus service (for the purpose of this paragraph, "State-funded bus service" means any bus service funded pursuant to Public Utilities Code section 99316).

DRAFT

(4) Special conditions apply to any proposed sale or transfer or change of use as respects PROJECT property, facilities or equipment acquired with tax free State bond funds and **RECIPIENT** shall conform to those restrictions as set forth herein and in said bonds.

G. *Disputes*

STATE and **RECIPIENT** shall deal in good faith and attempt to resolve potential disputes informally. If the dispute persists, **RECIPIENT** shall submit to the **STATE's** Project Manager or designee a written demand for a decision regarding the disposition of any dispute arising under this agreement. The Department's Program Manager shall make a written decision regarding the dispute and will provide it to the fund **RECIPIENT**. The fund **RECIPIENT** shall have an opportunity to challenge the Department's Program Manager determination but must make that challenge in writing within ten (10) working days to the Department's Senior Project Manager or his/her designee. [If the fund **RECIPIENT** challenge is not made within the ten (10) day period, the Department's Senior Project Manager's decision shall become the final decision of the **STATE**.] **STATE** and **RECIPIENT** shall submit written, factual information and supporting data in support their respective positions. The decision of the Department's Senior Project Manager's or his/her designee shall be final, conclusive and binding regarding the dispute, unless **RECIPIENT** commences an action in court of competent jurisdiction to contest the decision in accordance with Division 3.6 of the California Government Code.

H. *Hold Harmless and Indemnification*

(1) Neither **STATE** nor any officer or employee thereof shall be responsible for any damage or liability occurring by reason of anything done or omitted to be done by **RECIPIENT**, its agents and contractors under or in connection with any work, authority, or jurisdiction delegated to **RECIPIENT** under this AGREEMENT or any PROGRAM SUPPLEMENT or as respects environmental clean-up obligations or duties of **RECIPIENT** relative to PROJECT. It is also understood and agreed that, **RECIPIENT** shall fully defend, indemnify and hold the CTC and **STATE** and their officers and employees harmless from any liability imposed for injury and damages or environmental obligations or duties arising or created by reason of anything done or imposed by operation of law or assumed by, or omitted to be done by **RECIPIENT** under or in connection with any work, authority, or jurisdiction delegated to **RECIPIENT** under this AGREEMENT and all PROGRAM SUPPLEMENTS.

(2) **RECIPIENT** shall indemnify, defend and hold harmless **STATE**, the CTC and the State Treasurer relative to any misuse by **RECIPIENT** of State funds, PROJECT property, PROJECT generated income or other fiscal acts or omissions of **RECIPIENT**.

I. *Labor Code Compliance*

DRAFT

RECIPIENT shall include in all subcontracts awarded using PROJECT funds, when applicable, a clause that requires each subcontractor to comply with California Labor Code requirements that all workers employed on public works aspects of any project (as defined in California Labor Code §§ 1720-1815) be paid not less than the general prevailing wage rates predetermined by the Department of Industrial Relations as effective the date of Contract award by the **RECIPIENT**.

J. *Non-Discrimination*

(1) In the performance of work under this AGREEMENT, **RECIPIENT**, its contractor(s) and all subcontractors, shall not unlawfully discriminate, harass or allow harassment against any employee or applicant for employment because of sex, race, color, ancestry, religious creed, national origin, physical disability (including HIV and AIDS), mental disability, medical condition (cancer), age, marital status, family and medical care leave, pregnancy leave, and disability leave. **RECIPIENT**, its contractor(s) and all subcontractors shall ensure that the evaluation and treatment of their employees and applicants for employment are free from such discrimination and harassment. **RECIPIENT**, its contractor(s) and all subcontractors shall comply with the provisions of the Fair Employment and Housing Act (Government Code section 12900 et seq.), and the applicable regulations promulgated thereunder (California Code of Regulations, Title 2, section 11000 et seq.). The applicable regulations of the Fair Employment and Housing Commission implementing Government Code section 12990 (a-f), set forth in Chapter 5 of Division 4 of Title 2 of the California Code of Regulations, are incorporated into this AGREEMENT by reference and made a part hereof as if set forth in full. Each of **RECIPIENT**'s contractors and all subcontractors shall give written notice of their obligations under this clause to labor organizations with which they have a collective bargaining or other agreements, as appropriate.

(2) Should federal funds be constituted as part of PROJECT funding or compensation received by **RECIPIENT** under a separate Contract during the performance of this AGREEMENT, **RECIPIENT** shall comply with this AGREEMENT and with all federal mandated contract provisions as set forth in that applicable federal funding agreement.

(3) **RECIPIENT** shall include the non-discrimination and compliance provisions of this clause in all contracts and subcontracts to perform work under this AGREEMENT.

K. *State Fire Marshal Building Standards Code*

The State Fire Marshal adopts building standards for fire safety and panic prevention. Such regulations pertain to fire protection design and construction, means of egress and adequacy of exits, installation of fire alarms, and fire extinguishment systems for any State-owned or State-occupied buildings per section 13108 of the Health and Safety Code. When applicable, **RECIPIENT** shall request that the State Fire Marshal review PROJECT PS&E to ensure PROJECT consistency with State fire protection standards.

DRAFT

L. *Americans with Disabilities Act*

By signing this Master Agreement, **RECIPIENT** assures **STATE** that **RECIPIENT** shall comply with the Americans with Disabilities Act (ADA) of 1990, which prohibits discrimination on the basis of disability, as well as all applicable regulations and guidelines issued pursuant to the ADA (42 U.S.C. 12101 et seq.).

M. *Access for Persons with Disabilities*

Disabled access review by the Department of General Services (Division of the State Architect) is required for all publicly funded construction of buildings, structures, sidewalks, curbs and related facilities. RECIPIENT will award no construction contract unless **RECIPIENT**'s plans and specifications for such facilities conform to the provisions of sections 4450 and 4454 of the California Government Code, if applicable. Further requirements and guidance are provided in Title 24 of the California Code of Regulations.

N. *Disabled Veterans Program Requirements*

(1) Should Military and Veterans Code sections 999 et seq. be applicable to **RECIPIENT**, **RECIPIENT** will meet, or make good faith efforts to meet, the 3% Disabled Veterans Business Enterprises goals (or **RECIPIENT**'s applicable higher goals) in the award of every contract for PROJECT work to be performed under these this AGREEMENT.
(2) **RECIPIENT** shall have the sole duty and authority under this AGREEMENT and each PROGRAM SUPPLEMENT to determine whether these referenced code sections are applicable to **RECIPIENT** and, if so, whether good faith efforts asserted by those contractors of **RECIPIENT** were sufficient as outlined in Military and Veterans Code sections 999 et seq.

O. *Environmental Process*

Completion of the PROJECT environmental process ("clearance") by **RECIPIENT** (and/or **STATE** if it affects a State facility within the meaning of the applicable statutes) is required prior to requesting PROJECT funds for right-of-way purchase or construction. No State agency may request funds nor shall any State agency, board or commission authorize expenditures of funds for any PROJECT effort, except for feasibility or planning studies, which may have a significant effect on the environment unless such a request is accompanied with all appropriate documentation of compliance with or exemption from the California Environmental Quality Act (CEQA) (including, if as appropriate, an environmental impact report, negative declaration, or notice of exemption) under California Public Resources Code section 21080(b) (10), (11), and (12) provides an exemption for a passenger rail project that institutes or increases passenger or commuter services on rail or highway rights-of-way already in use.

P. *Force Majeure*

DRAFT

Each party will be excused from performance of its obligations where such non-performance is caused by any extraordinary event beyond its reasonable control, such as any non-appealable order, rule or regulation of any federal or state governmental body, fire, flood, earthquake, storm, hurricane or other natural disaster, epidemic, pandemic, war, invasion, act of foreign enemies, hostilities (regardless of whether war is declared), civil war, rebellion, revolution, insurrection, military or usurped power or confiscation, terrorist activities, nationalization, government sanction, blockage, embargo, labor dispute, strike, lockout or interruption, provided that the party excused hereunder shall use all reasonable efforts to minimize its non-performance and to overcome, remedy or remove such event in the shortest practical time.

Should a force majeure event occur which renders it impossible for a period of forty-five (45) or more consecutive days for either party to perform its obligations hereunder, the Parties agree to negotiate in good faith to amend the existing Master Agreement or Supplemental Agreement to deal with such event and to seek additional sources of funding to continue the operation of the Service.

ARTICLE III – SPECIAL PROVISIONS

Section 1. Bond Provisions (Applicable only to State Bond Funding encumbered against a specific Program Supplement).

A. *General Bond Provisions*

(1) If **RECIPIENT** enters into a management contract with a private party (including AMTRAK) for operation of rail, ferry or other transportation services in connection with PROJECT, **RECIPIENT** will obtain prior approval from Bond Counsel acceptable to **STATE** that the terms of that management contract meet the requirements of Internal Revenue Service Revenue Procedure 97-13 (as supplemented or amended) or any successor thereto (dealing generally with guidelines for when management contracts may be deemed not to create a "private use" of bond-financed property) or are otherwise acceptable. **RECIPIENT** must also be prepared to certify, upon request of **STATE**, that the revenues which **RECIPIENT** (or its manager) will receive directly from the operation of transportation services in connection with PROJECT (but not including any subsidy of the transportation operation from taxes or other outside fund sources) are, for any fiscal year, less than the ordinary and necessary expenses directly attributable to the operation and maintenance of the transportation system (excluding any overhead or administrative costs of **RECIPIENT**).

(2) Except as provided in this Article III, A (1), **STATE** and **RECIPIENT** agree that any costs of PROJECT acquired or constructed by **RECIPIENT** allocable to portions of PROJECT which are subject to any property interests held by a non-governmental person(s) in connection with business activities, such as easements, leases, or fee interests, not generally enjoyed by the public (hereinafter referred to as "Non-Governmentally Used Property" or "NUP") shall require the prior approval of **STATE** and the State Treasurer, as applicable. If **RECIPIENT** receives any revenues or profits

DRAFT

from any NUP activities allowed pursuant to this Article (whether approved at this time or hereafter approved by **STATE**), **RECIPIENT** agrees that such revenues or profits shall be used exclusively for the public transportation services for which PROJECT was initially approved, either for capital improvements or operating costs. If **RECIPIENT** does not so dedicate those revenues or profits, a proportionate share shall (unless disapproved by Bond Counsel) be paid to **STATE** equivalent to the Ratio of **STATE**'s percentage of participation in PROJECT.

(3) Notwithstanding the foregoing, **RECIPIENT** may be authorized to receive an allocation of bond proceeds for NUP activity, in an amount not to exceed the amount specified in the PROGRAM SUPPLEMENT, if **RECIPIENT** submits a certified bond certification questionnaire to the **STATE**, and both the **STATE** and the State Treasurer approve the private activities contained therein.

(4) **RECIPIENT** shall not loan any portion of bond proceeds funding PROJECT to any private (including nonprofit) person or business. For this purpose, a "loan" includes any arrangement that is the economic equivalent of a loan, regardless of how it is named.

(5) Delivery by **STATE** of any bond funds is contingent on the sale of bonds by the State Treasurer. **STATE** shall not be held liable for any resulting damage or penalty to **RECIPIENT** in the event bond sales are delayed, canceled, or downsized or other AGREEMENT funds are restricted, limited or otherwise conditioned by acts of Congress, the Internal Revenue Service, the United States Department of Transportation, the Legislature, or the CTC.

(6) **RECIPIENT** shall, for the purposes of any State bond funded right of way acquisition which will become a permanent part of PROJECT (such acquisitions exclude temporary construction easements, property allocated to matching funds, and excess property purchased with State funds whose resale proceeds are returned or credited to **STATE**), maintain ownership of such PROJECT property for a minimum of twenty years or until the bonds have matured, whichever occurs first, before transferring or selling such property (subject to all refunds or Credits due **STATE** as provided hereinabove).

(7) Where **RECIPIENT**'s PROJECT includes a commuter rail PROJECT within the meaning of Proposition 116, **RECIPIENT** shall coordinate and share with other public transit operators any rail rights-of-way, common maintenance services and station facilities used for intercity and commuter rail. Intercity and commuter rail services shall be coordinated with each other, with other providers and with freight traffic to provide integrated rail passenger and freight services with minimal conflict.

(8) **RECIPIENT** agrees that all passenger vehicles, rail, and water borne ferry equipment, and all facilities acquired or constructed with Proposition 116 bond funds shall be accessible to persons with physical disabilities, including wheelchair users, at all stops, stations and terminals, whether or not staffed.

DRAFT

(9) NUP shall, for accounting and bookkeeping purposes, first be allocated to funding sources other than the State bond funds. For purposes of making such allocations, the costs attributable to NUP involving a sale, easement, lease or similar arrangement shall be determined on the basis of a fair allocation of value, which may include determinations based upon square meters/feet of the area encumbered by the NUP lease or easement relative to the total area acquired or constructed if all such area is of approximately equal value.

(10) NUP will include, but is not limited to, property which is sold (including sales of air and subsurface rights), and property subject to easements, leases or similar rights. A rail right of way will not be treated as NUP solely as a result of a Freight Use Easement retained by the seller of the right of way to **RECIPIENT**, provided that the sales agreement appropriately excludes the Freight Use Easement from the property or rights being acquired. Further, notwithstanding anything in this Article III to the contrary, **RECIPIENT** may allocate grant funds to the cost of any NUP if (a) neither **RECIPIENT** nor any other governmental entity will receive, directly or indirectly, any payments from or on behalf of the non-governmental user of the NUP, or (b) the payment from such user does not exceed the operation and maintenance costs fairly attributable or allocable to the non-governmental use of the NUP.

(11) **RECIPIENT** shall request, in writing, **STATE**'s advance approval if PROJECT funds are to be allocated to any NUP except "incidental use" property described below. If property, the costs of which have previously been allocated to PROJECT funds, is to become NUP before the State bond funds are fully paid or redeemed, then **RECIPIENT** may allocate the costs of such property to another funding source as provided or obtain **STATE**'s approval that the allocation of the costs of such property to the bond funds may remain. It is anticipated that **STATE**'s approval will be granted if, taking into account the existing and expected uses of the proceeds of the State bonds, **STATE** determines that the continued tax-exempt status of the State bonds will not be adversely affected and that the use of the property is consistent with PROJECT and its described purpose.

(12) For purposes of these fund source allocations, **RECIPIENT** does not have to consider NUP as including those "incidental uses" of PROJECT (for example, advertising billboards, vending machines, telephones, etc.) which meet the applicable requirements of federal tax regulations (IRS Notice 87-69 or any successor thereto). In general, such Notice requires that the incidental use not be physically separated from the rest of PROJECT and not comprise, in the aggregate, more than 2-1/2% of the total costs of PROJECT.

Section 2. TCRP PROJECTS

The TRAFFIC CONGESTION RELIEF (TCR) ACT OF 2000 (the "ACT"), was added (in Chapter 4.5, commencing with section 14556) to part 5.3 of Division 3 of Title 2 of the

DRAFT

Government Code by AB 2928 and SB 406, as amended by SB 1662 and AB 1705. As directed by the ACT and the CTC established Guidelines (as set out in CTC Resolution G-06-04), and as those Guidelines may be amended prior to the execution of a future PROGRAM SUPPLEMENT, said Guidelines shall apply to each TCRP funded PROJECT. By this reference, those Guidelines are made an express part of this AGREEMENT and shall apply to each TCRP funded PROJECT. **RECIPIENT** will cause its specific TCRP mandated Resolution to be attached as part of any TCRP funded PROGRAM SUPPLEMENT as a condition precedent to the acceptance of TCR ACT funds for that PROJECT.

Section 3. PROJECT MANAGEMENT

(1) **STATE's** PROJECT administrator for this AGREEMENT shall be the chief of the State Transit Grants Branch of the Division of Local Assistance. **RECIPIENT**'s General Manager, Executive Director or a Designee as named in writing to **STATE** following execution of this AGREEMENT shall be the administrator acting for **RECIPIENT**.

(2) PROGRAM SUPPLEMENT administrators for **STATE** shall be the applicable District Division Chief for Planning and for **RECIPIENT**, the designee named in the applicable PROGRAM SUPPLEMENT.

CTC RESOLUTION G-91-2
Passed by the CTC on February 21, 1991

CALIFORNIA TRANSPORTATION COMMISSION
RESOLUTION G-9l-2
Commission Policy Resolution for Hazardous Waste Identification and Cleanup for Rail Right-of-Way

WHEREAS, the Commission has programmed funding for rail right-of-way acquisition in the 1990 State Transportation Improvement Program and may allocate funds for rail right-of-way acquisition from the Clean Air and Transportation Improvement Act; and

WHEREAS, hazardous wastes, based upon federal and state statutes and regulations, include but are not limited to such categories as heavy metals, (e.g., lead), inorganic (e.g., excessive mineral levels) and organic compounds (e.g., petroleum products), and can occur on a property's surface and subsurface; and

WHEREAS, rail properties often have hazardous wastes exceeding State of California and federal hazardous waste standards; and

WHEREAS, such properties contaminated with hazardous wastes require mitigation prior to using them for rail purposes; and

WHEREAS, hazardous wastes discovered on rail property may significantly impact property value, project scheduling and future liability for the grant applicant; and

WHEREAS, the Commission must be assured that acquisition of rail properties have been fully reviewed by the grant applicant, and if warranted, the grant applicant has tested for hazardous wastes; and

WHEREAS, if hazardous wastes exist, the Commission must be assured that the hazardous wastes identified has either been cleaned up, or financial responsibility for the cleanup has been determined prior to title transfer to the grant applicant, or easement has been secured in lieu of purchasing the property, and the subsurface rights and liability for hazardous wastes remain with the property seller; and

WHEREAS, hazardous wastes identified subsequent to title transfer to the grant applicant will be cleaned up by the seller or a mechanism to recover clean-up-costs is established and executed as a condition prior to title transfer; and

WHEREAS, full due diligence is necessary in discovering hazardous waste and is an essential element in acquiring rail right-of-way properties by the grant applicant; and

NOW THEREFORE BE IT RESOLVED, that acquisition of all rail right-of-way properties will be fully investigated by the grant applicant to determine the absence/presence of hazardous wastes. Investigations shall be conducted in accordance to the standards and practices of the local, state and/or federal regulatory agencies having jurisdiction and by personnel adequately trained in hazardous waste investigation; and

DRAFT

-2-

BE IT FURTHER RESOLVED, that all properties, discovered with hazardous wastes, which exceed the federal/state standards, will be cleaned up to the satisfaction of the responsible local, state and/or federal regulatory agency. The appropriate regulatory agency shall certify to grant applicant that the cleanup has been completed; and

BE IT FURTHER RESOLVED, that the grant applicant will certify by formal resolution to the Commission that all reasonable steps have been completed to assure full due diligence in the discovery of hazardous waste has been achieved during the acquisition of rail right-of-way and the state is held harmless from cleanup liability or damages, both present and future; and

BE IT FURTHER RESOLVED, that the grant applicant will certify by formal resolution that it will not seek further state funding, for cleanup, damages, or liability cost associated with hazardous wastes on or below acquired property's surface; and

BE IT FURTHER RESOLVED, that the grant applicant will certify to the Commission:

- that all rail right-of-way acquisition properties have been investigated and have been found clean;
- or that the cleanup of discovered hazardous waste has been completed prior to acquisition of the property;
- or that the grant applicant has obtained permanent easement and the subsurface rights and liability and full responsibility to pay for and remove such hazardous waste remains with the seller in conformance with applicable State and Federal law;
- or if hazardous wastes are known to exist prior to acquisition and if the applicant determines that time is of the essence for acquisition, then and in that event, an enforceable agreement will be entered into requiring the responsible party(ies) to clean all hazardous wastes by a date certain, with the option of funds sufficient for the clean-up costs deposited in escrow by the seller.

In the event of failure to clean up by the date determined, the recipient of the grant will make full restitution to the **STATE** for its participation. This resolve does not preclude the recipient from requesting re-allocation not to exceed the refunded amount after the hazardous waste(s) have been fully removed from the subject site; and

BE IT FURTHER RESOLVED, that the grant applicant will certify to the Commission that the seller from whom properties have been acquired retain liability for any hazardous waste investigation and/or cleanup, and damages discovered subsequent to the transfer of title; and

BE IT FURTHER RESOLVED, the Commission declares all future liability resulting from hazardous wastes remain with the seller or the grant applicant, not the state, and the grant applicant has been indemnified by the seller for any costs resulting from failure to eliminate hazardous wastes; and

BE IT FURTHER RESOLVED, no state funds will be made available for any future costs associated with cleanup; damages, or liability costs associated with hazardous wastes on or below the acquired property's surface.

Effective Date of this Agreement: January 1, 2026 or upon final signature, whichever is later

Termination Date of this Agreement: January 1, 2036

Recipient: Riverside County Transportation Commission

Application Funding: The Greenhouse Gas Reduction Fund, Senate Bill 1 Fund, and General Fund are the applicable funding sources covered by this Agreement and will be identified in each specific Program Supplement, adopting the terms of this Agreement.

RECITALS

1. WHEREAS, The Global Warming Solutions Act of 2006, codified at Cal. Health & Safety C. § 38500 et seq. (the "Act") (Assembly Bill [AB] 32, Nunez, Chapter 488) created a comprehensive program to reduce greenhouse gas emissions in California. The Act required California to reduce greenhouse gases to 1990 levels by 2020, and to maintain and continue reductions beyond 2020. In March 2012, Governor Brown signed Executive Order B-16-2012 affirming a long-range climate goal for California to reduce greenhouse gases from the transportation sector to 80 percent below 1990 levels by 2050.

2. WHEREAS, the Cap-and-Trade Program is a key element in California's climate plan. It creates a limit on the emissions from sources responsible for 85 percent of California's greenhouse gas emissions, establishes the price signal needed to drive long-term investment in cleaner fuels and more efficient use of energy, and gives covered entities flexibility to implement the lowest-cost options to reduce greenhouse gas emissions.

3. WHEREAS, in 2012, the Legislature passed and Governor Brown signed into law three bills, AB 1532 (Pérez, Chapter 807, Statutes of 2012), Senate Bill (SB) 535 (De León, Chapter 830, Statutes of 2012), and SB 1018 (Budget and Fiscal Review Committee, Chapter 39, Statutes of 2012), that established the Greenhouse Gas Reduction Fund (GGRF) to receive proceeds from the distribution of allowances via auction and provided the framework for how those auction proceeds will be appropriated and expended. These statutes require that expenditures from the

GGRF be used to facilitate the achievement of greenhouse gas emission reductions and further the purposes of the Act.

4. WHEREAS, in 2017, the Legislature passed and Governor Brown signed into law the Road Repair and Accountability Act of 2017 SB 1, which directed additional funding to the Transit and Intercity Rail Capital Program (TIRCP).

5. WHEREAS, TIRCP is funded pursuant to Public Resources Code section 75220 et seq. and Health and Safety Code section 39719 et seq.

6. WHEREAS, as directed by Cal. Pub. Resources C. sections 75223, 75224, CalSTA has established and updated TIRCP Program Guidelines that describe the policy, standards, criteria, and procedures for the development, adoption and management of the TIRCP Program.

7. WHEREAS, Recipient submitted an application, been evaluated and selected by CalSTA in accordance with the TIRCP Program Guidelines.

8. WHEREAS, on August 17, 2015, CalSTA delegated the administration of the TIRCP Program to the Department pursuant to the TIRCP Program Guidelines and the Department's policies and procedures for the administration of similar grant programs.

9. NOW THEREFORE, in consideration of the recitals and the rights, duties and covenants set forth herein, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree to the following:

10. This Agreement, entered into effective as of the date set forth above, is between the signatory public entity identified hereinabove, (hereinafter referred to as Recipient), and the STATE OF CALIFORNIA, acting by and through the California Department of Transportation (hereinafter referred to as DEPARTMENT), and subject to the approval of the California State Transportation Agency (CalSTA).

Section 2. Program Supplement

A. *General*

1. This Agreement shall have no force and effect with respect to the Project unless and until a separate Project specific program supplement hereinafter referred to as "Program Supplement," adopting all of the terms and conditions of this Agreement has been fully executed by both State and Recipient.

2. Recipient agrees to complete the defined scope of work for the Project, described in the Program Supplement adopting all of the terms and conditions of this Agreement.

3. A financial commitment of actual funds will only occur in each detailed and separate Program Supplement. No funds are obligated by the prior execution of this Agreement alone.

4. Recipient further agrees, as a condition to the release and payment of the funds encumbered for the scope of work described in each Program Supplement, to comply with the terms and conditions of this Agreement and all the agreed-upon special covenants and conditions attached to or made a part of the Program Supplement identifying and defining the nature of that specific scope of work.

5. The Program Supplement shall include a detailed scope of work, which shall include but not be limited to, a Project Description, a Project Schedule, an Overall Funding Plan, and a Project Financial Plan as required in the TIRCP Program Guidelines.

a. The Scope of Work shall include a detailed description of the Project and will itemize the major tasks and their estimated costs.

b. The Project Schedule shall include major tasks and/or milestones and their associated beginning and ending dates and duration.

c. The Overall Funding Plan shall itemize the various Project Components, the committed funding program(s) or source(s), and the matching funds to be provided by Recipient and/or other funding sources, if any [these Components include Environmental and Permits; Plans, Specifications and Estimates (PS&E); Right-of-Way (ROW); and Construction (including transit vehicle acquisition)].

d. The Project Financial Plan shall identify estimated expenditures for the Project Component by funding source, provided that for the purposes of this Agreement the State is only monitoring compliance for expenditures for the TIRCP, including but not limited to GGRF, SB 1 and/or General Funds allocated for the Project Component.

6. Adoption and execution of the Program Supplement by Recipient and State, incorporating the terms and conditions of this Agreement into the Program Supplement as though fully set forth therein, shall be sufficient to bind Recipient to these terms and conditions when performing the Project. Unless otherwise expressly delegated to a third-party in a resolution by Recipient's governing body, which delegation must be expressly assented to and concurred in by State, the Program Supplement shall be managed by Recipient.

7. The estimated cost and scope of the Project will be as described in the applicable Program Supplement. The State shall not participate in any funding for the Project beyond those amounts actually encumbered by the STATE as evidenced in the applicable Program Supplement unless the appropriate steps are followed and approval is granted by the CTC as described below.

8. Upon the stated expiration date of this Agreement, any Program Supplement executed under this Agreement for the Project with obligations yet to be completed pursuant to the approved Project Schedule, deliverables, and reporting requirements shall be deemed to extend the term of this Agreement only to conform to the specific Project termination or completion date, including completion of deliverables and reporting requirements, contemplated by the

applicable Program Supplement to allow that uncompleted Project to be administered under the extended terms and conditions of this Agreement.

9. Total project cost includes the cost of a project for all phases (Plans, Specifications, and Estimates (PS&E), Project Approval and Environmental Document (PA&ED) Right-of-Way (ROW), and Construction (CON) including rolling stock) of a Project from start to finish.

B. *Project Overrun*

1. If Recipient or the State determine, at any time during the performance of the Project, that the Project budget may be exceeded, Recipient shall take the following steps:

a. Notify the designated State representative of the nature and projected extent of the overrun and, within a reasonable period thereafter, identify and quantify potential cost savings or other measures which Recipient will institute to bring the Project Budget into balance; and

b. Identify the source of additional Recipient or other third-party funds that can be made available to complete Project. Recipient agrees that the allocation of the GGRF, SB 1 and/or General Funds is subject to the allocation proposed by the CalSTA, submitted by the State, and approved by the CTC.

C. *Cost Savings and Project Completion*

1. Recipient is encouraged to evaluate design and construction alternatives that would mitigate the costs of delivering the commitments for the Project. Recipient shall take all steps necessary on a commercially reasonable basis that would generally be taken in accordance with best management practices. In determining cost savings, the Parties shall take into account all avoided costs, including avoided design, material, equipment, labor, construction, testing, acceptance and overhead costs and avoided costs due to time savings, and all the savings in financing costs associated with such avoided costs.

2. If there is an identification and implementation of any CalSTA approved alternative resulting in reduction of the Project costs, the parties agree that the recipient shall provide a prorated share of Project or TIRCP funded Project component cost savings based on the overall project match to the Department no later than 30 days after the submission of the final invoice. Subject to CalSTA's approval, savings may be used towards another project component or towards increasing project benefits that are consistent with the original project award while maintaining the overall project match referenced in the project award and program supplements.

DRAFT

3. Program supplements will indicate the Project or Component proration of funding match.

4. The Recipient agrees to complete the Project and accepts sole responsibility for the payment of any cost increases. If either the Project or the funded components are not completed, the Recipient shall bear the burden of full TIRCP funds reimbursement to the Department.

D. Scope of Work

1. Recipient shall be responsible for complete performance of the work described in the approved Program Supplement for the Project related to the commitment of encumbered funds. All work shall be accomplished in accordance with the applicable provisions of the Act, Public Utilities Code, the Streets and Highways Code, the Government Code, and other applicable statutes and regulations.

2. Recipient acknowledges and agrees that Recipient is the sole control and manager of the Project and its subsequent employment, operation, repair and maintenance for the benefit of the public. Recipient shall be solely responsible for complying with the funding and use restrictions established by (a) the statutes from which the GGRF, SB1, and General Funds are derived, (b) the CTC, (c) the State Treasurer, (d) the Internal Revenue Service, (e) the applicable Program Supplement, and (f) this Agreement.

3. Recipient acknowledges and agrees that the Recipient is responsible for complying with all reporting requirements established by the TIRCP Guidelines and California Air Resource Board (CARB) Funding Guidelines.

E. Program Supplement Amendments

Program Supplement amendments will be required whenever there are CalSTA or CTC approved actions, including but not limited to, Financial Allocations, Financial Allocation Amendments, Time Extensions and Technical Corrections. These changes shall be mutually binding upon the Parties only following the execution of a Program Supplement amendment.

Section 3. Allowable Costs and Payments

A. *Allowable Costs and Progress Payment Invoice*

1. Not more frequently than once a month, Recipient will prepare and submit to State signed Progress Payment Invoice for actual Project costs incurred and paid for by Recipient consistent with the allocation and Scope of Work document in the Program Supplement and State shall pay those uncontested allowable

costs once the invoice is reviewed and approved by the Department, subject to CalSTA's approval. If no costs were incurred during any given quarter, Recipient is exempt from submitting a signed Progress Payment Invoice.

2. State shall not be required to reimburse more funds, cumulatively, per quarter of any fiscal year greater than the sums identified and included in the Project Financial Plan. The State shall hold the right to determine reimbursement availability based on an approved expenditure plan and TIRCP anticipated or actual funding capacity. Each such invoice will report the total of Project expenditures from GGRF, SB 1 and/or General Funds (including those of Recipient and third parties) and will specify the percent of State reimbursement requested and the GGRF, SB 1 and/or General Funds source.

B. *Final Invoice*

The Program Supplement Last Expenditure Dates(s) refer to the last date for Recipient to incur valid Project costs or credits. Recipient has one hundred and eighty (180) days after that Last Expenditure Date to make already incurred final allowable payments to Project contractors or vendors, prepare the Project Closeout Report, and submit the final invoice to State for reimbursement of allowable Project costs before those remaining State funds are unencumbered and those funds are reverted as no longer available to pay any Project costs. Recipient expressly waives any right to allowable reimbursements from State pursuant to this Agreement for costs incurred after that termination date and for costs invoiced to Recipient for payment after that one hundred and eightieth (180th) day following the Project Last Expenditure Date.

ARTICLE III – GENERAL PROVISIONS

Section 1. Funding

1. Recipient agrees to contribute at least the statutorily or other required local contribution of matching funds (other than State or federal funds), if any is specified within the Program Supplement or any appendices thereto, toward the actual cost of the Project or the amount, if any, specified in any executed SB 2800 (Streets and Highways Code Section 164.53) Agreement for local match fund credit, whichever is greater. Recipient shall contribute not less than its required match amount toward the Project cost in accordance with a schedule of payments as shown in the Project Financial Plan prepared by Recipient and approved by State as part of a Program Supplement.

Section 2. Audits and Reports

A. *Cost Principles*

1. Recipient agrees to comply with Title 2 Code of Federal Regulations 200 (2 CFR 200) Uniform Administrative Requirements, Cost Principles for State and Local Government, and Audit Requirements for Federal Awards.

2. Recipient agrees, and will assure that its contractors and subcontractors will be obligated to follow 2 CFR 200 and which shall be used to determine the allowability of individual Project cost items. Every sub-recipient receiving Project funds as a contractor or sub-contractor under this Agreement shall comply with 2 CFR 200.

3. Any Project costs for which Recipient has received payment or credit that are determined by subsequent audit to be unallowable under 2 CFR 200, are subject to repayment by Recipient to State. Should Recipient fail to reimburse moneys due State within thirty (30) days of demand, or within such other period as may be agreed in writing between the Parties hereto, State is authorized to intercept and withhold future payments due to Recipient from State or any third-party source whose funding passes through the State, including but not limited to, the State Treasurer, the State Controller and the CTC.

4. The State may terminate the grant for any reason at any time if it is determined by the State, based on an audit under this section, that there has been a violation of any State or federal law or policy by the Recipient during performance under this or any other grant agreement or contract entered into with the State. If the grant is terminated under this section, the Recipient may be required to fully or partially repay funds.

B. *Record Retention*

1. Recipient agrees, and will assure that its contractors and subcontractors shall establish and maintain an accounting system and records that properly accumulate and segregate incurred Project costs and matching funds by line item for the Project. The accounting system of Recipient, its contractors and all subcontractors shall conform to Generally Accepted Accounting Principles (GAAP), enable the determination of incurred costs at interim points of completion, and provide support for reimbursement payment vouchers or invoices. All accounting records and other supporting papers of Recipient, its contractors and subcontractors connected with Project performance under this Agreement and each Program Supplement shall be maintained for a minimum of three (3) years from the date of final payment to Recipient under a Program Supplement and shall be held open to inspection, copying, and audit by representatives of State, the California State Auditor, and auditors representing

the federal government. Copies thereof will be furnished by Recipient, its contractors, and subcontractors upon receipt of any request made by State or its agents. In conducting an audit of the costs and match credits claimed under this Agreement, State will rely to the maximum extent possible on any prior audit of Recipient pursuant to the provisions of federal and State law. In the absence of such an audit, any acceptable audit work performed by Recipient's external and internal auditors may be relied upon and used by State when planning and conducting additional audits.

2. For the purpose of determining compliance with Title 21, California Code of Regulations, Section 2500 et seq., when applicable, and other matters connected with the performance of Recipient's contracts with third parties pursuant to Government Code section 8546.7, Recipient, Recipient's contractors and subcontractors, and State shall each maintain and make available for inspection all books, documents, papers, accounting records, and other evidence pertaining to the performance of such contracts, including, but not limited to, the costs of administering those various contracts. All of the above referenced parties shall make such Agreement and Program Supplement materials available at their respective offices at all reasonable times during the entire Project period and for three (3) years from the date of final payment to Recipient under any Program Supplement. State, the California State Auditor, or any duly authorized representative of State or the United States Department of Transportation, shall each have access to any books, records, and documents that are pertinent to the Project for audits, examinations, excerpts, and transactions, and Recipient shall furnish copies thereof if requested.

3. Recipient, its contractors and subcontractors will permit access to all records of employment, employment advertisements, employment application forms, and other pertinent data and records by the State Fair Employment Practices and Housing Commission, or any other agency of the State of California designated by State, for the purpose of any investigation to ascertain compliance with this Agreement and the Act.

c. *Reporting Requirements*

1. Reporting requirements of Recipient will include whether reported implementation activities are within the scope of the Project Program Supplement and in compliance with State laws, regulations, and administrative requirements.

2. TIRCP Progress Reporting shall be no more frequently than monthly and no less frequently than quarterly at the discretion of the State and shall generally include the following information;

a. Activities and progress made towards implementation of the project during the reporting period and activities anticipated to take place in the next reporting period;

b. Identification of whether the Project is proceeding on schedule and within budget;

c. Identification of whether the Project Deliverables are proceeding on schedule.

d. Identification of changes to the Project funding plan, milestone schedule, or deliverables completion date;

e. Any actual or anticipated problems which could lead to delays in schedule, increased costs or other difficulties for either the Project or other State funded projects impacted by the Project's scope of work and the efforts or activities being undertaken to minimize impacts to schedule, cost, or deliverables;

3. CARB Reporting shall be no more frequently than monthly and no less frequently than semiannually at the discretion of CARB and shall include the following information (subject to modification by CARB);

a. Identify metrics and benefits achieved for disadvantaged communities, low income communities, and/or low-income households;

b. continued reporting following project implementation to identify benefits achieved.

c. Any and all other requirements instituted by CARB.

4. Within one year of the Project or reportable Project components becoming operable, the implementing agency must provide a final delivery report including at a minimum:

a. Scope of completed Project as compared to Programmed Project;

b. Performance outcomes derived from the project as compared to outcomes described in the Project application and shall include but not be limited to before and after measurements and estimates for ridership, service levels, greenhouse gas reductions, updated estimated greenhouse gas reductions over the life of the project, benefits to disadvantaged communities, low income communities, and/or low income households, and project co-benefits as well as an explanation of the methodology used to quantify the benefits.

c. Before and after photos documenting the project

d. The final costs as compared to the approved project budget by component and fund type, and an estimate of the TIRCP funds spent to benefit disadvantaged communities, low-income communities, and/or low-income households, and

e. The project duration as compared to the project schedule in the project application.

Section 3. Special Requirements

A. *California Transportation Commission Resolutions*

1. Recipient shall adhere to applicable CTC policies on "Timely Use of Funds" as stated in Resolution G-06-04, adopted April 26, 2006, addressing the expenditure and reimbursement of GGRF, SB 1 and/or General Funds. These resolutions, and/or successor resolutions in place at the time a Program Supplement is executed, shall be applicable to GGRF, SB 1 and/or General Funds, respectively.

2. Recipient shall be bound to the terms and conditions of this Agreement, the Project application contained in the Program Supplement (as applicable); and CTC Resolutions G-06-04, G-09-11 and/or their respective successors in place at the time the Program Supplement is signed (as applicable) and all restrictions, rights, duties and obligations established therein on behalf of State and CTC shall accrue to the benefit of the CTC and shall thereafter be subject to any necessary enforcement action by CTC or State. All terms and conditions stated in the aforesaid CTC Resolutions and CTC-approved Guidelines in place at the time the Program Supplement is signed (if applicable) shall also be considered to be binding provisions of this Agreement.

3. Recipient shall conform to any and all permit and mitigation duties associated with Project as well as all environmental obligations established in CTC Resolution G-91-2 and/or its successors in place at the time a Program Supplement is signed, as applicable, at the expense of Recipient and/or the responsible party and without any further financial contributions or obligations on the part of State unless a separate Program Supplement expressly provides funding for the specific purpose of hazardous materials remediation.

B. *Recipient Resolution*

1. Recipient has executed this Agreement pursuant to the authorizing Recipient resolution, attached as Appendix B to this Agreement, which empowers Recipient to enter into this Agreement and which may also empower Recipient to enter into all subsequent Program Supplements adopting the provisions of this Agreement.

2. If Recipient or State determines that a separate Resolution is needed for each Program Supplement, Recipient will provide information as to who the authorized designee is to act on behalf of the Recipient to bind Recipient with regard to the terms and conditions of any said Program Supplement or amendment and will provide a copy of that additional Resolution to State with the Program Supplement or any amendment to that document.

C. *Termination*

1. Termination Convenience by State

a. State reserves the right to terminate funding for any Program Supplement, subject to CalSTA approval, upon written notice to Recipient in the event that Recipient fails to proceed with Project work in accordance with the Program Supplement, or otherwise violates the conditions of this Agreement and/or the Program Supplement or the funding allocation such that substantial performance is significantly endangered.

b. No such termination shall become effective if, within thirty (30) days after receipt of a notice of termination, Recipient either cures the default involved or, if not reasonably susceptible of cure within said thirty (30)-day period, Recipient proceeds thereafter to complete the cure in a manner and time line acceptable to State. Any such termination shall be accomplished by delivery to Recipient of a notice of termination, which notice shall become effective not less than thirty (30) days after receipt, specifying the reason for the termination, the extent to which funding of work under this Agreement is terminated and the date upon which such termination becomes effective, if beyond thirty (30) days after receipt. During the period before the effective termination date, Recipient and State shall meet to attempt to resolve any dispute.

c. Following a fund encumbrance made pursuant to a Program Supplement, if Recipient fails to expend GGRF,SB 1, and/or General Funds monies within the time allowed specified in the Program Supplement, those funds may revert, and be deemed withdrawn and will no longer be available to reimburse Project work unless those funds are specifically made available beyond the end of that Fiscal Year through re-appropriation or other equivalent action of the Legislature and written notice of that action is provided to Recipient by State.

d. In the event State terminates a Program Supplement for convenience and not for a default on the part of Recipient as is contemplated in this section, Recipient shall be reimbursed its authorized costs up to State's proportionate and maximum share of allowable Project costs incurred to the date of Recipient's receipt of that notice of termination, including any unavoidable costs reasonably and necessarily incurred up to and following that termination

date by Recipient to effect such termination following receipt of that termination notice.

2. Termination After Recipient's Obligations Fully Performed

Following project completion, and all obligations as defined in the TIRCP Guidelines, CARB Guidelines, and Program Supplement are fully performed, including Project completion of all deliverables and reporting, the Program Supplement shall be terminated. If the Project obligations are not fully performed, as defined under this section, the Recipient may be required to fully or partially repay funds.

D. *Third Party Contracting*

1. Recipient shall not award a construction contract over $10,000 or other contracts over $25,000 [excluding professional service contracts of the type which are required to be procured in accordance with Government Code Sections 4525 (d), (e) and (f)] on the basis of a noncompetitive negotiation for work to be performed under this Agreement without the prior written approval of State. Contracts awarded by Recipient, if intended as local match credit, must meet the requirements set forth in this Agreement regarding local match funds.

2. Any subcontract entered into by Recipient as a result of this Agreement shall contain the provisions of ARTICLE III – GENERAL PROVISIONS, Section 2. Audits and Reports and shall mandate that travel and per diem reimbursements and third-party contract reimbursements to subcontractors will be allowable as Project costs only after those costs are incurred and paid for by the subcontractors.

3. In addition to the above, the preaward requirements of third-party contractor/consultants with local transit agencies should be consistent with Local Program Procedures (LPP-00-05).

E. *Change in Funds and Terms/Amendments*

This Agreement and the resultant Program Supplements may be modified, altered, or revised only with the joint written consent of Recipient and State.

F. *Project Ownership*

1. Unless expressly provided to the contrary in a Program Supplement, subject to the terms and provisions of this Agreement, Recipient, or a designated subrecipient acceptable to State, as applicable, shall be the sole owner of all improvements and property included in the Project constructed, installed or acquired by Recipient or subrecipient with funding provided to Recipient under this Agreement. Recipient, or subrecipient, as applicable, is obligated to

continue operation and maintenance of the physical aspects of the Project dedicated to the public transportation purposes for which Project was initially approved unless Recipient, or subrecipient, as applicable, ceases ownership of such Project property; ceases to utilize the Project property for the intended public transportation purposes; or sells or transfers title to or control over Project and State is refunded the Credits due State as provided in paragraph (2) herein below.

2. Project right-of-way, Project facilities constructed or reconstructed on the Project site and/or Project property (including vehicles and vessels) purchased by Recipient (excluding temporary construction easements and excess property whose proportionate resale proceeds are distributed pursuant to this Agreement) shall remain permanently dedicated to the described public transit use in the same proportion and scope, and to the same extent as mandated in the Program Supplement, unless State agrees otherwise in writing. Vehicles acquired as part of Project, including, but not limited to, buses, vans, rail passenger equipment, shall be dedicated to that public transportation use for their full economic life cycle, which, for the purpose of this Agreement, will be determined in accordance with standard national transit practices and applicable rules and guidelines, including any extensions of that life cycle achievable by reconstruction, rehabilitation or enhancements. The exceptions to this section are outlined below:

a. Except as otherwise set forth in this Section, State, or any other State-assignee public body acting on behalf of the CTC, shall be entitled to a refund or credit (collectively the Credit), at State's sole option, equivalent to the proportionate Project funding participation received by Recipient from State if Recipient, or a sub-recipient, as applicable, (i) ceases to utilize Project for the original intended public transportation purposes or (ii) sells or transfers title to or control over Project. If federal funds (meaning only those federal funds received directly by Recipient and not federal funds derived through or from the State) have contributed to the Project, Recipient shall notify both State and the original federal source of those funds of the disposition of the Project assets or the intended use of those sale or transfer receipts.

b. State shall also be entitled to an acquisition credit for any future purchase or condemnation of all or portions of Project by State or a designated representative or agent of State.

c. The Credit due State will be determined by the ratio of State's funding when measured against the Recipient's funding participation (the Ratio). For purposes of this Section, the State's funding participation includes federal funds derived through or from State. That Ratio is to be applied to the then present fair

market value of Project property acquired or constructed as provided in (d) and (e) below.

d. For Mass Transit vehicles, this Credit [to be deducted from the then remaining equipment value] shall be equivalent to the percentage of the full extendable vehicle economic life cycle remaining, multiplied by the Ratio of funds provided for that equipment acquisition. For real property, this same funding Ratio shall be applied to the then present fair market value, as determined by State, of the Project property acquired or improved under this Agreement.

e. Such Credit due State as a refund shall not be required if Recipient dedicates the proceeds of such sale or transfer exclusively to a new or replacement State approved public transit purpose, which replacement facility or vehicles will then also be subject to the identical use restrictions for that new public purpose and the Credit ratio due State should that replacement project or those replacement vehicles cease to be used for that intended described pre-approved public transit purpose.

i. In determining the present fair market value of property for purposes of calculating State's Credit under this Agreement, any real property portions of the Project site contributed by Recipient shall not be included. In determining State's proportionate funding participation, State's contributions to third parties (other than Recipient) shall be included if those contributions are incorporated into the Project.

ii. Once State has received the Credit as provided for above because Recipient, or a sub-recipient, as applicable, has (a) ceased to utilize the Project for the described intended public transportation purpose(s) for which State funding was provided and State has not consented to that cessation of services or (b) sold or transferred title to or control over Project to another party (absent State approval for the continued transit operation of the Project by that successor party under an assignment of Recipient's duties and obligations), neither Recipient, subrecipient, nor any party to whom Recipient or subrecipient, as applicable, has transferred said title or control shall have any further obligation under this Agreement to continue operation of Project and/or Project facilities for those described public transportation purposes, but may then use Project and/or any of its facilities for any lawful purpose.

iii. To the extent that Recipient operates and maintains Intermodal Transfer Stations as any integral part of Project, Recipient shall maintain each station and all its appurtenances, including, but not limited to, restroom facilities, in good condition and repair in accordance with high standards of cleanliness (Public Utilities Code section 99317.8). Upon request of

State, Recipient shall also authorize State-funded bus services to use those stations and appurtenances without any charge to State or the bus operator. This permitted use will include the placement of signs and informational material designed to alert the public to the availability of the State-funded bus service (for the purpose of this paragraph, "State-funded bus service" means any bus service funded pursuant to Public Utilities Code section 99316).

G. *Disputes*

Parties shall develop a mutually agreed upon issue resolution process, as described below, and issues between the Parties are to be resolved in a timely manner. The Parties agree to the following:

1. If the Parties are unable to reach agreement on any particular issue relating to either Parties' obligations pursuant to this Agreement, the Parties agree to promptly follow the issue resolution process as outlined below:

a. The Department's project manager and the Recipient's equivalent may initiate the process of informal dispute resolution by providing the other Party with written notice of a dispute. The written notice shall provide a clear statement of the dispute and shall refer to the specific provisions of this Agreement or Program Supplement that pertain to the dispute. The Department's project manager and the Recipient's equivalent shall meet and attempt to resolve the dispute within five days from the written notice. If the dispute is resolved, the Parties shall create and sign a short description of the facts and the resolution that was agreed upon by the Parties.

b. If the dispute is not resolved by the fifth day from the written notice, the Department's senior project manager and the Recipient's equivalent shall meet and review the dispute within five days. The Department's senior project manager and the Recipient's equivalent manager shall attempt to resolve the dispute within ten days of their initial meeting. If the dispute is resolved, the Parties shall create and sign a short description of the facts and the resolution that was agreed upon by the Parties.

c. If the dispute is not resolved by the tenth day, the Department's Director or his designee and the Recipient's equivalent manager shall meet and review the dispute within five days. The Department's Director or his designee and the Recipient's equivalent manager shall attempt to resolve the dispute within ten days of the initial meeting. If the dispute is resolved, the Parties shall create and sign a short description of the facts and the resolution that was agreed upon by the Parties. If the dispute is not resolved by the tenth day by the Department's Director or his designee and the Recipient's equivalent manager, the Parties shall submit the matter to the Secretary of CalSTA for a final administrative determination.

H. *Hold Harmless and Indemnification*

1. Neither State nor any officer or employee thereof shall be responsible for any damage or liability occurring by reason of anything done or omitted to be done by Recipient, its agents and contractors under or in connection with any work, authority, or jurisdiction delegated to Recipient under this Agreement or any Program Supplement or as respects environmental clean-up obligations or duties of Recipient relative to Project. It is also understood and agreed that, Recipient shall fully defend, indemnify and hold the CTC and State and their officers and employees harmless from any liability imposed for injury and damages or environmental obligations or duties arising or created by reason of anything done or imposed by operation of law or assumed by, or omitted to be done by Recipient under or in connection with any work, authority, or jurisdiction delegated to Recipient under this Agreement and all Program Supplements.

2. Recipient shall indemnify, defend and hold harmless State, the CTC and the State Treasurer relative to any misuse by Recipient of State funds, Project property, Project generated income or other fiscal acts or omissions of Recipient.

I. *Labor Code Compliance*

Recipient shall include in all subcontracts awarded using Project funds, when applicable, a clause that requires each subcontractor to comply with California Labor Code requirements that all workers employed on public works aspects of any project (as defined in California Labor Code §§ 1720-1815) be paid not less than the general prevailing wage rates predetermined by the Department of Industrial Relations as effective the date of Contract award by the Recipient.

J. *Non-Discrimination Clause*

1. In the performance of work under this Agreement, Recipient, its contractor(s) and all subcontractors, shall not unlawfully discriminate, harass or allow harassment against any employee or applicant for employment because of sex, race, color, ancestry, religious creed, national origin, physical disability, mental disability, medical condition, age, marital status, family and medical care leave, pregnancy leave, and disability leave. Recipient, its contractor(s) and all subcontractors shall ensure that the evaluation and treatment of their employees and applicants for employment are free from such discrimination and harassment. Recipient, its contractor(s) and all subcontractors shall comply with the provisions of the Fair Employment and Housing Act (Government Code section 12900 et seq.), and the applicable regulations promulgated thereunder (California Code of Regulations, Title 2, section 7285 et seq.). The applicable regulations of the Fair Employment and Housing Commission implementing Government Code section 12990 (a-f), set forth in Chapter 5 of Division 4 of Title 2

of the California Code of Regulations, are incorporated into this Agreement by reference and made a part hereof as if set forth in full.

2. Each of the Recipient's contractors, subcontractors, and/or subrecipients shall give written notice of their obligations under this clause to labor organizations with which they have collective bargaining or other labor agreements. The Recipient shall include the non-discrimination and compliance provisions hereof in all contracts and subcontracts to perform work under this Agreement.

3. Should federal funds be constituted as part of Project funding or compensation received by Recipient under a separate Contract during the performance of this Agreement, Recipient shall comply with this Agreement and with all federal mandated contract provisions as set forth in that applicable federal funding agreement.

4. Recipient shall include the non-discrimination and compliance provisions of this clause in all contracts and subcontracts to perform work under this Agreement.

5. The Recipient shall comply with the nondiscrimination program requirements of Title VI of the Civil Rights Act of 1964. Accordingly, 49 CFR 21 (Nondiscrimination in Federally-Assisted Programs of the Department of Transportation—Effectuation of Title VI of The Civil Rights Act of 1964) and 23 CFR Part 200 (Title VI Program and Related Statutes—Implementation and Review Procedures) are made applicable to this Agreement by this reference. Wherever the term "Contractor" appears therein, it shall mean the Recipient.

6. The Recipient shall permit, and shall require that its contractors, subcontractors, and subrecipients will permit, access to all records of employment, employment advertisements, application forms, and other pertinent data and records by the State Fair Employment Practices and Housing Commission or any other agency of the State of California designated by Department to investigate compliance with this Section J.

K. *State Fire Marshal Building Standards Code*

The State Fire Marshal adopts building standards for fire safety and panic prevention. Such regulations pertain to fire protection design and construction, means of egress and adequacy of exits, installation of fire alarms, and fire extinguishment systems for any State-owned or State-occupied buildings per section 13108 of the Health and Safety Code. When applicable, Recipient shall request that the State Fire Marshal review Project PS&E to ensure Project consistency with State fire protection standards.

L. *Americans with Disabilities Act*

By signing this Master Agreement, Recipient assures State that Recipient shall comply with the Americans with Disabilities Act (ADA) of 1990, which prohibits discrimination on the basis of disability, as well as all applicable regulations and guidelines issued pursuant to the ADA (42 U.S.C. 12101 et seq.).

M. *Access for Persons with Disabilities*

Disabled access review by the Department of General Services (Division of the State Architect) is required for all publicly funded construction of buildings, structures, sidewalks, curbs and related facilities. Recipient will award no construction contract unless Recipient's plans and specifications for such facilities conform to the provisions of sections 4450 and 4454 of the California Government Code, if applicable. Further requirements and guidance are provided in Title 24 of the California Code of Regulations.

N. *Disabled Veterans Program Requirements*

1. Should Military and Veterans Code sections 999 et seq. be applicable to Recipient, Recipient will meet, or make good faith efforts to meet, the 3% Disabled Veterans Business Enterprises goals (or Recipient's applicable higher goals) in the award of every contract for Project work to be performed under these this Agreement.

2. Recipient shall have the sole duty and authority under this Agreement and each Program Supplement to determine whether these referenced code sections are applicable to Recipient and, if so, whether good faith efforts asserted by those contractors of Recipient were sufficient as outlined in Military and Veterans Code sections 999 et seq.

O. *Environmental Process*

Completion of the Project environmental process ("clearance") by Recipient (and/or State if it affects a State facility within the meaning of the applicable statutes) is required prior to requesting Project funds for right-of-way purchase or construction. No State agency may request funds nor shall any State agency, board or commission authorize expenditures of funds for any Project effort, except for feasibility or planning studies, which may have a significant effect on the environment unless such a request is accompanied with all appropriate documentation of compliance with or exemption from the California Environmental Quality Act (CEQA) (including, if as appropriate, an environmental impact report, negative declaration, or notice of exemption) under California Public Resources Code section 21080(b) (10), (11), and (12) provides an

exemption for a passenger rail project that institutes or increases passenger or commuter services on rail or highway rights-of-way already in use.

P. *Force Majeure*

Each party will be excused from performance of its obligations where such non-performance is caused by any extraordinary event beyond its reasonable control, such as any non-appealable order, rule or regulation of any federal or state governmental body, fire, flood, earthquake, storm, hurricane or other natural disaster, epidemic, pandemic, war, invasion, act of foreign enemies, hostilities (regardless of whether war is declared), civil war, rebellion, revolution, insurrection, military or usurped power or confiscation, terrorist activities, nationalization, government sanction, blockage, embargo, labor dispute, strike, lockout or interruption, provided that the party excused hereunder shall use all reasonable efforts to minimize its non-performance and to overcome, remedy or remove such event in the shortest practical time.

Should a *force majeure* event occur which renders it impossible for a period of forty-five (45) or more consecutive days for either party to perform its obligations hereunder, the Parties agree to negotiate in good faith to amend the existing Master Agreement or Supplemental Agreement to deal with such event and to seek additional sources of funding to continue the operation of the Service.

BACKGROUND INFORMATION:

Transportation Demand Management (TDM) is a core component of RCTC's Mobility Services portfolio and plays a critical role in improving mobility, reducing congestion, supporting air quality goals, and enhancing quality of life for Riverside County residents. The Commission, in partnership with the San Bernardino County Transportation Authority (SBCTA), has operated one of Southern California's most established and comprehensive TDM programs, serving Riverside and San Bernardino County residents and employers since the 1990s. Building on that strong foundation, the program is now strategically expanding beyond its traditional commute-focused

model to engage a broader range of trip markets including non-work, school, and discretionary travel, positioning Mobility Services to influence total travel behavior and deliver greater regionwide impact.

Today, as part of RCTC's Mobility Services portfolio, the Commission administers several TDM programs, including IE Commuter, a comprehensive employer and commuter focused program offering rideshare incentives, marketing, ridematching tools, and South Coast Air Quality Management District Rule 2202 compliance support services; VanClub, which provides vanpool subsidies for commuters traveling to Riverside County worksites; Park and Ride facilities supporting regional ridesharing and transit access; and Experience Metrolink, a recently launched initiative providing complimentary rail passes to Riverside and San Bernardino County residents.

The Commission's TDM program has continuously evolved through strategic technology upgrades, regional integration, expanded countywide service coverage, and the introduction of new incentive and telework initiatives. These efforts reflect an ongoing commitment to innovation and program refinement to maximize impact and remain responsive to changing travel patterns.

DISCUSSION:

Strategic TDM Plan

Regional travel behavior continues to evolve. Non work, school, and other discretionary trips represent a significant share of overall travel activity, and hybrid work patterns are influencing traditional peak period demand. At the same time, advanced mobility data tools such as Replica, Spotlight, and Compass provide unprecedented insight into emerging travel trends. These conditions create a timely opportunity to modernize the Commission's TDM strategy, expand its reach across all trip markets, and prioritize measurable VMT reductions that support congestion relief, maximize existing capital investments, and help advance new capital projects under SB 743.

Accordingly, staff sought to procure Next Generation Strategic TDM Plan professional services to conduct rigorous data analysis and develop the most effective roadmap for modernizing the program while expanding engagement across broader trip markets to maximize impact. The scope of work includes comprehensive travel behavior analysis, identification of gaps and opportunities across trip markets and subregions, recommendations to strengthen coordination and information sharing frameworks, and the development of a clear implementation blueprint to guide the program's future direction.

The project is anticipated to take approximately 18 months to complete, after which staff will present the results and recommendations to the Commission for review and direction.

On-Call TDM Services

To ensure the Commission has the resources to both advance near-term priorities and implement future recommendations from the Strategic TDM Plan, staff also sought to establish a bench of qualified firms to provide On-Call TDM Services.

The on-call bench scope is organized into modular service areas to provide flexible and scalable support across a broad range of potential TDM projects. Services that may be requested include new program design and implementation; data collection and performance analytics; marketing and communications; grant development and administration; policy development; and technology scoping and systems integration. This modular structure enables targeted deployment of expertise as needed, ensuring adaptability, efficient delivery, and alignment with evolving mobility conditions and funding opportunities.

In the near term, the on-call TDM bench enables staff to advance previously identified special projects and priority initiatives while the strategic plan is underway. Potential efforts include Transit Trainer programs focused on both worksite travel training and discretionary or leisure travel training; major event and Olympic readiness planning initiatives; exploration of a Virtual Park & Ride concept; and targeted engagement strategies for high-density residential communities. In the longer term, the on-call TDM bench will position the Commission to quickly advance priority projects emerging from the Strategic TDM Plan by providing a pre-qualified pool of firms capable of supporting implementation.

Mobile Source Air Pollution Reduction Review Committee Funding

The MSRC is a subcommittee of the South Coast Air Quality Management District responsible for allocating Clean Transportation Funding to reduce vehicle emissions and advance regional air quality goals.

In response to MSRC's TDM County Transportation Commission (CTC) Partnership Program work program, RCTC submitted a proposal in July 2025 requesting $4,000,000 in Clean Transportation Funding for Riverside County. The proposal allocates funding toward eligible Transportation Control Measure categories, including $500,000 for strategic TDM planning efforts, covering general program modernization and major event/Olympic readiness planning; $3,000,000 for implementation of high-impact TDM and mobility strategies identified through those efforts; and $500,000 for enhanced Freeway Service Patrol (FSP) services to expand coverage during the 2028 Olympic Games. The MSRC approved funding under its FY 2024-27 Work Program on October 16, 2025, with final approval by the South Coast AQMD Governing Board on November 7, 2025.

Approval of the MSRC agreement positions the Commission to implement performance-based TDM and traffic management strategies that deliver measurable congestion relief and emission reduction benefits, while enhancing regional readiness for major international events. MSRC funding will be leveraged with local Measure A and/or SAFE funds to advance plan recommendations and deploy priority projects.

Procurement Process

Strategic TDM Plan

Staff determined the weighted factor method of source selection to be the most appropriate for this procurement, as it allows the Commission to identify the best proposal with price and other factors considered. Non-price factors include elements such as qualifications of firm and personnel and understanding and approach for next generation strategic TDM plan services as set forth under the terms of Request for Proposals (RFP) No. 26-41-034-00.

RFP No. 26-41-034-00 for Inland Empire Next Generation Strategic TDM Plan Services was released by staff on December 18, 2025. The RFP was posted on the Commission's PlanetBids website, which is accessible through the Commission's website. Utilizing PlanetBids, emails were sent to 1,505 firms, 248 of which are located in Riverside County. Through the PlanetBids site, 58 firms downloaded the RFP. Staff responded to all questions submitted by potential proposers by January 15, 2026. Four consultants – Alta Planning + Design, Inc. (Portland, OR); ICF Consulting, LLC (Reston, VA); Nelson\Nygaard Consulting Associates (Los Angeles, CA); Steer Davies & Gleave, Inc. (Los Angeles, CA) - submitted responsive proposals prior to the 2:00 p.m. submittal deadline on February 2, 2026. Utilizing the evaluation criteria set forth in the RFP, all firms were evaluated and scored by an evaluation committee comprised of Commission and San Bernardino County Transportation Authority staff.

Based on the evaluation committee's assessment of the written proposals and pursuant to the terms of the RFP, the evaluation committee shortlisted and invited three firms (Alta Planning + Design, ICF Consulting, Steer Davies & Gleave) to the interview phase of the evaluation and selection process. Interviews were conducted on February 24, 2026.

As a result of the evaluation committee's assessment of the written proposals and interviews, the evaluation committee determined Alta Planning + Design to be the most qualified firm to provide the Inland Empire next generation strategic transportation demand management plan services. The evaluation committee recommends contract award to Alta Planning + Design for an eighteen-month term in an amount not to exceed $385,895, as this firm earned the highest total evaluation score.

The overall evaluation ranking of the firms that were interviewed, based on highest to lowest total evaluation score, are presented in the following table:

Firm	Price	Overall Ranking
Alta Planning + Design	$385,895	1
Steer Davies & Gleave	$474,441	2
ICF Consulting	$468,640	3

The Commission's model professional services agreement will be entered into with the firm, pursuant to legal counsel review. Staff oversight of the contract will maximize the effectiveness of the consultant and minimize costs to the Commission.

On-Call TDM Services

Staff determined the weighted factor method of source selection to be the most appropriate for this procurement, as it allows the Commission to identify the most advantageous proposal with price and other factors considered. Non-price factors include elements such as qualifications of firm and personnel and understanding and approach for on-call TDM services as set forth under the terms of RFP No. 26-41-035-00.

RFP No. 26-41-035-00 for On-Call TDM Services was released by staff on December 18, 2025. The RFP was posted on the Commission's PlanetBids website, which is accessible through the Commission's website. Utilizing PlanetBids, emails were sent to 1,505 firms, 248 of which are located in Riverside County. Through the PlanetBids site, 60 firms downloaded the RFP. Staff responded to all questions submitted by potential proposers by January 15, 2026. Nine consultants – AECOM Technical Services (Boston, MA); Alta Planning + Design (Portland, OR); HNTB Corporation (Ontario, CA); ICF Consulting (Reston, VA); Media Beef (Riverside, CA); Nelson\Nygaard Consulting Associates (Los Angeles, CA); Steer Davies & Gleave Inc (Los Angeles, CA); TKE Engineering (Riverside, CA); and Walker Consultants Inc (Los Angeles, CA) - submitted proposals prior to the 2:00 p.m. submittal deadline on February 2, 2026. Of the nine proposals submitted, eight were deemed responsive. Staff determined that the proposal submitted by TKE Engineering was non-responsive due to the omission of the required proposal pricing form. Utilizing the evaluation criteria set forth in the RFP, all firms were evaluated and scored by an evaluation committee comprised of Commission and San Bernardino County Transportation Authority staff.

Based on the evaluation committee's assessment of the written proposals and pursuant to the terms of the RFP, the evaluation committee shortlisted and invited seven firms (AECOM Technical Services, Alta Planning + Design, HNTB Corporation, ICF Consulting, Media Beef, Nelson\Nygaard Consulting Associates, and Steer Davies & Gleave) to the interview phase of the evaluation and selection process. Interviews were conducted on February 25, 2026.

As a result of the evaluation committee's assessment of the written proposals and interviews, the evaluation committee determined AECOM Technical Services, Alta Planning + Design, HNTB Corporation, ICF Consulting, Media Beef, Nelson\Nygaard Consulting Associates, and Steer Davies & Gleave to be the most qualified firms to provide the on-call TDM services. The evaluation committee recommends contract awards to these firms for a three-year base period with two, one-year options to extend the agreements for a total period of performance of up to five years in an amount not to exceed $7,000,000 as these firms earned the highest total evaluation scores.

The overall evaluation ranking of the firms that were interviewed, based on highest to lowest total evaluation score, and the average hourly rates are presented in the following table:

Firm	Hourly Rate	Overall Ranking
Alta Planning + Design	$223.88	1
Media Beef	$126.63	2
ICF Consulting	$164.02	3
Steer Davies & Gleave Inc	$209.69	4
Nelson\Nygaard Consulting Associates	$237.19	5
AECOM Technical Services	$192.10	6
HNTB Corporation	$244.31	7

The multiple award, on-call, indefinite delivery/indefinite quantity task order type contracts do not guarantee work to any of the awardees; therefore, no funds are guaranteed to any consultant. Pre-qualified consultants will be selected for specific tasks based on qualification information contained in their proposals and/or competitive fee proposals for the specific tasks. Services will be provided through the Commission's issuance of contract task orders to the consultants on an as-needed basis.

The Commission's model on-call professional services agreement will be entered into with each consultant firm, subject to any changes approved by the Executive Director, pursuant to legal counsel review. Staff oversight of the contracts and task orders will maximize the effectiveness of the consultants and minimize costs to the Commission.

and could be withdrawn, thereby entitling the Commission to terminate this Agreement, if the procedures are not completed. The Consultant's files shall be maintained in a manner to facilitate State process reviews. In addition, Caltrans may require that prior to performance of any work for which funding reimbursement through Caltrans is requested and provided, that Caltrans must give to Commission an "Authorization to Proceed".

4. Audit Procedures.

4.1 Consultant and certain subconsultant contracts, including cost proposals and ICR, are subject to audits or reviews such as, but not limited to, a contract audit, an incurred cost audit, an Independent Cost Review (ICR) Audit, or a CPA ICR audit work paper review. If selected for audit or review, this Agreement, Consultant's cost proposal and ICR and related work papers, if applicable, will be reviewed to verify compliance with 48 CFR, Part 31 and other related laws and regulations. In the instances of a CPA ICR audit work paper review it is Consultant's responsibility to ensure federal, state, or local government officials are allowed full access to the CPA's work papers including making copies as necessary. This Agreement, Consultant's cost proposal, and ICR shall be adjusted by Consultant and approved by the Commission's contract manager to conform to the audit or review recommendations. Consultant agrees that individual terms of costs identified in the audit report shall be incorporated into this Agreement by this reference if directed by Commission at its sole discretion. Refusal by Consultant to incorporate audit or review recommendations, or to ensure that the federal, state or local governments have access to CPA work papers, will be considered a breach of the Agreement terms and cause for termination of this Agreement and disallowance of prior reimbursed costs. Additional audit provisions applicable to this Agreement are set forth in Sections 22 and 23 of this Agreement.

4.2 During any Caltrans' review of the ICR audit work papers created by the Consultant's independent CPA (which may include review by the Independent Office of Audits and Investigations), Caltrans will work with the CPA and/or Consultant toward a resolution of issues that arise during the review. Each party agrees to use its best efforts to resolve any audit disputes in a timely manner. If Caltrans identifies significant issues during the review and is unable to issue a cognizant approval letter, Commission will reimburse the Consultant at an accepted ICR until a FAR (Federal Acquisition Regulation) compliant ICR {e.g. 48 CFR Part 31; GAGAS (Generally Accepted Auditing Standards); CAS (Cost Accounting Standards), if applicable; in accordance with procedures and guidelines of the American Association of State Highways and Transportation Officials (AASHTO) Audit Guide; and other applicable procedures and guidelines is received and approved by Caltrans.

b. If the proposed rate is between one hundred fifty percent (150%) and two hundred percent (200%) - the accepted rate will be eighty-five percent (85%) of the proposed rate.

c. If the proposed rate is greater than two hundred percent (200%) - the accepted rate will be seventy-five percent (75%) of the proposed rate.

4.3 If Caltrans is unable to issue a cognizant letter per Section 4.2 above, Caltrans may require Consultant to submit a revised independent CPA-audited ICR and audit report within three (3) months of the effective date of the Caltrans' management letter. Caltrans will then have up to six (6) months to review the Consultant's and/or the independent CPA's revisions.

If the Consultant fails to comply with the provisions of this Section 4, or if Caltrans is still unable to issue a cognizant approval letter after the revised independent CPA audited ICR is submitted, overhead cost reimbursement will be limited to the accepted ICR that was established upon initial rejection of the ICR and set forth in Section 4.2 above for all rendered services. In this event, this accepted ICR will become the actual and final ICR for reimbursement purposes under this Agreement.

SCOPE OF WORK

Inland Empire Next Generation Strategic Transportation Demand Management (TDM) Plan Services

Executive Summary

The Inland Empire Next Generation Strategic TDM Plan (Project) will provide RCTC and SBCTA with a comprehensive roadmap to expand and modernize Transportation Demand Management (TDM). Building on the high return on investment of worksite and commuter programs, which are the foundation of TDM, the study will guide the development of a world class program that broadens reach to all trip markets, incorporates discretionary, student, and leisure travel, better coordinates with transit, and delivers measurable reductions in congestion and vehicle miles traveled while enhancing mobility and quality of life across the Inland Empire.

Project Overview

The Project aims to support RCTC and SBCTA in developing a coordinated, comprehensive, and modernized approach to TDM. The study will serve as a roadmap for near- and long-term strategies that are actionable, accessible, and responsive to both regional and subregional mobility challenges, while broadening the focus beyond commuter and worksite-based trip markets to address a wider range of travel needs.

The objectives of this study are to:

- Build a robust, data-driven understanding of current and future travel behavior, identify program and technology gaps, and expand TDM strategies to serve diverse trip markets and underserved communities across the Inland Empire.
- Deliver an implementation roadmap with funding strategies and a coordination framework among transportation stakeholders to optimize planning, collaboration, and overall TDM impact.
- Evaluate transit potential and recommend strategies to significantly increase ridership to and from the Inland Empire across all trip markets.
- Advance a next-generation TDM program that is innovative, broadens reach beyond traditional commuters, and delivers high-impact outcomes in support of regional growth and sustainability goals.

Background Information

Agency Profiles

Riverside County Transportation Commission (RCTC)

The RCTC exists pursuant to California state law, and is responsible for: 1) coordinating state highway planning; 2) adopting regional Short Range Transit Plans; 3) coordinating transit services; 4) allocating Transportation Development Act (TDA) funds; 5) coordinating county highway and transit plans with regional and state agencies; and 6) operating the 91 Express Lanes in Riverside County, the 15 Express Lanes, meeting the financial obligations of those tolled facilities, and planning future toll projects. The RCTC is also the principal agency in Riverside County managing the Service Authority for Freeway Emergencies (SAFE), the Congestion Management Program (CMP), and the Measure A half-cent sales tax for transportation.

The RCTC participates in the ongoing funding and governance of the Southern California Regional Rail Authority (SCRRA), known as Metrolink, and owns and operates all nine (9) commuter rail stations and one transit center serving Riverside County. In 2026, RCTC will pilot a “Smart Freeways” intelligent transportation system on northbound I-15 in the City of Temecula in coordination with Caltrans. RCTC serves as the managing agency for the Western Riverside

County Regional Conservation Authority (RCA). The RCA is responsible for implementation of the Western Riverside County Multiple Species Habitat Conservation Plan (MSHCP) - a long-term, comprehensive plan that balances infrastructure, housing, and economic development with habitat preservation and species protection.

San Bernardino County Transportation Authority (SBCTA)

SBCTA is responsible for cooperative regional planning and furthering an efficient multi-modal transportation system countywide. The SBCTA administers Measure I, a half-cent transportation sales tax, and supports freeway construction projects, regional and local road improvements, train and bus transportation, railroad crossings, motorist aid, ridesharing, congestion management efforts, and long-term planning studies. Major projects currently underway in the county include: 1) Redlands Passenger Rail Project (Arrow); 2) Diesel Multiple Unit to Zero Emission Multiple Unit Pilot; 3) I-10 Corridor Contract 1 (Express Lanes); 4) West Valley Connector (BRT); 5) Mt. Vernon Avenue Bridge; and multiple freeway and interchange construction projects.

Regional Profile

Riverside and San Bernardino Counties, collectively referred to as the Inland Empire, constitute a region of approximately 4.6 million people. The Riverside-San Bernardino- Ontario, CA metropolitan statistical area is ranked 13th in the nation in population according to the U.S. Census Bureau. San Bernardino County has the largest geographical area of any county in the lower 48 states; Riverside County is similarly expansive. Both counties are diverse in terms of land use, ranging from urban, to suburban, to rural and agricultural. The Inland Empire's commute patterns are driven by its relatively affordable housing compared to its adjacent counties of Los Angeles, Orange, and San Diego Counties where most of southern California's jobs exist. Many Inland Empire communities offer a quality of life not common in coastal counties, characterized by larger single-family home lot sizes, open spaces, and newer developments, making the region attractive to a growing segment of southern California's workforce. These dynamics contribute to commutes for Inland Empire residents that are consistently among the longest in duration and distance in the nation. At the same time, the Inland Empire is home to many significant assets. Several world-class universities, U.S. military installations, tourism destinations, commercial airports, and logistics hubs call this two-county region home. While the Inland Empire has a large market of out-of- county commuters, the region has a significant and growing local employment base with substantial intra-region travel.

TDM Funding

In Riverside County, TDM efforts were historically funded solely through western Riverside County's Measure A, a local half-cent sales tax approved by voters and administered by RCTC. Because Measure A revenues were limited to western Riverside County, TDM programs benefiting commuters and employers—such as employer rideshare support and rideshare incentives—were also restricted to that subregion. Since 2022, however, RCTC has expanded its general rideshare program and incentives to include employers and residents in eastern Riverside County. This expansion was further broadened in 2024 to extend VanClub eligibility countywide. As of July 1, 2024, all rideshare and VanClub programs and services have been standardized and are now available to employers and commuters across Riverside County. While Measure A continues to fund TDM efforts in western Riverside County, eastern Riverside County's services are supported by the Service Authority for Freeway Emergencies (SAFE). Together, this combined funding approach ensures a consistent, countywide framework for rideshare and vanpool programs moving forward.

TDM Program Future Vision

RCTC partners with SBCTA to deliver a suite of TDM programs and services to Riverside and San Bernardino County employers and commuters under the "IE Commuter" brand. These efforts are designed to shift travel behavior away from single-occupant vehicle commuting through the following core functions:

- Increase awareness of transportation alternatives through coordinated regional campaigns, local outreach, employer engagement, and digital communications.
- Partner with and support employers in implementing TDM programs, services, and incentives to foster adoption of telework and transportation alternatives at worksites across the region.
- Provide personalized commute planning and ridematching services through live phone (866-RIDESHARE), chat support and online tools at IECommuter.org;
- Offer incentives to encourage commuters to begin and sustain use of sustainable transportation options.
- Leverage user-friendly technology and digital tools to efficiently engage, educate, and serve employer partners and commuters.
- Maintain and strengthen IE Commuter's role as the trusted regional resource for commuter and employer focused transportation solutions.

RCTC and SBCTA view TDM as an essential tool for maximizing the efficiency of the region's transportation systems. State policy trends increasingly limit the expansion of roadway capacity, while funding for new capital construction continues to tighten. This reality elevates the importance of TDM as a cost-effective strategy for achieving voter-approved mobility outcomes through approaches that complement, and extend beyond, capital investments.

The agencies also recognize that mobility trends have shifted significantly in recent years, particularly following the changes experienced in 2020. To remain effective, the region's TDM program must adapt to evolving travel behavior, public expectations, technology, and industry best practices. While continuing to deliver core services at a high level, RCTC and SBCTA place increasing value on innovation as a means of improving program reach, efficiency, and responsiveness to the diverse mobility needs of Inland empire residents and employers.

Participation in IE Commuter has historically been driven in large part by Rule 2202 of the South Coast Air Quality Management District (SCAQMD), which applies to employers with 250 or more employees. Under the rule, employers may develop and implement an Employee Commute Reduction Program (ECRP), pay a fee to SCAQMD, or purchase mobile source emissions credits. IE Commuter provides complimentary ECRP resources to eligible employers in Riverside and San Bernardino County employers, delivering meaningful value to participating businesses and access to large employee commuter bases well suited for ridematching. RCTC and SBCTA seek to strategically expand beyond the traditional large employer market by efficiently engaging more unregulated (i.e., small to mid-sized) employers and strengthening direct communication with commuters.

While employer and commuter focused program will continue to serve as a core foundation of TDM in the Inland Empire, offering strong returns on investment through direct engagement, there is significant opportunity to broaden the reach of TDM strategies beyond the traditional work commute. Expanding efforts to address discretionary travel, student trips, leisure travel, and virtual access to services can generate additional reductions in vehicle miles traveled, particularly when paired with strategies that support transit use where feasible. Closer coordination with transit providers to align TDM incentives, inform service planning, and support new or modified routes within an integrated TDM-transit framework will further strengthen regional mobility outcomes.

The Inland Empire Strategic TDM Study advances this vision by providing a structured, data-driven framework to modernize and expand TDM across Riverside and San Bernardino Counties. The study focuses on identifying where, how, and for whom TDM strategies can most effectively influence travel behavior, reduce vehicle miles traveled, and improve access to transportation options. It addresses emerging travel behaviors, identifues programmatic and technology gaps, and broadens TDM beyond traditional commuter markets. By aligning IE Commuter with a phased implementation roadmap that integrates funding strategies, institutional coordination, and performance-based outcomes, the study positions RCTC and SBCTA to deploy targeted, subregional, and locally tailored strategies where the greatest behavioral and mobility impacts can be achieved.

f. If, after notice of termination of this contract for cause, it is determined for any reason that an Uncured Breach did not exist, the rights and obligations of the parties shall be the same as if the notice of termination had been issued pursuant to the provisions for termination for convenience of RCTC.

g. The rights and remedies of RCTC provided in this clause shall not be exclusive and are in addition to any other rights and remedies provided by law, equity or under this contract including, but not limited to, the right to specific performance.

h. Notwithstanding the above, RCTC may, without providing an opportunity to cure, terminate the contract in accordance with the timeframe set forth in Section 17 of the contract, if RCTC determines such action is in its best interest based on the nature of the Breach. Such actions shall not limit any of RCTC's remedies set forth above.

16. Disputes

a. Except as otherwise provided in this Agreement, any dispute concerning a question of fact arising under this Agreement which is not disposed of by supplemental agreement shall be decided by RCTC's Deputy Executive Director, who shall reduce the decision to writing and mail or otherwise furnish a copy thereof to the Consultant. The decision of the RCTC Deputy Executive Director shall be final and conclusive unless, within thirty (30) days from the date of receipt of such copy, Consultant mails or otherwise furnishes to the RCTC Deputy Executive Director a written appeal addressed to RCTC's Executive Director. The decision of RCTC Executive Director or duly authorized representative for the determination of such appeals shall be final and conclusive.

b. The provisions of this Paragraph shall not be pleaded in any suit involving a question of fact arising under this Agreement as limiting judicial review of any such decision to cases where fraud by such official or his representative or board is alleged, provided, however, that any such decision shall be final and conclusive unless the same is fraudulent or capricious or arbitrary or so grossly erroneous as necessarily to imply bad faith or is not supported by substantial evidence. In connection with any appeal proceeding under this Paragraph, the Consultant shall be afforded an opportunity to be heard and to offer evidence in support of its appeal.

c. Pending final decision of a dispute hereunder, Consultant shall proceed diligently with the performance of this Agreement and in accordance with the decision of RCTC's Deputy Executive Director. This "Disputes" clause does not preclude consideration of questions of law in connection with decisions provided for above. Nothing in this Agreement, however, shall be construed as making final the decision of any RCTC official or representative on a question of law, which questions shall be settled in accordance with the laws of the State of California.

WITH FHWA AND FTA FUNDING ASSISTANCE**

**RIVERSIDE COUNTY TRANSPORTATION COMMISSION
AGREEMENT WITH
AECOM TECHNICAL SERVICES
FOR ON-CALL
TRANSPORTATION DEMAND MANAGEMENT SERVICES**

Parties and Date.

This Agreement is made and entered into this ___ day of _____, 2026, by and between the RIVERSIDE COUNTY TRANSPORTATION COMMISSION ("the Commission") and AECOM TECHNICAL SERVICES ("Consultant"), a CORPORATION. The Commission and Consultant are sometimes referred to herein individually as “Party”, and collectively as the “Parties”.

Recitals.

A. On November 8, 1988 the Voters of Riverside County approved Measure A authorizing the collection of a one-half percent (1/2 %) retail transactions and use tax (the "tax") to fund transportation programs and improvements within the County of Riverside, and adopting the Riverside County Transportation Improvement Plan (the "Plan").

B. Pursuant to Public Utility Code Sections 240000 et seq., the Commission is authorized to allocate the proceeds of the Tax in furtherance of the Plan.

C. On November 5, 2002, the voters of Riverside County approved an extension of the Measure A tax for an additional thirty (30) years for the continued funding of transportation and improvements within the County of Riverside.

D. The Commission, in partnership with San Bernardino County Transportation Authority (SBCTA), administers the IE Commuter program, which serves as the region’s flagship Transportation Demand Management (“TDM”) program.

E. The IE Commuter program is seeking innovative and cost-effective solutions that reduce single-occupancy vehicle trips, manage travel demand, and improve mobility for Riverside and San Bernardino County residents, as well as for the regional employers to which Inland Empire residents commute.

F. Consultant shall provide services on an on-call basis to support a wide variety of TDM projects, programs, and initiatives for the benefit of the Commission and SBCTA in implementation of the TDM program.

DRAFT

F. The sources of funding for payment for on-call professional consulting services provided under this Agreement may include the following funding sources:

> Commission Measure A funds, Federal Highway Administration (FHWA), Federal Transit Administration (FTA), state funds through Caltrans, or SBCTA reimbursements (from local or federal funds)

In relation to such funding, Consulant shall execute and submit to the Commission the certification shown in Exhibit "E" attached hereto and incorporated herein by reference. Consultant shall comply with all funding source requirements as further set forth in this Agreement and the attached exhibits.

G. Consultant desires to perform and assume responsibility for the provision of certain on-call services for the TDM program. Services shall be provided for the Commission or for the benefit of SBCTA, as directed, on the terms and conditions set forth in this Agreement and in the task order(s) to be solicited, awarded and authorized by Commission as further described in this Agreement ("Task Order"). Consultant represents that it is experienced in providing such services to public clients, is licensed in the State of California (if necessary), and is familiar with the plans of the Commission.

H. Commission desires to engage Consultant to render such services on an on-call basis. Services shall be ordered by Task Order(s) to be issued pursuant to this Agreement for future projects as set forth herein and in each Task Order (each such project shall be designated a "Project" under this Agreement).

Terms.

1. General Scope of Services. Consultant shall furnish all technical and professional services, including labor, material, equipment, transportation, supervision and expertise, and incidental and customary work necessary to fully and adequately supply the on-call TDM program related services for the Projects ("Services"). The Services are generally described in Exhibit "A" attached hereto and incorporated herein by reference. The Services shall be more particularly described in the individual Task Orders issued by the Commission's Executive Director or designee. No Services shall be performed unless authorized by a Task Order. All Services shall be subject to, and performed in accordance with, this Agreement, the relevant Task Order, the exhibits attached hereto and incorporated herein by reference, and all applicable local, state and federal laws, rules and regulations.

2. Task Orders; Commencement of Services; Schedule of Services. Services under this Agreement shall be requested by the Commission pursuant to Task Order requests. If Commission accepts Consultant's Task Order proposal, Commission shall issue a purchase order or executed task order for the Services ("Commission's Task Order Authorization"). Consultant's agreement to the final terms of a proposed Task Order, Commission's Task Order Authorization and Consultant's commencement of the Services shall indicate the Parties' agreement to the terms of the relevant Task Order.

DRAFT

Consultant shall commence Services under a Task Order within five (5) days of receiving Commission's Task Order Authorization, or as otherwise specified in the Task Order request.

Consultant shall perform the Services expeditiously, in accordance with any schedule for the Services set forth in a Task Order ("Schedule of Services"). Consultant represents that it has the professional and technical personnel required to perform the Services in conformance with such conditions. In order to facilitate Consultant's conformance with the Schedule, Commission shall respond to Consultant's submittals in a timely manner. Upon request of the Commission, Consultant shall provide a more detailed schedule of anticipated performance to meet the Schedule of Services.

Task Orders may not be used to amend the language (or the terms) of this Agreement or to exceed the scope of work under this Agreement.

3. Pre-Award Audit. As a result of the funding for this Project, and to the extent Caltrans procedures apply in connection therewith, issuance of a "Notice to Proceed" or other authorization to proceed under a Task Order may be contingent upon completion and approval of a pre-award audit. Any questions raised during the pre-award audit shall be resolved before Services are commenced under a Task Order. The funding provided under this Agreement is contingent on meeting all funding requirements and could be withdrawn, thereby entitling the Commission to terminate this Agreement, if the procedures are not completed. The Consultant's files shall be maintained in a manner to facilitate State process reviews. In addition, Caltrans may require that prior to performance of any work for which funding reimbursement through Caltrans is requested and provided, that Caltrans must give to Commission an "Authorization to Proceed".

4. Audit Procedures.

4.1 Consultant and certain subconsultant contracts, including cost proposals and ICR, are subject to audits or reviews such as, but not limited to, a contract audit, an incurred cost audit, an Independent Cost Review (ICR) Audit, or a CPA ICR audit work paper review. If selected for audit or review, this Agreement, Consultant's cost proposal and ICR and related work papers, if applicable, will be reviewed to verify compliance with 48 CFR, Part 31 and other related laws and regulations. In the instances of a CPA ICR audit work paper review it is Consultant's responsibility to ensure federal, state, or local government officials are allowed full access to the CPA's work papers including making copies as necessary. This Agreement, Consultant's cost proposal, and ICR shall be adjusted by Consultant and approved by the Commission's contract manager to conform to the audit or review recommendations. Consultant agrees that individual terms of costs identified in the audit report shall be incorporated into this Agreement by this reference if directed by Commission at its sole discretion. Refusal by Consultant to incorporate audit or review recommendations, or to ensure that the federal, state or local governments have access to CPA work papers, will be considered a breach of the Agreement terms and cause for termination of this Agreement and disallowance of prior reimbursed costs. Additional audit provisions applicable to this Agreement are set forth in Sections 22 and 23 of this Agreement.

DRAFT

Section 4.2 and 4.3 shall apply to the extent applicable to the Task Order and funding source.

Caltrans will then have up to six (6) months to review the Consultant's and/or the independent CPA's revisions.

If the Consultant fails to comply with the provisions of this Section 4, or if Caltrans is still unable to issue a cognizant approval letter after the revised independent CPA audited ICR is submitted, overhead cost reimbursement will be limited to the accepted ICR that was established upon initial rejection of the ICR and set forth in Section 4.2 above for all rendered services. In this event, this accepted ICR will become the actual and final ICR for reimbursement purposes under this Agreement.

Consultant may submit to Commission final invoice only when all of the following items have occurred: (1) Caltrans accepts or adjusts the original or revised independent CPA audited ICR; (2) all work under this Agreement has been completed to the satisfaction of Commission; and, (3) Caltrans has issued its final ICR review letter. The Consultant must submit its final invoice to Commission no later than sixty (60) calendar days after occurrence of the last of these items. Statement of Services

On-Call Transportation Demand Management Services

The Riverside County Transportation Commission (RCTC) seeks to identify and select a bench of qualified consultants that demonstrate the experience, knowledge, and capacity to provide planning, design, evaluation, implementation, marketing, communications, and outreach services in support of Transportation Demand Management (TDM) strategies. Successful consultants will provide innovative and cost-effective solutions that reduce single-occupancy vehicle trips, manage travel demand, and improve mobility for Riverside and San Bernardino County residents, as well as for the regional employers that Inland Empire residents commute to. The selected consultants shall provide services on an on-call basis to support a wide variety of TDM projects, programs, and initiatives.

RCTC, in partnership with the San Bernardino County Transportation Authority (SBCTA), administers the IE Commuter program, which serves as the region's flagship TDM program. Consultants may be called upon to support special projects or projects identified through a Strategic TDM Study to be conducted in 2026, which will provide a blueprint for future program direction. Consultants may also support IE Commuter operations and related activities, including development of a transit training program, expansion of services and outreach to discretionary trip markets, targeted outreach efforts; and preparation for regional travel demands associated with events such as the 2028 Olympic Games.

DRAFT

Requirements and Contract Information

As an on-call consultant for the Commission, the consultant shall respond within 72 hours to Task Order requests for projects, programs, or services. The response shall include a summary work plan, labor fees, and direct costs for the requested Task Order. Commission staff will review Task Order responses and select the consultant who best meets the requirements of the Task Order. The Commission is not bound to execute a Task Order and reserves the right to negotiate fees with the consultant.

If two or more firms, persons, or entities wish to submit one proposal in response to this RFP, they should do so on a prime/subconsultant basis rather than as a joint venture.

The proposed initial term of the agreement shall be three years with one two-year option term to extend the agreement up to five years. Option terms will be executed at RCTC's sole discretion.

The consultant shall comply with all relevant disclosure requirements and maintain the highest ethical standards both publicly and privately, including the avoidance of conflicts of interest. Participation of small, disadvantaged, and DBE-certified businesses is encouraged.

Table 1: Potential* Projects, Programs, and Initiatives

- **Transit Trainer Program – Worksite Travel Training**
  Develop a worksite-based program to convert existing riders into volunteer transit trainers who guide new riders (colleagues at their own or adjacent worksites) in person through one or more transit trips until they can ride independently.
- **Transit Trainer Program – Discretionary/Leisure Travel Training**
  Provide training and support for individuals to use transit for non-work trips, such as shopping, recreation, and personal errands.
- **New Survey Incentive Development (RidesharePlus 2.0)**
  Develop a new survey incentive program to collect supplemental transportation behavior data beyond traditional AVR surveys or IE Commuter incentive participation. The program would offer incentives for commuters, regardless of mode status, to share insights on motivations and evolving trends influencing mode-shift decisions.
- **Virtual Park & Ride Concept**
  Explore concept of leveraging secure, underutilized commercial or municipal parking to create discrete carpool/vanpool spaces instead of large lots that can attract theft, with users locating and reserving spaces through a mobile app.
- **RCTC VanClub Funding & Administration Exploration**
  Assess opportunities for RCTC to secure funding (e.g., STA and/or 5307) through VanClub. Evaluate potential revenue generation, required administrative capacity, and cost-benefit tradeoffs.
- **High-Density Living / Community Engagement**
  Develop outreach and engagement strategies in high-density residential areas to increase awareness and adoption of transit, rideshare, and other sustainable mobility options.

14. Termination for Convenience

DRAFT

RCTC may terminate the Agreement for convenience in accordance with the terms of the Agreement.

After such termination, the Consultant shall submit a final termination settlement proposal to RCTC as directed. If the Consultant fails to submit a proposal within the time allowed, RCTC may determine, on the basis of information available, the amount, if any due the Consultant because of the termination and shall pay the amount determined. After the Consultant's proposal is received, RCTC and Consultant shall negotiate a fair and equitable settlement and the contract will be modified to reflect the negotiated agreement. If agreement cannot be reached, RCTC may issue a final determination and pay the amount determined. If the Consultant does not agree with this final determination or the determination resulting from the lack of timely submission of a proposal, the Consultant may appeal under the Disputes clause.

15. Administrative and Contractual Remedies on Breach; Termination for Cause

a. The Consultant may be declared in breach of this Agreement ("Breach") if the Consultant fails to make delivery of the supplies or to perform the services within the time specified herein or any extension thereof; or if the Consultant fails to perform any of the other provisions of the contract, or so fails to make progress as to endanger performance of this contract in accordance with its terms. In case of any of the foregoing, RCTC shall notify the Consultant of the Breach, and the Consultant shall have a period of ten (10) days (or such longer period as RCTC may authorize in writing) after receipt of notice from RCTC to cure the Breach.

b. RCTC may, by written notice of termination to the Consultant specifying the effective date thereof, terminate the whole or any part of this contract, in the case of a Breach that is not cured within the timeframe set forth in (a) above ("Uncured Breach").

c. If the contract is terminated in whole or in part for an Uncured Breach, RCTC may procure upon such terms and in such manner as RCTC may deem appropriate, supplies or services similar to those so terminated, or may complete the services with its own forces. The Consultant shall be liable to RCTC for any excess costs for such similar supplies or services, and for any other costs incurred by RCTC as a result of the Uncured Breach. The Consultant shall continue the performance of this contract to the extent not terminated under the provisions of this clause.

d. Except with respect to defaults of Subconsultants, the Consultant shall not be liable for any excess costs if the failure to perform the contract arises out of causes beyond the control and without the fault or negligence of the Consultant. If the failure to perform is caused by the default of a Subconsultant, and if such default arises out of causes beyond the control of both the Consultant and the Subconsultant, and without the fault or negligence of either of them, the Consultant shall not be liable for any excess costs for failure to perform, unless the supplies or services to be furnished by the Subconsultant were obtainable from other sources in sufficient time to permit the Consultant to meet the required project completion schedule.

e. Payment for completed services or supplies delivered to and accepted by RCTC shall be at the contract price. RCTC may withhold from amounts otherwise due the Consultant for such completed services or supplies such sum as RCTC determines to be necessary to protect RCTC

DRAFT

against loss because of outstanding liens of claims of former lien holders, or to reimburse RCTC for any other costs related to the Uncured Breach.

f. If, after notice of termination of this contract for cause, it is determined for any reason that an Uncured Breach did not exist, the rights and obligations of the parties shall be the same as if the notice of termination had been issued pursuant to the provisions for termination for convenience of RCTC.

g. The rights and remedies of RCTC provided in this clause shall not be exclusive and are in addition to any other rights and remedies provided by law, equity or under this contract including, but not limited to, the right to specific performance.

h. Notwithstanding the above, RCTC may, without providing an opportunity to cure, terminate the contract in accordance with the timeframe set forth in Section 17 of the contract, if RCTC determines such action is in its best interest based on the nature of the Breach. Such actions shall not limit any of RCTC's remedies set forth above.

16. Disputes

a. Except as otherwise provided in this Agreement, any dispute concerning a question of fact arising under this Agreement which is not disposed of by supplemental agreement shall be decided by RCTC's Deputy Executive Director, who shall reduce the decision to writing and mail or otherwise furnish a copy thereof to the Consultant. The decision of the RCTC Deputy Executive Director shall be final and conclusive unless, within thirty (30) days from the date of receipt of such copy, Consultant mails or otherwise furnishes to the RCTC Deputy Executive Director a written appeal addressed to RCTC's Executive Director. The decision of RCTC Executive Director or duly authorized representative for the determination of such appeals shall be final and conclusive.

b. The provisions of this Paragraph shall not be pleaded in any suit involving a question of fact arising under this Agreement as limiting judicial review of any such decision to cases where fraud by such official or his representative or board is alleged, provided, however, that any such decision shall be final and conclusive unless the same is fraudulent or capricious or arbitrary or so grossly erroneous as necessarily to imply bad faith or is not supported by substantial evidence. In connection with any appeal proceeding under this Paragraph, the Consultant shall be afforded an opportunity to be heard and to offer evidence in support of its appeal.

c. Pending final decision of a dispute hereunder, Consultant shall proceed diligently with the performance of this Agreement and in accordance with the decision of RCTC's Deputy Executive Director. This "Disputes" clause does not preclude consideration of questions of law in connection with decisions provided for above. Nothing in this Agreement, however, shall be construed as making final the decision of any RCTC official or representative on a question of law, which questions shall be settled in accordance with the laws of the State of California.

1. General Scope of Services. Consultant shall furnish all technical and professional services, including labor, material, equipment, transportation, supervision and expertise, and incidental and customary work necessary to fully and adequately supply the on-call TDM program related services for the Projects ("Services"). The Services are generally described in Exhibit "A" attached hereto and incorporated herein by reference. The Services shall be more particularly described in the individual Task Orders issued by the Commission's Executive Director or designee. No Services shall be performed unless authorized by a Task Order. All Services shall be subject to, and performed in accordance with, this Agreement, the relevant Task Order, the exhibits attached hereto and incorporated herein by reference, and all applicable local, state and federal laws, rules and regulations.

2. Task Orders; Commencement of Services; Schedule of Services. Services under this Agreement shall be requested by the Commission pursuant to Task Order requests. If Commission accepts Consultant's Task Order proposal, Commission shall issue a purchase order or executed task order for the Services ("Commission's Task Order Authorization"). DRAFT

Consultant shall commence Services under a Task Order within five (5) days of receiving Commission's Task Order Authorization, or as otherwise specified in the Task Order request.

Consultant shall perform the Services expeditiously, in accordance with any schedule for the Services set forth in a Task Order ("Schedule of Services"). Consultant represents that it has the professional and technical personnel required to perform the Services in conformance with such conditions. In order to facilitate Consultant's conformance with the Schedule, Commission shall respond to Consultant's submittals in a timely manner. Upon request of the Commission, Consultant shall provide a more detailed schedule of anticipated performance to meet the Schedule of Services.

Task Orders may not be used to amend the language (or the terms) of this Agreement or to exceed the scope of work under this Agreement.

3. Pre-Award Audit. As a result of the funding for this Project, and to the extent Caltrans procedures apply in connection therewith, issuance of a "Notice to Proceed" or other authorization to proceed under a Task Order may be contingent upon completion and approval of a pre-award audit. Any questions raised during the pre-award audit shall be resolved before Services are commenced under a Task Order. The funding provided under this Agreement is contingent on meeting all funding requirements and could be withdrawn, thereby entitling the Commission to terminate this Agreement, if the procedures are not completed. The Consultant's files shall be maintained in a manner to facilitate State process reviews. In addition, Caltrans may require that prior to performance of any work for which funding reimbursement through Caltrans is requested and provided, that Caltrans must give to Commission an "Authorization to Proceed".

4. Audit Procedures.

4.1 Consultant and certain subconsultant contracts, including cost proposals and ICR, are subject to audits or reviews such as, but not limited to, a contract audit, an incurred cost audit, an Independent Cost Review (ICR) Audit, or a CPA ICR audit work paper review. If selected for audit or review, this Agreement, Consultant's cost proposal and ICR and related work papers, if applicable, will be reviewed to verify compliance with 48 CFR, Part 31 and other related laws and regulations. In the instances of a CPA ICR audit work paper review it is Consultant's responsibility to ensure federal, state, or local government officials are allowed full access to the CPA's work papers including making copies as necessary. This Agreement, Consultant's cost proposal, and ICR shall be adjusted by Consultant and approved by the Commission's contract manager to conform to the audit or review recommendations. Consultant agrees that individual terms of costs identified in the audit report shall be incorporated into this Agreement by this reference if directed by Commission at its sole discretion. Refusal by Consultant to incorporate audit or review recommendations, or to ensure that the federal, state or local governments have access to CPA work papers, will be considered a breach of the Agreement terms and cause for termination of this Agreement and disallowance of prior reimbursed costs. Additional audit provisions applicable to this Agreement are set forth in Sections 22 and 23 of this Agreement.

DRAFT

Section 4.2 and 4.3 shall apply to the extent applicable to the Task Order and funding source.

4.2 During any Caltrans' review of the ICR audit work papers created by the Consultant's independent CPA (which may include review by the Independent Office of Audits and Investigations), Caltrans will work with the CPA and/or Consultant toward a resolution of issues that arise during the review. Each party agrees to use its best efforts to resolve any audit disputes in a timely manner. If Caltrans identifies significant issues during the review and is unable to issue a cognizant approval letter, Commission will reimburse the Consultant at an accepted ICR until a FAR (Federal Acquisition Regulation) compliant ICR {e.g. 48 CFR Part 31; GAGAS (Generally Accepted Auditing Standards); CAS (Cost Accounting Standards), if applicable; in accordance with procedures and guidelines of the American Association of State Highways and Transportation Officials (AASHTO) Audit Guide; and other applicable procedures and guidelines is received and approved by Caltrans.

c. If the proposed rate is greater than two hundred percent (200%) - the accepted rate will be seventy-five percent (75%) of the proposed rate.

4.3 If Caltrans is unable to issue a cognizant letter per Section 4.2 above, Caltrans may require Consultant to submit a revised independent CPA-audited ICR and audit report within three (3) months of the effective date of the Caltrans' management letter. Caltrans will then have up to six (6) months to review the Consultant's and/or the independent CPA's revisions.

If the Consultant fails to comply with the provisions of this Section 4, or if Caltrans is still unable to issue a cognizant approval letter after the revised independent CPA audited ICR is submitted, overhead cost reimbursement will be limited to the accepted ICR that was established upon initial rejection of the ICR and set forth in Section 4.2 above for all rendered services. In this event, this accepted ICR will become the actual and final ICR for reimbursement purposes under this Agreement.

Consultant may submit to Commission final invoice only when all of the following items have occurred: (1) Caltrans accepts or adjusts the original or revised independent CPA audited ICR; (2) all work under this Agreement has been completed to the satisfaction of Commission; and, (3) Caltrans has issued its final ICR review letter. The Consultant must submit its final invoice to Commission no later than sixty (60) calendar days after occurrence of the last of these items. APPENDIX A

Statement of Services

On-Call Transportation Demand Management Services

The Riverside County Transportation Commission (RCTC) seeks to identify and select a bench of qualified consultants that demonstrate the experience, knowledge, and capacity to provide planning, design, evaluation, implementation, marketing, communications, and outreach services in support of Transportation Demand Management (TDM) strategies. Successful consultants will provide innovative and cost-effective solutions that reduce single-occupancy vehicle trips, manage travel demand, and improve mobility for Riverside and San Bernardino County residents, as well as for the regional employers that Inland Empire residents commute to. The selected consultants shall provide services on an on-call basis to support a wide variety of TDM projects, programs, and initiatives.

RCTC, in partnership with the San Bernardino County Transportation Authority (SBCTA), administers the IE Commuter program, which serves as the region's flagship TDM program. Consultants may be called upon to support special projects or projects identified through a Strategic TDM Study to be conducted in 2026, which will provide a blueprint for future program direction. Consultants may also support IE Commuter operations and related activities, including development of a transit training program, expansion of services and outreach to discretionary trip markets, targeted outreach efforts; and preparation for regional travel demands associated with events such as the 2028 Olympic Games.

Requirements and Contract Information

As an on-call consultant for the Commission, the consultant shall respond within 72 hours to Task Order requests for projects, programs, or services. The response shall include a summary work plan, labor fees, and direct costs for the requested Task Order. Commission staff will review Task Order responses and select the consultant who best meets the requirements of the Task Order. The Commission is not bound to execute a Task Order and reserves the right to negotiate fees with the consultant.

The Commission intends to award an agreement to a bench of eight consultants and strongly encourages firms to seek the services of subcontractors that can help deliver specialized skillsets, such as analysis, technical services, and public engagement. If two or more firms, persons, or entities wish to submit one proposal in response to this RFP, they should do so on a prime/subconsultant basis rather than as a joint venture.

The proposed initial term of the agreement shall be three years with one two-year option term to extend the agreement up to five years. Option terms will be executed at RCTC's sole discretion.

The consultant shall comply with all relevant disclosure requirements and maintain the highest ethical standards both publicly and privately, including the avoidance of conflicts of interest. Participation of small, disadvantaged, and DBE-certified businesses is encouraged.

Throughout the term of the contract, the consultant will provide services at the request of the Commission's staff and perform services only as agreed upon in each assigned Task Order. However, initiating new ideas and proposing suggestions is strongly recommended and encouraged to achieve the goals and objectives of the Commission.

The consultant may need to coordinate with engineering consultants, local jurisdictions, SBCTA, and other regulatory agencies to gather information necessary for the planning, design, and evaluation of TDM strategies. The consultant may also need to coordinate with other consultants already under contract to the Commission for services including but not limited to website development, strategic communications, and transportation modeling.

Table 1: Potential* Projects, Programs, and Initiatives

- **Transit Trainer Program – Worksite Travel Training**
  Develop a worksite-based program to convert existing riders into volunteer transit trainers who guide new riders (colleagues at their own or adjacent worksites) in person through one or more transit trips until they can ride independently.
- **Transit Trainer Program – Discretionary/Leisure Travel Training**
  Provide training and support for individuals to use transit for non-work trips, such as shopping, recreation, and personal errands.
- **New Survey Incentive Development (RidesharePlus 2.0)**
  Develop a new survey incentive program to collect supplemental transportation behavior data beyond traditional AVR surveys or IE Commuter incentive participation. The program would offer incentives for commuters, regardless of mode status, to share insights on motivations and evolving trends influencing mode-shift decisions.
- **Virtual Park & Ride Concept**
  Explore concept of leveraging secure, underutilized commercial or municipal parking to create discrete carpool/vanpool spaces instead of large lots that can attract theft, with users locating and reserving spaces through a mobile app.
- **RCTC VanClub Funding & Administration Exploration**
  Assess opportunities for RCTC to secure funding (e.g., STA and/or 5307) through VanClub. Evaluate potential revenue generation, required administrative capacity, and cost-benefit tradeoffs.
- **High-Density Living / Community Engagement**
  Develop outreach and engagement strategies in high-density residential areas to increase awareness and adoption of transit, rideshare, and other sustainable mobility options.
- **Commercial Park Engagement**
  Efficiently engage commercial park employers to participate in IE Commuter programs, increasing ridematching potential and improving coordinated commuter options within concentrated employment centers.

In case of any of the foregoing, RCTC shall notify the Consultant of the Breach, and the Consultant shall have a period of ten (10) days (or such longer period as RCTC may authorize in writing) after receipt of notice from RCTC to cure the Breach.

b. RCTC may, by written notice of termination to the Consultant specifying the effective date thereof, terminate the whole or any part of this contract, in the case of a Breach that is not cured within the timeframe set forth in (a) above ("Uncured Breach").

c. If the contract is terminated in whole or in part for an Uncured Breach, RCTC may procure upon such terms and in such manner as RCTC may deem appropriate, supplies or services similar to those so terminated, or may complete the services with its own forces. The Consultant shall be liable to RCTC for any excess costs for such similar supplies or services, and for any other costs incurred by RCTC as a result of the Uncured Breach. The Consultant shall continue the performance of this contract to the extent not terminated under the provisions of this clause.

d. Except with respect to defaults of Subconsultants, the Consultant shall not be liable for any excess costs if the failure to perform the contract arises out of causes beyond the control and without the fault or negligence of the Consultant. f. If, after notice of termination of this contract for cause, it is determined for any reason that an Uncured Breach did not exist, the rights and obligations of the parties shall be the same as if the notice of termination had been issued pursuant to the provisions for termination for convenience of RCTC.

g. The rights and remedies of RCTC provided in this clause shall not be exclusive and are in addition to any other rights and remedies provided by law, equity or under this contract including, but not limited to, the right to specific performance.

h. Notwithstanding the above, RCTC may, without providing an opportunity to cure, terminate the contract in accordance with the timeframe set forth in Section 17 of the contract, if RCTC determines such action is in its best interest based on the nature of the Breach. Such actions shall not limit any of RCTC's remedies set forth above.

16. Disputes

Except as otherwise provided in this Agreement, any dispute concerning a question of fact arising under this Agreement which is not disposed of by supplemental agreement shall be decided by RCTC's Deputy Executive Director, who shall reduce the decision to writing and mail or otherwise furnish a copy thereof to the Consultant. The decision of the RCTC Deputy Executive Director shall be final and conclusive unless, within thirty (30) days from the date of receipt of such copy, Consultant mails or otherwise furnishes to the RCTC Deputy Executive Director a written appeal addressed to RCTC's Executive Director. The decision of RCTC Executive Director or duly authorized representative for the determination of such appeals shall be final and conclusive.

b. The provisions of this Paragraph shall not be pleaded in any suit involving a question of fact arising under this Agreement as limiting judicial review of any such decision to cases where fraud by such official or his representative or board is alleged, provided, however, that any such decision shall be final and conclusive unless the same is fraudulent or capricious or arbitrary or so grossly erroneous as necessarily to imply bad faith or is not supported by substantial evidence. In connection with any appeal proceeding under this Paragraph, the Consultant shall be afforded an opportunity to be heard and to offer evidence in support of its appeal.

c. Pending final decision of a dispute hereunder, Consultant shall proceed diligently with the performance of this Agreement and in accordance with the decision of RCTC's Deputy Executive Director. This "Disputes" clause does not preclude consideration of questions of law in connection with decisions provided for above. Nothing in this Agreement, however, shall be construed as making final the decision of any RCTC official or representative on a question of law, which questions shall be settled in accordance with the laws of the State of California.

**PROFESSIONAL SERVICES AGREEMENT
WITH FHWA AND FTA FUNDING ASSISTANCE**

**RIVERSIDE COUNTY TRANSPORTATION COMMISSION
AGREEMENT WITH
HNTB CORPORATION
FOR ON-CALL
TRANSPORTATION DEMAND MANAGEMENT SERVICES**

Parties and Date.

This Agreement is made and entered into this ___ day of _____, 2026, by and between the RIVERSIDE COUNTY TRANSPORTATION COMMISSION ("the Commission") and HNTB CORPORATION ("Consultant"), a CORPORATION. The Commission and Consultant are sometimes referred to herein individually as “Party”, and collectively as the “Parties”.

Recitals.

A. On November 8, 1988 the Voters of Riverside County approved Measure A authorizing the collection of a one-half percent (1/2 %) retail transactions and use tax (the "tax") to fund transportation programs and improvements within the County of Riverside, and adopting the Riverside County Transportation Improvement Plan (the "Plan").

B. Pursuant to Public Utility Code Sections 240000 et seq., the Commission is authorized to allocate the proceeds of the Tax in furtherance of the Plan.

C. On November 5, 2002, the voters of Riverside County approved an extension of the Measure A tax for an additional thirty (30) years for the continued funding of transportation and improvements within the County of Riverside.

D. The Commission, in partnership with San Bernardino County Transportation Authority (SBCTA), administers the IE Commuter program, which serves as the region’s flagship Transportation Demand Management (“TDM”) program.

E. The IE Commuter program is seeking innovative and cost-effective solutions that reduce single-occupancy vehicle trips, manage travel demand, and improve mobility for Riverside and San Bernardino County residents, as well as for the regional employers to which Inland Empire residents commute.

F. Consultant shall provide services on an on-call basis to support a wide variety of TDM projects, programs, and initiatives for the benefit of the Commission and SBCTA in implementation of the TDM program.

DRAFT

F. The sources of funding for payment for on-call professional consulting services provided under this Agreement may include the following funding sources:

> Commission Measure A funds, Federal Highway Administration (FHWA), Federal Transit Administration (FTA), state funds through Caltrans, or SBCTA reimbursements (from local or federal funds)

In relation to such funding, Consulant shall execute and submit to the Commission the certification shown in Exhibit "E" attached hereto and incorporated herein by reference. Consultant shall comply with all funding source requirements as further set forth in this Agreement and the attached exhibits.

G. Consultant desires to perform and assume responsibility for the provision of certain on-call services for the TDM program. Services shall be provided for the Commission or for the benefit of SBCTA, as directed, on the terms and conditions set forth in this Agreement and in the task order(s) to be solicited, awarded and authorized by Commission as further described in this Agreement ("Task Order"). Consultant represents that it is experienced in providing such services to public clients, is licensed in the State of California (if necessary), and is familiar with the plans of the Commission.

H. Commission desires to engage Consultant to render such services on an on-call basis. Services shall be ordered by Task Order(s) to be issued pursuant to this Agreement for future projects as set forth herein and in each Task Order (each such project shall be designated a "Project" under this Agreement).

Terms.

1. General Scope of Services. Consultant shall furnish all technical and professional services, including labor, material, equipment, transportation, supervision and expertise, and incidental and customary work necessary to fully and adequately supply the on-call TDM program related services for the Projects ("Services"). The Services are generally described in Exhibit "A" attached hereto and incorporated herein by reference. The Services shall be more particularly described in the individual Task Orders issued by the Commission's Executive Director or designee. No Services shall be performed unless authorized by a Task Order. All Services shall be subject to, and performed in accordance with, this Agreement, the relevant Task Order, the exhibits attached hereto and incorporated herein by reference, and all applicable local, state and federal laws, rules and regulations.

2. Task Orders; Commencement of Services; Schedule of Services. Services under this Agreement shall be requested by the Commission pursuant to Task Order requests. If Commission accepts Consultant's Task Order proposal, Commission shall issue a purchase order or executed task order for the Services ("Commission's Task Order Authorization"). Consultant's agreement to the final terms of a proposed Task Order, Commission's Task Order Authorization and Consultant's commencement of the Services shall indicate the Parties' agreement to the terms of the relevant Task Order.

DRAFT

Consultant shall commence Services under a Task Order within five (5) days of receiving Commission's Task Order Authorization, or as otherwise specified in the Task Order request.

Consultant shall perform the Services expeditiously, in accordance with any schedule for the Services set forth in a Task Order ("Schedule of Services"). Consultant represents that it has the professional and technical personnel required to perform the Services in conformance with such conditions. In order to facilitate Consultant's conformance with the Schedule, Commission shall respond to Consultant's submittals in a timely manner. Upon request of the Commission, Consultant shall provide a more detailed schedule of anticipated performance to meet the Schedule of Services.

Task Orders may not be used to amend the language (or the terms) of this Agreement or to exceed the scope of work under this Agreement.

3. Pre-Award Audit. As a result of the funding for this Project, and to the extent Caltrans procedures apply in connection therewith, issuance of a "Notice to Proceed" or other authorization to proceed under a Task Order may be contingent upon completion and approval of a pre-award audit. Any questions raised during the pre-award audit shall be resolved before Services are commenced under a Task Order. The funding provided under this Agreement is contingent on meeting all funding requirements and could be withdrawn, thereby entitling the Commission to terminate this Agreement, if the procedures are not completed. The Consultant's files shall be maintained in a manner to facilitate State process reviews. In addition, Caltrans may require that prior to performance of any work for which funding reimbursement through Caltrans is requested and provided, that Caltrans must give to Commission an "Authorization to Proceed".

4. Audit Procedures.

4.1 Consultant and certain subconsultant contracts, including cost proposals and ICR, are subject to audits or reviews such as, but not limited to, a contract audit, an incurred cost audit, an Independent Cost Review (ICR) Audit, or a CPA ICR audit work paper review. If selected for audit or review, this Agreement, Consultant's cost proposal and ICR and related work papers, if applicable, will be reviewed to verify compliance with 48 CFR, Part 31 and other related laws and regulations. In the instances of a CPA ICR audit work paper review it is Consultant's responsibility to ensure federal, state, or local government officials are allowed full access to the CPA's work papers including making copies as necessary. This Agreement, Consultant's cost proposal, and ICR shall be adjusted by Consultant and approved by the Commission's contract manager to conform to the audit or review recommendations. Consultant agrees that individual terms of costs identified in the audit report shall be incorporated into this Agreement by this reference if directed by Commission at its sole discretion. Refusal by Consultant to incorporate audit or review recommendations, or to ensure that the federal, state or local governments have access to CPA work papers, will be considered a breach of the Agreement terms and cause for termination of this Agreement and disallowance of prior reimbursed costs. Additional audit provisions applicable to this Agreement are set forth in Sections 22 and 23 of this Agreement.

DRAFT

Section 4.2 and 4.3 shall apply to the extent applicable to the Task Order and funding source.

4.2 During any Caltrans' review of the ICR audit work papers created by the Consultant's independent CPA (which may include review by the Independent Office of Audits and Investigations), Caltrans will work with the CPA and/or Consultant toward a resolution of issues that arise during the review. Each party agrees to use its best efforts to resolve any audit disputes in a timely manner. If Caltrans identifies significant issues during the review and is unable to issue a cognizant approval letter, Commission will reimburse the Consultant at an accepted ICR until a FAR (Federal Acquisition Regulation) compliant ICR {e.g. 48 CFR Part 31; GAGAS (Generally Accepted Auditing Standards); CAS (Cost Accounting Standards), if applicable; in accordance with procedures and guidelines of the American Association of State Highways and Transportation Officials (AASHTO) Audit Guide; and other applicable procedures and guidelines is received and approved by Caltrans.

c. If the proposed rate is greater than two hundred percent (200%) - the accepted rate will be seventy-five percent (75%) of the proposed rate.

4.3 If Caltrans is unable to issue a cognizant letter per Section 4.2 above, Caltrans may require Consultant to submit a revised independent CPA-audited ICR and audit report within three (3) months of the effective date of the Caltrans' management letter. Caltrans will then have up to six (6) months to review the Consultant's and/or the independent CPA's revisions.

If the Consultant fails to comply with the provisions of this Section 4, or if Caltrans is still unable to issue a cognizant approval letter after the revised independent CPA audited ICR is submitted, overhead cost reimbursement will be limited to the accepted ICR that was established upon initial rejection of the ICR and set forth in Section 4.2 above for all rendered services. In this event, this accepted ICR will become the actual and final ICR for reimbursement purposes under this Agreement.

Consultant may submit to Commission final invoice only when all of the following items have occurred: (1) Caltrans accepts or adjusts the original or revised independent CPA audited ICR; (2) all work under this Agreement has been completed to the satisfaction of Commission; and, (3) Caltrans has issued its final ICR review letter. The Consultant must submit its final invoice to Commission no later than sixty (60) calendar days after occurrence of the last of these items. APPENDIX A

Statement of Services

On-Call Transportation Demand Management Services

The Riverside County Transportation Commission (RCTC) seeks to identify and select a bench of qualified consultants that demonstrate the experience, knowledge, and capacity to provide planning, design, evaluation, implementation, marketing, communications, and outreach services in support of Transportation Demand Management (TDM) strategies. Successful consultants will provide innovative and cost-effective solutions that reduce single-occupancy vehicle trips, manage travel demand, and improve mobility for Riverside and San Bernardino County residents, as well as for the regional employers that Inland Empire residents commute to. The selected consultants shall provide services on an on-call basis to support a wide variety of TDM projects, programs, and initiatives.

RCTC, in partnership with the San Bernardino County Transportation Authority (SBCTA), administers the IE Commuter program, which serves as the region's flagship TDM program. Consultants may be called upon to support special projects or projects identified through a Strategic TDM Study to be conducted in 2026, which will provide a blueprint for future program direction. Consultants may also support IE Commuter operations and related activities, including development of a transit training program, expansion of services and outreach to discretionary trip markets, targeted outreach efforts; and preparation for regional travel demands associated with events such as the 2028 Olympic Games.

Requirements and Contract Information

As an on-call consultant for the Commission, the consultant shall respond within 72 hours to Task Order requests for projects, programs, or services. The response shall include a summary work plan, labor fees, and direct costs for the requested Task Order. Commission staff will review Task Order responses and select the consultant who best meets the requirements of the Task Order. The Commission is not bound to execute a Task Order and reserves the right to negotiate fees with the consultant.

The Commission intends to award an agreement to a bench of eight consultants and strongly encourages firms to seek the services of subcontractors that can help deliver specialized skillsets, such as analysis, technical services, and public engagement. If two or more firms, persons, or entities wish to submit one proposal in response to this RFP, they should do so on a prime/subconsultant basis rather than as a joint venture.

The proposed initial term of the agreement shall be three years with one two-year option term to extend the agreement up to five years. Option terms will be executed at RCTC's sole discretion.

The consultant shall comply with all relevant disclosure requirements and maintain the highest ethical standards both publicly and privately, including the avoidance of conflicts of interest. Participation of small, disadvantaged, and DBE-certified businesses is encouraged.

Table 1: Potential* Projects, Programs, and Initiatives

- **Transit Trainer Program – Worksite Travel Training**
  Develop a worksite-based program to convert existing riders into volunteer transit trainers who guide new riders (colleagues at their own or adjacent worksites) in person through one or more transit trips until they can ride independently.
- **Transit Trainer Program – Discretionary/Leisure Travel Training**
  Provide training and support for individuals to use transit for non-work trips, such as shopping, recreation, and personal errands.
- **New Survey Incentive Development (RidesharePlus 2.0)**
  Develop a new survey incentive program to collect supplemental transportation behavior data beyond traditional AVR surveys or IE Commuter incentive participation. The program would offer incentives for commuters, regardless of mode status, to share insights on motivations and evolving trends influencing mode-shift decisions.
- **Virtual Park & Ride Concept**
  Explore concept of leveraging secure, underutilized commercial or municipal parking to create discrete carpool/vanpool spaces instead of large lots that can attract theft, with users locating and reserving spaces through a mobile app.
- **RCTC VanClub Funding & Administration Exploration**
  Assess opportunities for RCTC to secure funding (e.g., STA and/or 5307) through VanClub. Evaluate potential revenue generation, required administrative capacity, and cost-benefit tradeoffs.
- **High-Density Living / Community Engagement**
  Develop outreach and engagement strategies in high-density residential areas to increase awareness and adoption of transit, rideshare, and other sustainable mobility options.

The Consultant may be declared in breach of this Agreement ("Breach") if the Consultant fails to make delivery of the supplies or to perform the services within the time specified herein or any extension thereof; or if the Consultant fails to perform any of the other provisions of the contract, or so fails to make progress as to endanger performance of this contract in accordance with its terms. In case of any of the foregoing, RCTC shall notify the Consultant of the Breach, and the Consultant shall have a period of ten (10) days (or such longer period as RCTC may authorize in writing) after receipt of notice from RCTC to cure the Breach.

b. RCTC may, by written notice of termination to the Consultant specifying the effective date thereof, terminate the whole or any part of this contract, in the case of a Breach that is not cured within the timeframe set forth in (a) above ("Uncured Breach").

c. If the contract is terminated in whole or in part for an Uncured Breach, RCTC may procure upon such terms and in such manner as RCTC may deem appropriate, supplies or services similar to those so terminated, or may complete the services with its own forces. The Consultant shall be liable to RCTC for any excess costs for such similar supplies or services, and for any other costs incurred by RCTC as a result of the Uncured Breach. The Consultant shall continue the performance of this contract to the extent not terminated under the provisions of this clause.

d. Except with respect to defaults of Subconsultants, the Consultant shall not be liable for any excess costs if the failure to perform the contract arises out of causes beyond the control and without the fault or negligence of the Consultant. If the failure to perform is caused by the default of a Subconsultant, and if such default arises out of causes beyond the control of both the Consultant and the Subconsultant, and without the fault or negligence of either of them, the Consultant shall not be liable for any excess costs for failure to perform, unless the supplies or services to be furnished by the Subconsultant were obtainable from other sources in sufficient time to permit the Consultant to meet the required project completion schedule.

e. Payment for completed services or supplies delivered to and accepted by RCTC shall be at the contract price. RCTC may withhold from amounts otherwise due the Consultant for such completed services or supplies such sum as RCTC determines to be necessary to protect RCTC

against loss because of outstanding liens of claims of former lien holders, or to reimburse RCTC for any other costs related to the Uncured Breach.

f. If, after notice of termination of this contract for cause, it is determined for any reason that an Uncured Breach did not exist, the rights and obligations of the parties shall be the same as if the notice of termination had been issued pursuant to the provisions for termination for convenience of RCTC.

g. The rights and remedies of RCTC provided in this clause shall not be exclusive and are in addition to any other rights and remedies provided by law, equity or under this contract including, but not limited to, the right to specific performance.

h. Notwithstanding the above, RCTC may, without providing an opportunity to cure, terminate the contract in accordance with the timeframe set forth in Section 17 of the contract, if RCTC determines such action is in its best interest based on the nature of the Breach. Such actions shall not limit any of RCTC's remedies set forth above.

16. Disputes

a. Except as otherwise provided in this Agreement, any dispute concerning a question of fact arising under this Agreement which is not disposed of by supplemental agreement shall be decided by RCTC's Deputy Executive Director, who shall reduce the decision to writing and mail or otherwise furnish a copy thereof to the Consultant. The decision of the RCTC Deputy Executive Director shall be final and conclusive unless, within thirty (30) days from the date of receipt of such copy, Consultant mails or otherwise furnishes to the RCTC Deputy Executive Director a written appeal addressed to RCTC's Executive Director. The decision of RCTC Executive Director or duly authorized representative for the determination of such appeals shall be final and conclusive.

b. The provisions of this Paragraph shall not be pleaded in any suit involving a question of fact arising under this Agreement as limiting judicial review of any such decision to cases where fraud by such official or his representative or board is alleged, provided, however, that any such decision shall be final and conclusive unless the same is fraudulent or capricious or arbitrary or so grossly erroneous as necessarily to imply bad faith or is not supported by substantial evidence. In connection with any appeal proceeding under this Paragraph, the Consultant shall be afforded an opportunity to be heard and to offer evidence in support of its appeal.

c. Pending final decision of a dispute hereunder, Consultant shall proceed diligently with the performance of this Agreement and in accordance with the decision of RCTC's Deputy Executive Director. This "Disputes" clause does not preclude consideration of questions of law in connection with decisions provided for above. Nothing in this Agreement, however, shall be construed as making final the decision of any RCTC official or representative on a question of law, which questions shall be settled in accordance with the laws of the State of California.

**PROFESSIONAL SERVICES AGREEMENT
WITH FHWA AND FTA FUNDING ASSISTANCE**

**RIVERSIDE COUNTY TRANSPORTATION COMMISSION
AGREEMENT WITH
ICF CONSULTING, LLC
FOR ON-CALL
TRANSPORTATION DEMAND MANAGEMENT SERVICES**

Parties and Date.

This Agreement is made and entered into this ___ day of _____, 2026, by and between the RIVERSIDE COUNTY TRANSPORTATION COMMISSION ("the Commission") and ICF CONSULTING ("Consultant"), a LIMITED LIABILITY CORPORATION. The Commission and Consultant are sometimes referred to herein individually as “Party”, and collectively as the “Parties”.

Recitals.

A. On November 8, 1988 the Voters of Riverside County approved Measure A authorizing the collection of a one-half percent (1/2 %) retail transactions and use tax (the "tax") to fund transportation programs and improvements within the County of Riverside, and adopting the Riverside County Transportation Improvement Plan (the "Plan").

B. Pursuant to Public Utility Code Sections 240000 et seq., the Commission is authorized to allocate the proceeds of the Tax in furtherance of the Plan.

C. On November 5, 2002, the voters of Riverside County approved an extension of the Measure A tax for an additional thirty (30) years for the continued funding of transportation and improvements within the County of Riverside.

D. The Commission, in partnership with San Bernardino County Transportation Authority (SBCTA), administers the IE Commuter program, which serves as the region’s flagship Transportation Demand Management (“TDM”) program.

E. The IE Commuter program is seeking innovative and cost-effective solutions that reduce single-occupancy vehicle trips, manage travel demand, and improve mobility for Riverside and San Bernardino County residents, as well as for the regional employers to which Inland Empire residents commute.

F. Consultant shall provide services on an on-call basis to support a wide variety of TDM projects, programs, and initiatives for the benefit of the Commission and SBCTA in implementation of the TDM program.

DRAFT

F. The sources of funding for payment for on-call professional consulting services provided under this Agreement may include the following funding sources:

> Commission Measure A funds, Federal Highway Administration (FHWA), Federal Transit Administration (FTA), state funds through Caltrans, or SBCTA reimbursements (from local or federal funds)

In relation to such funding, Consulant shall execute and submit to the Commission the certification shown in Exhibit "E" attached hereto and incorporated herein by reference. Consultant shall comply with all funding source requirements as further set forth in this Agreement and the attached exhibits.

G. Consultant desires to perform and assume responsibility for the provision of certain on-call services for the TDM program. Services shall be provided for the Commission or for the benefit of SBCTA, as directed, on the terms and conditions set forth in this Agreement and in the task order(s) to be solicited, awarded and authorized by Commission as further described in this Agreement ("Task Order"). Consultant represents that it is experienced in providing such services to public clients, is licensed in the State of California (if necessary), and is familiar with the plans of the Commission.

H. Commission desires to engage Consultant to render such services on an on-call basis. Services shall be ordered by Task Order(s) to be issued pursuant to this Agreement for future projects as set forth herein and in each Task Order (each such project shall be designated a "Project" under this Agreement).

Terms.

1. General Scope of Services. Consultant shall furnish all technical and professional services, including labor, material, equipment, transportation, supervision and expertise, and incidental and customary work necessary to fully and adequately supply the on-call TDM program related services for the Projects ("Services"). The Services are generally described in Exhibit "A" attached hereto and incorporated herein by reference. The Services shall be more particularly described in the individual Task Orders issued by the Commission's Executive Director or designee. No Services shall be performed unless authorized by a Task Order. All Services shall be subject to, and performed in accordance with, this Agreement, the relevant Task Order, the exhibits attached hereto and incorporated herein by reference, and all applicable local, state and federal laws, rules and regulations.

2. Task Orders; Commencement of Services; Schedule of Services. Services under this Agreement shall be requested by the Commission pursuant to Task Order requests. If Commission accepts Consultant's Task Order proposal, Commission shall issue a purchase order or executed task order for the Services ("Commission's Task Order Authorization"). Consultant's agreement to the final terms of a proposed Task Order, Commission's Task Order Authorization and Consultant's commencement of the Services shall indicate the Parties' agreement to the terms of the relevant Task Order.

DRAFT

Consultant shall commence Services under a Task Order within five (5) days of receiving Commission's Task Order Authorization, or as otherwise specified in the Task Order request.

Consultant shall perform the Services expeditiously, in accordance with any schedule for the Services set forth in a Task Order ("Schedule of Services"). Consultant represents that it has the professional and technical personnel required to perform the Services in conformance with such conditions. In order to facilitate Consultant's conformance with the Schedule, Commission shall respond to Consultant's submittals in a timely manner. Upon request of the Commission, Consultant shall provide a more detailed schedule of anticipated performance to meet the Schedule of Services.

Task Orders may not be used to amend the language (or the terms) of this Agreement or to exceed the scope of work under this Agreement.

3. Pre-Award Audit. As a result of the funding for this Project, and to the extent Caltrans procedures apply in connection therewith, issuance of a "Notice to Proceed" or other authorization to proceed under a Task Order may be contingent upon completion and approval of a pre-award audit. Any questions raised during the pre-award audit shall be resolved before Services are commenced under a Task Order. The funding provided under this Agreement is contingent on meeting all funding requirements and could be withdrawn, thereby entitling the Commission to terminate this Agreement, if the procedures are not completed. The Consultant's files shall be maintained in a manner to facilitate State process reviews. In addition, Caltrans may require that prior to performance of any work for which funding reimbursement through Caltrans is requested and provided, that Caltrans must give to Commission an "Authorization to Proceed".

4. Audit Procedures.

4.1 Consultant and certain subconsultant contracts, including cost proposals and ICR, are subject to audits or reviews such as, but not limited to, a contract audit, an incurred cost audit, an Independent Cost Review (ICR) Audit, or a CPA ICR audit work paper review. If selected for audit or review, this Agreement, Consultant's cost proposal and ICR and related work papers, if applicable, will be reviewed to verify compliance with 48 CFR, Part 31 and other related laws and regulations. In the instances of a CPA ICR audit work paper review it is Consultant's responsibility to ensure federal, state, or local government officials are allowed full access to the CPA's work papers including making copies as necessary. This Agreement, Consultant's cost proposal, and ICR shall be adjusted by Consultant and approved by the Commission's contract manager to conform to the audit or review recommendations. Consultant agrees that individual terms of costs identified in the audit report shall be incorporated into this Agreement by this reference if directed by Commission at its sole discretion. Refusal by Consultant to incorporate audit or review recommendations, or to ensure that the federal, state or local governments have access to CPA work papers, will be considered a breach of the Agreement terms and cause for termination of this Agreement and disallowance of prior reimbursed costs. Additional audit provisions applicable to this Agreement are set forth in Sections 22 and 23 of this Agreement.

DRAFT

Section 4.2 and 4.3 shall apply to the extent applicable to the Task Order and funding source.

4.2 During any Caltrans' review of the ICR audit work papers created by the Consultant's independent CPA (which may include review by the Independent Office of Audits and Investigations), Caltrans will work with the CPA and/or Consultant toward a resolution of issues that arise during the review. Each party agrees to use its best efforts to resolve any audit disputes in a timely manner. If Caltrans identifies significant issues during the review and is unable to issue a cognizant approval letter, Commission will reimburse the Consultant at an accepted ICR until a FAR (Federal Acquisition Regulation) compliant ICR {e.g. 48 CFR Part 31; GAGAS (Generally Accepted Auditing Standards); CAS (Cost Accounting Standards), if applicable; in accordance with procedures and guidelines of the American Association of State Highways and Transportation Officials (AASHTO) Audit Guide; and other applicable procedures and guidelines is received and approved by Caltrans.

c. If the proposed rate is greater than two hundred percent (200%) - the accepted rate will be seventy-five percent (75%) of the proposed rate.

4.3 If Caltrans is unable to issue a cognizant letter per Section 4.2 above, Caltrans may require Consultant to submit a revised independent CPA-audited ICR and audit report within three (3) months of the effective date of the Caltrans' management letter. Caltrans will then have up to six (6) months to review the Consultant's and/or the independent CPA's revisions.

If the Consultant fails to comply with the provisions of this Section 4, or if Caltrans is still unable to issue a cognizant approval letter after the revised independent CPA audited ICR is submitted, overhead cost reimbursement will be limited to the accepted ICR that was established upon initial rejection of the ICR and set forth in Section 4.2 above for all rendered services. In this event, this accepted ICR will become the actual and final ICR for reimbursement purposes under this Agreement.

Consultant may submit to Commission final invoice only when all of the following items have occurred: (1) Caltrans accepts or adjusts the original or revised independent CPA audited ICR; (2) all work under this Agreement has been completed to the satisfaction of Commission; and, (3) Caltrans has issued its final ICR review letter. The Consultant must submit its final invoice to Commission no later than sixty (60) calendar days after occurrence of the last of these items. Statement of Services

On-Call Transportation Demand Management Services

The Riverside County Transportation Commission (RCTC) seeks to identify and select a bench of qualified consultants that demonstrate the experience, knowledge, and capacity to provide planning, design, evaluation, implementation, marketing, communications, and outreach services in support of Transportation Demand Management (TDM) strategies. Successful consultants will provide innovative and cost-effective solutions that reduce single-occupancy vehicle trips, manage travel demand, and improve mobility for Riverside and San Bernardino County residents, as well as for the regional employers that Inland Empire residents commute to. The selected consultants shall provide services on an on-call basis to support a wide variety of TDM projects, programs, and initiatives.

RCTC, in partnership with the San Bernardino County Transportation Authority (SBCTA), administers the IE Commuter program, which serves as the region's flagship TDM program. Consultants may be called upon to support special projects or projects identified through a Strategic TDM Study to be conducted in 2026, which will provide a blueprint for future program direction. Consultants may also support IE Commuter operations and related activities, including development of a transit training program, expansion of services and outreach to discretionary trip markets, targeted outreach efforts; and preparation for regional travel demands associated with events such as the 2028 Olympic Games.

The proposed initial term of the agreement shall be three years with one two-year option term to extend the agreement up to five years. Option terms will be executed at RCTC's sole discretion.

Table 1: Potential* Projects, Programs, and Initiatives

- **Transit Trainer Program – Worksite Travel Training**
  Develop a worksite-based program to convert existing riders into volunteer transit trainers who guide new riders (colleagues at their own or adjacent worksites) in person through one or more transit trips until they can ride independently.
- **Transit Trainer Program – Discretionary/Leisure Travel Training**

The program would offer incentives for commuters, regardless of mode status, to share insights on motivations and evolving trends influencing mode-shift decisions.
- **Virtual Park & Ride Concept**
  Explore concept of leveraging secure, underutilized commercial or municipal parking to create discrete carpool/vanpool spaces instead of large lots that can attract theft, with users locating and reserving spaces through a mobile app.
- **RCTC VanClub Funding & Administration Exploration**

- **High-Density Living / Community Engagement**
  Develop outreach and engagement strategies in high-density residential areas to increase awareness and adoption of transit, rideshare, and other sustainable mobility options.
- **Commercial Park Engagement**
  Efficiently engage commercial park employers to participate in IE Commuter programs, increasing ridematching potential and improving coordinated commuter options within concentrated employment centers.
- **Guaranteed Ride to Work Program**

14. Termination for Convenience

DRAFT

RCTC may terminate the Agreement for convenience in accordance with the terms of the Agreement.

After such termination, the Consultant shall submit a final termination settlement proposal to RCTC as directed. If the Consultant fails to submit a proposal within the time allowed, RCTC may determine, on the basis of information available, the amount, if any due the Consultant because of the termination and shall pay the amount determined. After the Consultant's proposal is received, RCTC and Consultant shall negotiate a fair and equitable settlement and the contract will be modified to reflect the negotiated agreement. If agreement cannot be reached, RCTC may issue a final determination and pay the amount determined. If the Consultant does not agree with this final determination or the determination resulting from the lack of timely submission of a proposal, the Consultant may appeal under the Disputes clause.

15. Administrative and Contractual Remedies on Breach; Termination for Cause

a. The Consultant may be declared in breach of this Agreement ("Breach") if the Consultant fails to make delivery of the supplies or to perform the services within the time specified herein or any extension thereof; or if the Consultant fails to perform any of the other provisions of the contract, or so fails to make progress as to endanger performance of this contract in accordance with its terms. In case of any of the foregoing, RCTC shall notify the Consultant of the Breach, and the Consultant shall have a period of ten (10) days (or such longer period as RCTC may authorize in writing) after receipt of notice from RCTC to cure the Breach.

b. RCTC may, by written notice of termination to the Consultant specifying the effective date thereof, terminate the whole or any part of this contract, in the case of a Breach that is not cured within the timeframe set forth in (a) above ("Uncured Breach").

c. If the contract is terminated in whole or in part for an Uncured Breach, RCTC may procure upon such terms and in such manner as RCTC may deem appropriate, supplies or services similar to those so terminated, or may complete the services with its own forces. The Consultant shall be liable to RCTC for any excess costs for such similar supplies or services, and for any other costs incurred by RCTC as a result of the Uncured Breach. The Consultant shall continue the performance of this contract to the extent not terminated under the provisions of this clause.

d. Except with respect to defaults of Subconsultants, the Consultant shall not be liable for any excess costs if the failure to perform the contract arises out of causes beyond the control and without the fault or negligence of the Consultant. If the failure to perform is caused by the default of a Subconsultant, and if such default arises out of causes beyond the control of both the Consultant and the Subconsultant, and without the fault or negligence of either of them, the Consultant shall not be liable for any excess costs for failure to perform, unless the supplies or services to be furnished by the Subconsultant were obtainable from other sources in sufficient time to permit the Consultant to meet the required project completion schedule.

e. Payment for completed services or supplies delivered to and accepted by RCTC shall be at the contract price. RCTC may withhold from amounts otherwise due the Consultant for such completed services or supplies such sum as RCTC determines to be necessary to protect RCTC

DRAFT

against loss because of outstanding liens of claims of former lien holders, or to reimburse RCTC for any other costs related to the Uncured Breach.

f. If, after notice of termination of this contract for cause, it is determined for any reason that an Uncured Breach did not exist, the rights and obligations of the parties shall be the same as if the notice of termination had been issued pursuant to the provisions for termination for convenience of RCTC.

g. The rights and remedies of RCTC provided in this clause shall not be exclusive and are in addition to any other rights and remedies provided by law, equity or under this contract including, but not limited to, the right to specific performance.

h. Notwithstanding the above, RCTC may, without providing an opportunity to cure, terminate the contract in accordance with the timeframe set forth in Section 17 of the contract, if RCTC determines such action is in its best interest based on the nature of the Breach. Such actions shall not limit any of RCTC's remedies set forth above.

16. Disputes

a. Except as otherwise provided in this Agreement, any dispute concerning a question of fact arising under this Agreement which is not disposed of by supplemental agreement shall be decided by RCTC's Deputy Executive Director, who shall reduce the decision to writing and mail or otherwise furnish a copy thereof to the Consultant. The decision of the RCTC Deputy Executive Director shall be final and conclusive unless, within thirty (30) days from the date of receipt of such copy, Consultant mails or otherwise furnishes to the RCTC Deputy Executive Director a written appeal addressed to RCTC's Executive Director. The decision of RCTC Executive Director or duly authorized representative for the determination of such appeals shall be final and conclusive.

b. The provisions of this Paragraph shall not be pleaded in any suit involving a question of fact arising under this Agreement as limiting judicial review of any such decision to cases where fraud by such official or his representative or board is alleged, provided, however, that any such decision shall be final and conclusive unless the same is fraudulent or capricious or arbitrary or so grossly erroneous as necessarily to imply bad faith or is not supported by substantial evidence. In connection with any appeal proceeding under this Paragraph, the Consultant shall be afforded an opportunity to be heard and to offer evidence in support of its appeal.

c. Pending final decision of a dispute hereunder, Consultant shall proceed diligently with the performance of this Agreement and in accordance with the decision of RCTC's Deputy Executive Director. This "Disputes" clause does not preclude consideration of questions of law in connection with decisions provided for above. Nothing in this Agreement, however, shall be construed as making final the decision of any RCTC official or representative on a question of law, which questions shall be settled in accordance with the laws of the State of California.

Upon request of the Commission, Consultant shall provide a more detailed schedule of anticipated performance to meet the Schedule of Services.

Task Orders may not be used to amend the language (or the terms) of this Agreement or to exceed the scope of work under this Agreement.

3. Pre-Award Audit. As a result of the funding for this Project, and to the extent Caltrans procedures apply in connection therewith, issuance of a "Notice to Proceed" or other authorization to proceed under a Task Order may be contingent upon completion and approval of a pre-award audit. Any questions raised during the pre-award audit shall be resolved before Services are commenced under a Task Order. The funding provided under this Agreement is contingent on meeting all funding requirements and could be withdrawn, thereby entitling the Commission to terminate this Agreement, if the procedures are not completed. The Consultant's files shall be maintained in a manner to facilitate State process reviews. In addition, Caltrans may require that prior to performance of any work for which funding reimbursement through Caltrans is requested and provided, that Caltrans must give to Commission an "Authorization to Proceed".

In the instances of a CPA ICR audit work paper review it is Consultant's responsibility to ensure federal, state, or local government officials are allowed full access to the CPA's work papers including making copies as necessary. This Agreement, Consultant's cost proposal, and ICR shall be adjusted by Consultant and approved by the Commission's contract manager to conform to the audit or review recommendations. Consultant agrees that individual terms of costs identified in the audit report shall be incorporated into this Agreement by this reference if directed by Commission at its sole discretion. Refusal by Consultant to incorporate audit or review recommendations, or to ensure that the federal, state or local governments have access to CPA work papers, will be considered a breach of the Agreement terms and cause for termination of this Agreement and disallowance of prior reimbursed costs. Additional audit provisions applicable to this Agreement are set forth in Sections 22 and 23 of this Agreement.

Each party agrees to use its best efforts to resolve any audit disputes in a timely manner. c. If the proposed rate is greater than two hundred percent (200%) - the accepted rate will be seventy-five percent (75%) of the proposed rate.

4.3 If Caltrans is unable to issue a cognizant letter per Section 4.2 above, Caltrans may require Consultant to submit a revised independent CPA-audited ICR and audit report within three (3) months of the effective date of the Caltrans' management letter. Caltrans will then have up to six (6) months to review the Consultant's and/or the independent CPA's revisions.

If the Consultant fails to comply with the provisions of this Section 4, or if Caltrans is still unable to issue a cognizant approval letter after the revised independent CPA audited ICR is submitted, overhead cost reimbursement will be limited to the accepted ICR that was established upon initial rejection of the ICR and set forth in Section 4.2 above for all rendered services. In this event, this accepted ICR will become the actual and final ICR for reimbursement purposes under this Agreement.

Consultant may submit to Commission final invoice only when all of the following items have occurred: (1) Caltrans accepts or adjusts the original or revised independent CPA audited ICR; (2) all work under this Agreement has been completed to the satisfaction of Commission; and, (3) Caltrans has issued its final ICR review letter. APPENDIX A

Statement of Services

On-Call Transportation Demand Management Services

The Riverside County Transportation Commission (RCTC) seeks to identify and select a bench of qualified consultants that demonstrate the experience, knowledge, and capacity to provide planning, design, evaluation, implementation, marketing, communications, and outreach services in support of Transportation Demand Management (TDM) strategies. Successful consultants will provide innovative and cost-effective solutions that reduce single-occupancy vehicle trips, manage travel demand, and improve mobility for Riverside and San Bernardino County residents, as well as for the regional employers that Inland Empire residents commute to. The selected consultants shall provide services on an on-call basis to support a wide variety of TDM projects, programs, and initiatives.

RCTC, in partnership with the San Bernardino County Transportation Authority (SBCTA), administers the IE Commuter program, which serves as the region's flagship TDM program. Consultants may be called upon to support special projects or projects identified through a Strategic TDM Study to be conducted in 2026, which will provide a blueprint for future program direction. Consultants may also support IE Commuter operations and related activities, including development of a transit training program, expansion of services and outreach to discretionary trip markets, targeted outreach efforts; and preparation for regional travel demands associated with events such as the 2028 Olympic Games.

Requirements and Contract Information

As an on-call consultant for the Commission, the consultant shall respond within 72 hours to Task Order requests for projects, programs, or services. The response shall include a summary work plan, labor fees, and direct costs for the requested Task Order. Commission staff will review Task Order responses and select the consultant who best meets the requirements of the Task Order. The Commission is not bound to execute a Task Order and reserves the right to negotiate fees with the consultant.

The Commission intends to award an agreement to a bench of eight consultants and strongly encourages firms to seek the services of subcontractors that can help deliver specialized skillsets, such as analysis, technical services, and public engagement. If two or more firms, persons, or entities wish to submit one proposal in response to this RFP, they should do so on a prime/subconsultant basis rather than as a joint venture.

The proposed initial term of the agreement shall be three years with one two-year option term to extend the agreement up to five years. Option terms will be executed at RCTC's sole discretion.

The consultant shall comply with all relevant disclosure requirements and maintain the highest ethical standards both publicly and privately, including the avoidance of conflicts of interest. Participation of small, disadvantaged, and DBE-certified businesses is encouraged.

Throughout the term of the contract, the consultant will provide services at the request of the Commission's staff and perform services only as agreed upon in each assigned Task Order. However, initiating new ideas and proposing suggestions is strongly recommended and encouraged to achieve the goals and objectives of the Commission.

The consultant may need to coordinate with engineering consultants, local jurisdictions, SBCTA, and other regulatory agencies to gather information necessary for the planning, design, and evaluation of TDM strategies. The consultant may also need to coordinate with other consultants already under contract to the Commission for services including but not limited to website development, strategic communications, and transportation modeling.

The consultant shall comply with all relevant disclosure requirements and maintain the highest ethical standards both publicly and privately, including the avoidance of conflicts of interest.

Table 1: Potential* Projects, Programs, and Initiatives

- **Transit Trainer Program – Worksite Travel Training**
  Develop a worksite-based program to convert existing riders into volunteer transit trainers who guide new riders (colleagues at their own or adjacent worksites) in person through one or more transit trips until they can ride independently.
- **Transit Trainer Program – Discretionary/Leisure Travel Training**
  Provide training and support for individuals to use transit for non-work trips, such as shopping, recreation, and personal errands.
- **New Survey Incentive Development (RidesharePlus 2.0)**
  Develop a new survey incentive program to collect supplemental transportation behavior data beyond traditional AVR surveys or IE Commuter incentive participation. The program would offer incentives for commuters, regardless of mode status, to share insights on motivations and evolving trends influencing mode-shift decisions.
- **Virtual Park & Ride Concept**
  Explore concept of leveraging secure, underutilized commercial or municipal parking to create discrete carpool/vanpool spaces instead of large lots that can attract theft, with users locating and reserving spaces through a mobile app.
- **RCTC VanClub Funding & Administration Exploration**
  Assess opportunities for RCTC to secure funding (e.g., STA and/or 5307) through VanClub. Evaluate potential revenue generation, required administrative capacity, and cost-benefit tradeoffs.
- **High-Density Living / Community Engagement**
  Develop outreach and engagement strategies in high-density residential areas to increase awareness and adoption of transit, rideshare, and other sustainable mobility options.
- **Commercial Park Engagement**
  Efficiently engage commercial park employers to participate in IE Commuter programs, increasing ridematching potential and improving coordinated commuter options within concentrated employment centers.

In case of any of the foregoing, RCTC shall notify the Consultant of the Breach, and the Consultant shall have a period of ten (10) days (or such longer period as RCTC may authorize in writing) after receipt of notice from RCTC to cure the Breach.

b. RCTC may, by written notice of termination to the Consultant specifying the effective date thereof, terminate the whole or any part of this contract, in the case of a Breach that is not cured within the timeframe set forth in (a) above ("Uncured Breach").

c. The Consultant shall be liable to RCTC for any excess costs for such similar supplies or services, and for any other costs incurred by RCTC as a result of the Uncured Breach. The Consultant shall continue the performance of this contract to the extent not terminated under the provisions of this clause.

d. g. The rights and remedies of RCTC provided in this clause shall not be exclusive and are in addition to any other rights and remedies provided by law, equity or under this contract including, but not limited to, the right to specific performance.

h. Notwithstanding the above, RCTC may, without providing an opportunity to cure, terminate the contract in accordance with the timeframe set forth in Section 17 of the contract, if RCTC determines such action is in its best interest based on the nature of the Breach. Such actions shall not limit any of RCTC's remedies set forth above.

Except as otherwise provided in this Agreement, any dispute concerning a question of fact arising under this Agreement which is not disposed of by supplemental agreement shall be decided by RCTC's Deputy Executive Director, who shall reduce the decision to writing and mail or otherwise furnish a copy thereof to the Consultant. The decision of the RCTC Deputy Executive Director shall be final and conclusive unless, within thirty (30) days from the date of receipt of such copy, Consultant mails or otherwise furnishes to the RCTC Deputy Executive Director a written appeal addressed to RCTC's Executive Director. The decision of RCTC Executive Director or duly authorized representative for the determination of such appeals shall be final and conclusive.

b. The provisions of this Paragraph shall not be pleaded in any suit involving a question of fact arising under this Agreement as limiting judicial review of any such decision to cases where fraud by such official or his representative or board is alleged, provided, however, that any such decision shall be final and conclusive unless the same is fraudulent or capricious or arbitrary or so grossly erroneous as necessarily to imply bad faith or is not supported by substantial evidence. In connection with any appeal proceeding under this Paragraph, the Consultant shall be afforded an opportunity to be heard and to offer evidence in support of its appeal.

c. Pending final decision of a dispute hereunder, Consultant shall proceed diligently with the performance of this Agreement and in accordance with the decision of RCTC's Deputy Executive Director. This "Disputes" clause does not preclude consideration of questions of law in connection with decisions provided for above. Nothing in this Agreement, however, shall be construed as making final the decision of any RCTC official or representative on a question of law, which questions shall be settled in accordance with the laws of the State of California.

**RIVERSIDE COUNTY TRANSPORTATION COMMISSION
AGREEMENT WITH
NELSON\NYGAARD CONSULTING ASSOCIATES
FOR ON-CALL
TRANSPORTATION DEMAND MANAGEMENT SERVICES**

Parties and Date.

This Agreement is made and entered into this ___ day of _____, 2026, by and between the RIVERSIDE COUNTY TRANSPORTATION COMMISSION ("the Commission") and NELSON\NYGAARD CONSULTING ASSOCIATES ("Consultant"), a CORPORATION. The Commission and Consultant are sometimes referred to herein individually as “Party”, and collectively as the “Parties”.

Recitals.

A. On November 8, 1988 the Voters of Riverside County approved Measure A authorizing the collection of a one-half percent (1/2 %) retail transactions and use tax (the "tax") to fund transportation programs and improvements within the County of Riverside, and adopting the Riverside County Transportation Improvement Plan (the "Plan").

B. Pursuant to Public Utility Code Sections 240000 et seq., the Commission is authorized to allocate the proceeds of the Tax in furtherance of the Plan.

C. On November 5, 2002, the voters of Riverside County approved an extension of the Measure A tax for an additional thirty (30) years for the continued funding of transportation and improvements within the County of Riverside.

D. The Commission, in partnership with San Bernardino County Transportation Authority (SBCTA), administers the IE Commuter program, which serves as the region’s flagship Transportation Demand Management (“TDM”) program.

E. The IE Commuter program is seeking innovative and cost-effective solutions that reduce single-occupancy vehicle trips, manage travel demand, and improve mobility for Riverside and San Bernardino County residents, as well as for the regional employers to which Inland Empire residents commute.

F. Consultant shall provide services on an on-call basis to support a wide variety of TDM projects, programs, and initiatives for the benefit of the Commission and SBCTA in implementation of the TDM program.

DRAFT

F. The sources of funding for payment for on-call professional consulting services provided under this Agreement may include the following funding sources:

> Commission Measure A funds, Federal Highway Administration (FHWA), Federal Transit Administration (FTA), state funds through Caltrans, or SBCTA reimbursements (from local or federal funds)

In relation to such funding, Consulant shall execute and submit to the Commission the certification shown in Exhibit "E" attached hereto and incorporated herein by reference. Consultant shall comply with all funding source requirements as further set forth in this Agreement and the attached exhibits.

G. Consultant desires to perform and assume responsibility for the provision of certain on-call services for the TDM program. Services shall be provided for the Commission or for the benefit of SBCTA, as directed, on the terms and conditions set forth in this Agreement and in the task order(s) to be solicited, awarded and authorized by Commission as further described in this Agreement ("Task Order"). Consultant represents that it is experienced in providing such services to public clients, is licensed in the State of California (if necessary), and is familiar with the plans of the Commission.

H. Commission desires to engage Consultant to render such services on an on-call basis. Services shall be ordered by Task Order(s) to be issued pursuant to this Agreement for future projects as set forth herein and in each Task Order (each such project shall be designated a "Project" under this Agreement).

Terms.

1. General Scope of Services. Consultant shall furnish all technical and professional services, including labor, material, equipment, transportation, supervision and expertise, and incidental and customary work necessary to fully and adequately supply the on-call TDM program related services for the Projects ("Services"). The Services are generally described in Exhibit "A" attached hereto and incorporated herein by reference. The Services shall be more particularly described in the individual Task Orders issued by the Commission's Executive Director or designee. No Services shall be performed unless authorized by a Task Order. All Services shall be subject to, and performed in accordance with, this Agreement, the relevant Task Order, the exhibits attached hereto and incorporated herein by reference, and all applicable local, state and federal laws, rules and regulations.

2. Task Orders; Commencement of Services; Schedule of Services. Services under this Agreement shall be requested by the Commission pursuant to Task Order requests. If Commission accepts Consultant's Task Order proposal, Commission shall issue a purchase order or executed task order for the Services ("Commission's Task Order Authorization"). Consultant's agreement to the final terms of a proposed Task Order, Commission's Task Order Authorization and Consultant's commencement of the Services shall indicate the Parties' agreement to the terms of the relevant Task Order.

DRAFT

Consultant shall commence Services under a Task Order within five (5) days of receiving Commission's Task Order Authorization, or as otherwise specified in the Task Order request.

Consultant shall perform the Services expeditiously, in accordance with any schedule for the Services set forth in a Task Order ("Schedule of Services"). Consultant represents that it has the professional and technical personnel required to perform the Services in conformance with such conditions. In order to facilitate Consultant's conformance with the Schedule, Commission shall respond to Consultant's submittals in a timely manner. Upon request of the Commission, Consultant shall provide a more detailed schedule of anticipated performance to meet the Schedule of Services.

Task Orders may not be used to amend the language (or the terms) of this Agreement or to exceed the scope of work under this Agreement.

3. Pre-Award Audit. As a result of the funding for this Project, and to the extent Caltrans procedures apply in connection therewith, issuance of a "Notice to Proceed" or other authorization to proceed under a Task Order may be contingent upon completion and approval of a pre-award audit. Any questions raised during the pre-award audit shall be resolved before Services are commenced under a Task Order. The funding provided under this Agreement is contingent on meeting all funding requirements and could be withdrawn, thereby entitling the Commission to terminate this Agreement, if the procedures are not completed. The Consultant's files shall be maintained in a manner to facilitate State process reviews. In addition, Caltrans may require that prior to performance of any work for which funding reimbursement through Caltrans is requested and provided, that Caltrans must give to Commission an "Authorization to Proceed".

4. Audit Procedures.

4.1 Consultant and certain subconsultant contracts, including cost proposals and ICR, are subject to audits or reviews such as, but not limited to, a contract audit, an incurred cost audit, an Independent Cost Review (ICR) Audit, or a CPA ICR audit work paper review. If selected for audit or review, this Agreement, Consultant's cost proposal and ICR and related work papers, if applicable, will be reviewed to verify compliance with 48 CFR, Part 31 and other related laws and regulations. In the instances of a CPA ICR audit work paper review it is Consultant's responsibility to ensure federal, state, or local government officials are allowed full access to the CPA's work papers including making copies as necessary. This Agreement, Consultant's cost proposal, and ICR shall be adjusted by Consultant and approved by the Commission's contract manager to conform to the audit or review recommendations. Consultant agrees that individual terms of costs identified in the audit report shall be incorporated into this Agreement by this reference if directed by Commission at its sole discretion. Refusal by Consultant to incorporate audit or review recommendations, or to ensure that the federal, state or local governments have access to CPA work papers, will be considered a breach of the Agreement terms and cause for termination of this Agreement and disallowance of prior reimbursed costs. Additional audit provisions applicable to this Agreement are set forth in Sections 22 and 23 of this Agreement.

Section 4.2 and 4.3 shall apply to the extent applicable to the Task Order and funding source.

4.3 If Caltrans is unable to issue a cognizant letter per Section 4.2 above, Caltrans may require Consultant to submit a revised independent CPA-audited ICR and audit report within three (3) months of the effective date of the Caltrans' management letter. Caltrans will then have up to six (6) months to review the Consultant's and/or the independent CPA's revisions.

If the Consultant fails to comply with the provisions of this Section 4, or if Caltrans is still unable to issue a cognizant approval letter after the revised independent CPA audited ICR is submitted, overhead cost reimbursement will be limited to the accepted ICR that was established upon initial rejection of the ICR and set forth in Section 4.2 above for all rendered services. In this event, this accepted ICR will become the actual and final ICR for reimbursement purposes under this Agreement.

Consultant may submit to Commission final invoice only when all of the following items have occurred: (1) Caltrans accepts or adjusts the original or revised independent CPA audited ICR; (2) all work under this Agreement has been completed to the satisfaction of Commission; and, (3) Caltrans has issued its final ICR review letter. The Consultant must submit its final invoice to Commission no later than sixty (60) calendar days after occurrence of the last of these items. In addition, such insurance shall not contain any special limitations on the scope of protection afforded to the Commission, SBCTA, their directors, officials, officers, employees and agents. All policies shall waive any right of subrogation of the insurer against the Commission, SBCTA, their directors, officials, officers, employees and agents, or any other additional insureds, or shall specifically allow Consultant or others providing insurance evidence in compliance with these specifications to waive their right of recovery prior to a loss. Consultant hereby waives its own right of recovery against Commission, SBCTA, their directors, officials, officers, employees, and agents, and shall require similar written express waivers and insurance clauses from each of its subcontractors.

APPENDIX A

Statement of Services

On-Call Transportation Demand Management Services

The Riverside County Transportation Commission (RCTC) seeks to identify and select a bench of qualified consultants that demonstrate the experience, knowledge, and capacity to provide planning, design, evaluation, implementation, marketing, communications, and outreach services in support of Transportation Demand Management (TDM) strategies. Successful consultants will provide innovative and cost-effective solutions that reduce single-occupancy vehicle trips, manage travel demand, and improve mobility for Riverside and San Bernardino County residents, as well as for the regional employers that Inland Empire residents commute to. The selected consultants shall provide services on an on-call basis to support a wide variety of TDM projects, programs, and initiatives.

RCTC, in partnership with the San Bernardino County Transportation Authority (SBCTA), administers the IE Commuter program, which serves as the region's flagship TDM program. Consultants may be called upon to support special projects or projects identified through a Strategic TDM Study to be conducted in 2026, which will provide a blueprint for future program direction. Consultants may also support IE Commuter operations and related activities, including development of a transit training program, expansion of services and outreach to discretionary trip markets, targeted outreach efforts; and preparation for regional travel demands associated with events such as the 2028 Olympic Games.

Requirements and Contract Information

As an on-call consultant for the Commission, the consultant shall respond within 72 hours to Task Order requests for projects, programs, or services. The response shall include a summary work plan, labor fees, and direct costs for the requested Task Order. Commission staff will review Task Order responses and select the consultant who best meets the requirements of the Task Order. The Commission is not bound to execute a Task Order and reserves the right to negotiate fees with the consultant.

The Commission intends to award an agreement to a bench of eight consultants and strongly encourages firms to seek the services of subcontractors that can help deliver specialized skillsets, such as analysis, technical services, and public engagement. If two or more firms, persons, or entities wish to submit one proposal in response to this RFP, they should do so on a prime/subconsultant basis rather than as a joint venture.

The proposed initial term of the agreement shall be three years with one two-year option term to extend the agreement up to five years. Option terms will be executed at RCTC's sole discretion.

The consultant shall comply with all relevant disclosure requirements and maintain the highest ethical standards both publicly and privately, including the avoidance of conflicts of interest. Participation of small, disadvantaged, and DBE-certified businesses is encouraged.

Table 1: Potential* Projects, Programs, and Initiatives

- **Transit Trainer Program – Worksite Travel Training**
  Develop a worksite-based program to convert existing riders into volunteer transit trainers who guide new riders (colleagues at their own or adjacent worksites) in person through one or more transit trips until they can ride independently.
- **Transit Trainer Program – Discretionary/Leisure Travel Training**
  Provide training and support for individuals to use transit for non-work trips, such as shopping, recreation, and personal errands.
- **New Survey Incentive Development (RidesharePlus 2.0)**

The program would offer incentives for commuters, regardless of mode status, to share insights on motivations and evolving trends influencing mode-shift decisions.
- **Virtual Park & Ride Concept**
  Explore concept of leveraging secure, underutilized commercial or municipal parking to create discrete carpool/vanpool spaces instead of large lots that can attract theft, with users locating and reserving spaces through a mobile app.
- **RCTC VanClub Funding & Administration Exploration**

14. Termination for Convenience

DRAFT

RCTC may terminate the Agreement for convenience in accordance with the terms of the Agreement.

After such termination, the Consultant shall submit a final termination settlement proposal to RCTC as directed. If the Consultant fails to submit a proposal within the time allowed, RCTC may determine, on the basis of information available, the amount, if any due the Consultant because of the termination and shall pay the amount determined. After the Consultant's proposal is received, RCTC and Consultant shall negotiate a fair and equitable settlement and the contract will be modified to reflect the negotiated agreement. If agreement cannot be reached, RCTC may issue a final determination and pay the amount determined. If the Consultant does not agree with this final determination or the determination resulting from the lack of timely submission of a proposal, the Consultant may appeal under the Disputes clause.

15. Administrative and Contractual Remedies on Breach; Termination for Cause

a. The Consultant may be declared in breach of this Agreement ("Breach") if the Consultant fails to make delivery of the supplies or to perform the services within the time specified herein or any extension thereof; or if the Consultant fails to perform any of the other provisions of the contract, or so fails to make progress as to endanger performance of this contract in accordance with its terms. In case of any of the foregoing, RCTC shall notify the Consultant of the Breach, and the Consultant shall have a period of ten (10) days (or such longer period as RCTC may authorize in writing) after receipt of notice from RCTC to cure the Breach.

b. RCTC may, by written notice of termination to the Consultant specifying the effective date thereof, terminate the whole or any part of this contract, in the case of a Breach that is not cured within the timeframe set forth in (a) above ("Uncured Breach").

c. If the contract is terminated in whole or in part for an Uncured Breach, RCTC may procure upon such terms and in such manner as RCTC may deem appropriate, supplies or services similar to those so terminated, or may complete the services with its own forces. The Consultant shall be liable to RCTC for any excess costs for such similar supplies or services, and for any other costs incurred by RCTC as a result of the Uncured Breach. The Consultant shall continue the performance of this contract to the extent not terminated under the provisions of this clause.

d. Except with respect to defaults of Subconsultants, the Consultant shall not be liable for any excess costs if the failure to perform the contract arises out of causes beyond the control and without the fault or negligence of the Consultant. If the failure to perform is caused by the default of a Subconsultant, and if such default arises out of causes beyond the control of both the Consultant and the Subconsultant, and without the fault or negligence of either of them, the Consultant shall not be liable for any excess costs for failure to perform, unless the supplies or services to be furnished by the Subconsultant were obtainable from other sources in sufficient time to permit the Consultant to meet the required project completion schedule.

e. Payment for completed services or supplies delivered to and accepted by RCTC shall be at the contract price. RCTC may withhold from amounts otherwise due the Consultant for such completed services or supplies such sum as RCTC determines to be necessary to protect RCTC

against loss because of outstanding liens of claims of former lien holders, or to reimburse RCTC for any other costs related to the Uncured Breach.

f. If, after notice of termination of this contract for cause, it is determined for any reason that an Uncured Breach did not exist, the rights and obligations of the parties shall be the same as if the notice of termination had been issued pursuant to the provisions for termination for convenience of RCTC.

g. The rights and remedies of RCTC provided in this clause shall not be exclusive and are in addition to any other rights and remedies provided by law, equity or under this contract including, but not limited to, the right to specific performance.

h. Notwithstanding the above, RCTC may, without providing an opportunity to cure, terminate the contract in accordance with the timeframe set forth in Section 17 of the contract, if RCTC determines such action is in its best interest based on the nature of the Breach. Such actions shall not limit any of RCTC's remedies set forth above.

16. Disputes

a. Except as otherwise provided in this Agreement, any dispute concerning a question of fact arising under this Agreement which is not disposed of by supplemental agreement shall be decided by RCTC's Deputy Executive Director, who shall reduce the decision to writing and mail or otherwise furnish a copy thereof to the Consultant. The decision of the RCTC Deputy Executive Director shall be final and conclusive unless, within thirty (30) days from the date of receipt of such copy, Consultant mails or otherwise furnishes to the RCTC Deputy Executive Director a written appeal addressed to RCTC's Executive Director. The decision of RCTC Executive Director or duly authorized representative for the determination of such appeals shall be final and conclusive.

b. The provisions of this Paragraph shall not be pleaded in any suit involving a question of fact arising under this Agreement as limiting judicial review of any such decision to cases where fraud by such official or his representative or board is alleged, provided, however, that any such decision shall be final and conclusive unless the same is fraudulent or capricious or arbitrary or so grossly erroneous as necessarily to imply bad faith or is not supported by substantial evidence. In connection with any appeal proceeding under this Paragraph, the Consultant shall be afforded an opportunity to be heard and to offer evidence in support of its appeal.

c. Pending final decision of a dispute hereunder, Consultant shall proceed diligently with the performance of this Agreement and in accordance with the decision of RCTC's Deputy Executive Director. This "Disputes" clause does not preclude consideration of questions of law in connection with decisions provided for above. Nothing in this Agreement, however, shall be construed as making final the decision of any RCTC official or representative on a question of law, which questions shall be settled in accordance with the laws of the State of California.

**PROFESSIONAL SERVICES AGREEMENT
WITH FHWA AND FTA FUNDING ASSISTANCE**

**RIVERSIDE COUNTY TRANSPORTATION COMMISSION
AGREEMENT WITH
STEER DAVIES & GLEAVE, INC.
FOR ON-CALL
TRANSPORTATION DEMAND MANAGEMENT SERVICES**

Parties and Date.

This Agreement is made and entered into this ___ day of _____, 2026, by and between the RIVERSIDE COUNTY TRANSPORTATION COMMISSION ("the Commission") and STEER DAVIES & GLEAVE ("Consultant"), a CORPORATION. The Commission and Consultant are sometimes referred to herein individually as “Party”, and collectively as the “Parties”.

Recitals.

A. On November 8, 1988 the Voters of Riverside County approved Measure A authorizing the collection of a one-half percent (1/2 %) retail transactions and use tax (the "tax") to fund transportation programs and improvements within the County of Riverside, and adopting the Riverside County Transportation Improvement Plan (the "Plan").

B. Pursuant to Public Utility Code Sections 240000 et seq., the Commission is authorized to allocate the proceeds of the Tax in furtherance of the Plan.

C. On November 5, 2002, the voters of Riverside County approved an extension of the Measure A tax for an additional thirty (30) years for the continued funding of transportation and improvements within the County of Riverside.

D. The Commission, in partnership with San Bernardino County Transportation Authority (SBCTA), administers the IE Commuter program, which serves as the region’s flagship Transportation Demand Management (“TDM”) program.

E. The IE Commuter program is seeking innovative and cost-effective solutions that reduce single-occupancy vehicle trips, manage travel demand, and improve mobility for Riverside and San Bernardino County residents, as well as for the regional employers to which Inland Empire residents commute.

F. Consultant shall provide services on an on-call basis to support a wide variety of TDM projects, programs, and initiatives for the benefit of the Commission and SBCTA in implementation of the TDM program.

DRAFT

F. The sources of funding for payment for on-call professional consulting services provided under this Agreement may include the following funding sources:

> Commission Measure A funds, Federal Highway Administration (FHWA), Federal Transit Administration (FTA), state funds through Caltrans, or SBCTA reimbursements (from local or federal funds)

In relation to such funding, Consulant shall execute and submit to the Commission the certification shown in Exhibit "E" attached hereto and incorporated herein by reference. Consultant shall comply with all funding source requirements as further set forth in this Agreement and the attached exhibits.

G. Consultant desires to perform and assume responsibility for the provision of certain on-call services for the TDM program. Services shall be provided for the Commission or for the benefit of SBCTA, as directed, on the terms and conditions set forth in this Agreement and in the task order(s) to be solicited, awarded and authorized by Commission as further described in this Agreement ("Task Order"). Consultant represents that it is experienced in providing such services to public clients, is licensed in the State of California (if necessary), and is familiar with the plans of the Commission.

H. Commission desires to engage Consultant to render such services on an on-call basis. Services shall be ordered by Task Order(s) to be issued pursuant to this Agreement for future projects as set forth herein and in each Task Order (each such project shall be designated a "Project" under this Agreement).

Terms.

1. General Scope of Services. Consultant shall furnish all technical and professional services, including labor, material, equipment, transportation, supervision and expertise, and incidental and customary work necessary to fully and adequately supply the on-call TDM program related services for the Projects ("Services"). The Services are generally described in Exhibit "A" attached hereto and incorporated herein by reference. The Services shall be more particularly described in the individual Task Orders issued by the Commission's Executive Director or designee. No Services shall be performed unless authorized by a Task Order. All Services shall be subject to, and performed in accordance with, this Agreement, the relevant Task Order, the exhibits attached hereto and incorporated herein by reference, and all applicable local, state and federal laws, rules and regulations.

2. Task Orders; Commencement of Services; Schedule of Services. Services under this Agreement shall be requested by the Commission pursuant to Task Order requests. If Commission accepts Consultant's Task Order proposal, Commission shall issue a purchase order or executed task order for the Services ("Commission's Task Order Authorization"). Consultant's agreement to the final terms of a proposed Task Order, Commission's Task Order Authorization and Consultant's commencement of the Services shall indicate the Parties' agreement to the terms of the relevant Task Order.

DRAFT

Consultant shall commence Services under a Task Order within five (5) days of receiving Commission's Task Order Authorization, or as otherwise specified in the Task Order request.

Consultant shall perform the Services expeditiously, in accordance with any schedule for the Services set forth in a Task Order ("Schedule of Services"). Consultant represents that it has the professional and technical personnel required to perform the Services in conformance with such conditions. In order to facilitate Consultant's conformance with the Schedule, Commission shall respond to Consultant's submittals in a timely manner. Upon request of the Commission, Consultant shall provide a more detailed schedule of anticipated performance to meet the Schedule of Services.

Task Orders may not be used to amend the language (or the terms) of this Agreement or to exceed the scope of work under this Agreement.

3. Pre-Award Audit. As a result of the funding for this Project, and to the extent Caltrans procedures apply in connection therewith, issuance of a "Notice to Proceed" or other authorization to proceed under a Task Order may be contingent upon completion and approval of a pre-award audit. Any questions raised during the pre-award audit shall be resolved before Services are commenced under a Task Order. The funding provided under this Agreement is contingent on meeting all funding requirements and could be withdrawn, thereby entitling the Commission to terminate this Agreement, if the procedures are not completed. The Consultant's files shall be maintained in a manner to facilitate State process reviews. In addition, Caltrans may require that prior to performance of any work for which funding reimbursement through Caltrans is requested and provided, that Caltrans must give to Commission an "Authorization to Proceed".

4. Audit Procedures.

4.1 Consultant and certain subconsultant contracts, including cost proposals and ICR, are subject to audits or reviews such as, but not limited to, a contract audit, an incurred cost audit, an Independent Cost Review (ICR) Audit, or a CPA ICR audit work paper review. If selected for audit or review, this Agreement, Consultant's cost proposal and ICR and related work papers, if applicable, will be reviewed to verify compliance with 48 CFR, Part 31 and other related laws and regulations. In the instances of a CPA ICR audit work paper review it is Consultant's responsibility to ensure federal, state, or local government officials are allowed full access to the CPA's work papers including making copies as necessary. This Agreement, Consultant's cost proposal, and ICR shall be adjusted by Consultant and approved by the Commission's contract manager to conform to the audit or review recommendations. Consultant agrees that individual terms of costs identified in the audit report shall be incorporated into this Agreement by this reference if directed by Commission at its sole discretion. Refusal by Consultant to incorporate audit or review recommendations, or to ensure that the federal, state or local governments have access to CPA work papers, will be considered a breach of the Agreement terms and cause for termination of this Agreement and disallowance of prior reimbursed costs. Additional audit provisions applicable to this Agreement are set forth in Sections 22 and 23 of this Agreement.

DRAFT

Section 4.2 and 4.3 shall apply to the extent applicable to the Task Order and funding source.

4.2 During any Caltrans' review of the ICR audit work papers created by the Consultant's independent CPA (which may include review by the Independent Office of Audits and Investigations), Caltrans will work with the CPA and/or Consultant toward a resolution of issues that arise during the review. Each party agrees to use its best efforts to resolve any audit disputes in a timely manner. If Caltrans identifies significant issues during the review and is unable to issue a cognizant approval letter, Commission will reimburse the Consultant at an accepted ICR until a FAR (Federal Acquisition Regulation) compliant ICR {e.g. 48 CFR Part 31; GAGAS (Generally Accepted Auditing Standards); CAS (Cost Accounting Standards), if applicable; in accordance with procedures and guidelines of the American Association of State Highways and Transportation Officials (AASHTO) Audit Guide; and other applicable procedures and guidelines is received and approved by Caltrans.

4.3 If Caltrans is unable to issue a cognizant letter per Section 4.2 above, Caltrans may require Consultant to submit a revised independent CPA-audited ICR and audit report within three (3) months of the effective date of the Caltrans' management letter. Caltrans will then have up to six (6) months to review the Consultant's and/or the independent CPA's revisions.

If the Consultant fails to comply with the provisions of this Section 4, or if Caltrans is still unable to issue a cognizant approval letter after the revised independent CPA audited ICR is submitted, overhead cost reimbursement will be limited to the accepted ICR that was established upon initial rejection of the ICR and set forth in Section 4.2 above for all rendered services. In this event, this accepted ICR will become the actual and final ICR for reimbursement purposes under this Agreement.

Consultant may submit to Commission final invoice only when all of the following items have occurred: (1) Caltrans accepts or adjusts the original or revised independent CPA audited ICR; (2) all work under this Agreement has been completed to the satisfaction of Commission; and, (3) Caltrans has issued its final ICR review letter. Statement of Services

On-Call Transportation Demand Management Services

The Riverside County Transportation Commission (RCTC) seeks to identify and select a bench of qualified consultants that demonstrate the experience, knowledge, and capacity to provide planning, design, evaluation, implementation, marketing, communications, and outreach services in support of Transportation Demand Management (TDM) strategies. Successful consultants will provide innovative and cost-effective solutions that reduce single-occupancy vehicle trips, manage travel demand, and improve mobility for Riverside and San Bernardino County residents, as well as for the regional employers that Inland Empire residents commute to. The selected consultants shall provide services on an on-call basis to support a wide variety of TDM projects, programs, and initiatives.

RCTC, in partnership with the San Bernardino County Transportation Authority (SBCTA), administers the IE Commuter program, which serves as the region's flagship TDM program. Consultants may be called upon to support special projects or projects identified through a Strategic TDM Study to be conducted in 2026, which will provide a blueprint for future program direction. Consultants may also support IE Commuter operations and related activities, including development of a transit training program, expansion of services and outreach to discretionary trip markets, targeted outreach efforts; and preparation for regional travel demands associated with events such as the 2028 Olympic Games.

Requirements and Contract Information

If two or more firms, persons, or entities wish to submit one proposal in response to this RFP, they should do so on a prime/subconsultant basis rather than as a joint venture.

The proposed initial term of the agreement shall be three years with one two-year option term to extend the agreement up to five years. Option terms will be executed at RCTC's sole discretion.

The consultant shall comply with all relevant disclosure requirements and maintain the highest ethical standards both publicly and privately, including the avoidance of conflicts of interest. Participation of small, disadvantaged, and DBE-certified businesses is encouraged.

Table 1: Potential* Projects, Programs, and Initiatives

- **Transit Trainer Program – Worksite Travel Training**
  Develop a worksite-based program to convert existing riders into volunteer transit trainers who guide new riders (colleagues at their own or adjacent worksites) in person through one or more transit trips until they can ride independently.
- **Transit Trainer Program – Discretionary/Leisure Travel Training**
  Provide training and support for individuals to use transit for non-work trips, such as shopping, recreation, and personal errands.

If agreement cannot be reached, RCTC may issue a final determination and pay the amount determined. If the Consultant does not agree with this final determination or the determination resulting from the lack of timely submission of a proposal, the Consultant may appeal under the Disputes clause.

15. Administrative and Contractual Remedies on Breach; Termination for Cause

a. The Consultant may be declared in breach of this Agreement ("Breach") if the Consultant fails to make delivery of the supplies or to perform the services within the time specified herein or any extension thereof; or if the Consultant fails to perform any of the other provisions of the contract, or so fails to make progress as to endanger performance of this contract in accordance with its terms. In case of any of the foregoing, RCTC shall notify the Consultant of the Breach, and the Consultant shall have a period of ten (10) days (or such longer period as RCTC may authorize in writing) after receipt of notice from RCTC to cure the Breach.

b. RCTC may, by written notice of termination to the Consultant specifying the effective date thereof, terminate the whole or any part of this contract, in the case of a Breach that is not cured within the timeframe set forth in (a) above ("Uncured Breach").

c. If the contract is terminated in whole or in part for an Uncured Breach, RCTC may procure upon such terms and in such manner as RCTC may deem appropriate, supplies or services similar to those so terminated, or may complete the services with its own forces. The Consultant shall be liable to RCTC for any excess costs for such similar supplies or services, and for any other costs incurred by RCTC as a result of the Uncured Breach. The Consultant shall continue the performance of this contract to the extent not terminated under the provisions of this clause.

d. Except with respect to defaults of Subconsultants, the Consultant shall not be liable for any excess costs if the failure to perform the contract arises out of causes beyond the control and without the fault or negligence of the Consultant. If the failure to perform is caused by the default of a Subconsultant, and if such default arises out of causes beyond the control of both the Consultant and the Subconsultant, and without the fault or negligence of either of them, the Consultant shall not be liable for any excess costs for failure to perform, unless the supplies or services to be furnished by the Subconsultant were obtainable from other sources in sufficient time to permit the Consultant to meet the required project completion schedule.

e. Payment for completed services or supplies delivered to and accepted by RCTC shall be at the contract price. RCTC may withhold from amounts otherwise due the Consultant for such completed services or supplies such sum as RCTC determines to be necessary to protect RCTC

f. If, after notice of termination of this contract for cause, it is determined for any reason that an Uncured Breach did not exist, the rights and obligations of the parties shall be the same as if the notice of termination had been issued pursuant to the provisions for termination for convenience of RCTC.

g. The rights and remedies of RCTC provided in this clause shall not be exclusive and are in addition to any other rights and remedies provided by law, equity or under this contract including, but not limited to, the right to specific performance.

h. Notwithstanding the above, RCTC may, without providing an opportunity to cure, terminate the contract in accordance with the timeframe set forth in Section 17 of the contract, if RCTC determines such action is in its best interest based on the nature of the Breach. Such actions shall not limit any of RCTC's remedies set forth above.

The decision of the RCTC Deputy Executive Director shall be final and conclusive unless, within thirty (30) days from the date of receipt of such copy, Consultant mails or otherwise furnishes to the RCTC Deputy Executive Director a written appeal addressed to RCTC's Executive Director. The decision of RCTC Executive Director or duly authorized representative for the determination of such appeals shall be final and conclusive.

b. The provisions of this Paragraph shall not be pleaded in any suit involving a question of fact arising under this Agreement as limiting judicial review of any such decision to cases where fraud by such official or his representative or board is alleged, provided, however, that any such decision shall be final and conclusive unless the same is fraudulent or capricious or arbitrary or so grossly erroneous as necessarily to imply bad faith or is not supported by substantial evidence. In connection with any appeal proceeding under this Paragraph, the Consultant shall be afforded an opportunity to be heard and to offer evidence in support of its appeal.

c. Pending final decision of a dispute hereunder, Consultant shall proceed diligently with the performance of this Agreement and in accordance with the decision of RCTC's Deputy Executive Director. This "Disputes" clause does not preclude consideration of questions of law in connection with decisions provided for above. Nothing in this Agreement, however, shall be construed as making final the decision of any RCTC official or representative on a question of law, which questions shall be settled in accordance with the laws of the State of California.

AGENDA ITEM 9

RIVERSIDE COUNTY TRANSPORTATION COMMISSION	
DATE:	March 23, 2026
TO:	Budget and Implementation Committee
FROM:	Hanan Sawalha, Senior Management Analyst
THROUGH:	Brian Cunanan, Commuter & Motorist Assistance Manager
SUBJECT:	Amendment No. 1 with Los Angeles County Service Authority for Freeway Emergencies, for Regional SoCal 511 Traveler Information Services

STAFF RECOMMENDATION:

This item is for the Committee to recommend the Commission take the following action(s):

1) Approve Amendment No. 1 to Agreement No. 21-45-022-00, between the Los Angeles County Service Authority for Freeway Emergencies (LA SAFE), San Bernardino County Transportation Authority (SBCTA), and the Commission for continued Southern California's 511 traveler information system services, for a sixty-two month term, for an additional amount of $940,731, and a total amount not to exceed $1,831,237; and
2) Authorize the Chair or Executive Director, pursuant to legal counsel review, to execute the agreements on behalf of the Commission.

BACKGROUND INFORMATION:

In 2000, the Federal Communications Commission designated 511 as the national traveler information telephone number. Since 2010, the Commission has supported regional 511 traveler information services, initially through the Inland Empire 511 (IE511) system in partnership with SBCTA.

In 2022, the Commission entered into Agreement No. 21-45-022-00 with LA SAFE and SBCTA to consolidate IE511 into the Southern California 511 (SoCal 511) regional platform, a five-county partnership that includes Orange County and Ventura. The integration was completed effective May 1, 2022, providing travelers in Riverside and San Bernardino counties access to a unified, multi-county traveler information system.

The current agreement is approaching the end of its initial term. The SoCal 511 partners wish to continue the partnership to provide a regional platform for motorists and are seeking to amend the agreement to extend its term and formalize the cost structure for continued regional operations.

DISCUSSION:

The first amendment extends the agreement term through June 30, 2031, ensuring continuity of regional 511 traveler information services and avoiding disruption to the traveling public.

During the extended term, operations and maintenance costs will increase by three percent annually. This escalation reflects standard cost adjustment practices and anticipated increases in vendor services necessary to maintain and enhance the SoCal 511 platform. For the extended service period (May 1, 2026 through June 30, 2031), the Commission's total share is $940,731.

Additionally, the Los Angeles County Metropolitan Transportation Authority (LA Metro), through LA SAFE, is currently conducting a request for proposals (RFP) to modernize the SoCal 511 website, telephone service, and mobile application. The modernization effort is intended to enhance system functionality, improve user experience, and ensure the platform remains responsive to evolving technology standards and traveler expectations.

The partner agencies will be involved in the evaluation of proposals for the modernization of services and will share the associated costs. Once the RFP process is complete and costs are finalized, the Commission's share of those costs will be brought forward in a future amendment for Commission consideration and approval.

Approval of the current amendment will ensure uninterrupted service delivery, provide long-term operational certainty, and support continued regional coordination of traveler information services.

FISCAL IMPACT

SAFE funds have been allocated in the Fiscal Year 2026/27 budget for these services and will also be included in future fiscal years through the term of the agreement.

AGENDA ITEM 10

RIVERSIDE COUNTY TRANSPORTATION COMMISSION	
DATE:	March 23, 2026
TO:	Budget and Implementation Commission
FROM:	Hanan Sawalha, Senior Management Analyst
THROUGH:	Brian Cunanan, Commuter & Motorist Assistance Manager
SUBJECT:	Mobility Services Update (July–December 2025)

STAFF RECOMMENDATION:

This item is for the Committee to recommend the Commission take the following action(s):

1) Receive and file the Mobility Services Update for July through December 2025.

BACKGROUND:

RCTC's Mobility Services programs offer a variety of services that make everyday travel easier for Riverside County residents by expanding transportation options and access, enhancing highway safety and incident response, and contributing to cleaner, healthier communities. Together, the Commuter Assistance and Motorist Assistance programs provide practical support before and during a trip. They not only help residents navigate their daily travel, but also ensure the region gets the most out of its transportation infrastructure and transit network.

This update provides the Commission with a high-level summary of Commuter Assistance and Motorist Assistance activities, performance trends, and key initiatives underway during the reporting period. The update is informational and is intended to support transparency, accountability, and strategic oversight of RCTC's Mobility Services portfolio.

Commuter Assistance (Transportation Demand Management)

The Commuter Assistance Program (CAP), also known as Transportation Demand Management (TDM), improves mobility and reduces congestion by encouraging more efficient use of the transportation system. TDM focuses on reducing drive-alone travel by expanding access to sustainable transportation alternatives, including bus and rail transit, carpools and vanpools, active transportation, and telework.

CAP delivers these strategies through three core TDM programs, IE Commuter, VanClub, and Park & Ride, and has expanded engagement beyond work-based trips through the launch of Experience Metrolink, a free rail pass program that encourages residents to try rail for any trip purpose.

- **IE Commuter:** In partnership with San Bernardino County Transportation Authority, IE Commuter supports nearly 2,700 regional worksites with tools, rideshare incentives, and hands-on assistance to help deploy employee rideshare programs, including support for large, regulated employers in meeting regional air-quality compliance requirements. During the July to December 2025 period, employer partners reduced 1.8 million vehicle trips, avoided 32.3 million vehicle miles, and cut 13,102 tons of emissions.

- **VanClub:** VanClub supports shared commuting by reimbursing vanpools commuting to Riverside County worksites up to $600 per month, and as a member of CalVans helped agricultural workers access reliable transportation. During the July to December 2025 period, VanClub ended with 60 vanpools, eliminating 58,693 vehicle trips, avoiding over 3 million vehicle miles, and reducing 1,146 tons of emissions.

- **Park & Ride**: Park & Ride facilities help residents access carpools, vanpools, and transit. In total, there are 2,821 Park & Ride spaces in Riverside County, including 534 leased spaces across eight locations made available through RCTC's Park & Ride lease program, in partnership with Caltrans.

- **Experience Metrolink – Free Rail Pass Program (New)**: Launched in 2025 with LCTOP funding, Experience Metrolink offers residents up to 90 days of free Metrolink travel and has already reached 6,800 participants, helping residents try rail for work, school, recreation, and other everyday trips. During the July to December 2025 period, it is estimated that this program helped eliminate 38,300 vehicle trips, reduce 3.4 million vehicle miles, and reduce 1,407 tons of emissions.

Motorist Assistance

The Commission's Motorist Assistance programs focus on keeping Riverside County's highway system moving by supporting stranded motorists, improving incident response, and providing timely travel information. Together, these services help reduce secondary collisions, minimize congestion impacts, and support more efficient use of the region's transportation infrastructure.

As the Service Authority for Freeway Emergencies (SAFE), RCTC delivers motorist assistance through two core programs: the Freeway Service Patrol (FSP) and SoCal 511 Traveler Information Services (SoCal 511). In addition, RCTC is advancing a Next Generation Motorist Aid Study to guide future modernization efforts.

- **Freeway Service Patrol (FSP):** FSP provides free roadside assistance to stranded motorists on the region's most heavily traveled freeways during peak periods, including jumpstarts, tire changes, fuel and tows, at no cost to the driver. FSP is also deployed to support traffic flow during major events and in active construction zones. During the July to December 2025 period, FSP delivered 30,043 assists across 130 centerline miles of general-purpose roadway. A total of 1,368 assists were made on toll segments.

Surveys were distributed to all motorists assisted. A total of 242 survey responses were submitted via the online survey website and phone service. Below are a few standout responses:

"*The absolute BEST. I've never had a flat and could not have gotten to my spare (no training). He was patient and kind and even instructed me on what to do (although he did all the work). He was PROFESSIONAL, fast, friendly, kind and just WONDERFUL!"* - Chris P.

"*He was very helpful and professional and provided service with a smile and made sure I was kept safe by asking me to remain inside my car since we were on the freeway. I had no idea the freeway service patrol existed! The guy was very helpful and calm and got my tire changed in 5 min...I was worried about being late to pick up my son from day care and I had no one to pick him up! He was a God send!"* - Melissa A.

"*He was straight to the point, he knew were in an unsafe location and could see we had a frustrated toddler. He was very helpful and professional. I was so relieved he was there to help us get to a safer location, I was really scared of getting rear ended or clipped and getting injured.*" - Nancy C.

- **SoCal 511 Traveler Information Services (SoCal 511)**: The SoCal 511 system provides free, multilingual, real-time traffic, transit, and commuter information via SoCal511.com, the 511 phone line, and the mobile application. During July to December 2025, the service supported 543,720 webpage views, with a total of 204,359 web users. The mobile application saw a total of 31,103 users. There was a total of 27,594 calls from Inland Empire users to the phone line.

Future Mobility Services Initiatives

To ensure RCTC's Mobility Services continue to meet evolving travel needs and maximize the value of existing transportation investments, the Commission is advancing several forward-looking initiatives focused on program modernization, data-driven decision-making, and customer experience. Together, these efforts will help position Commuter Assistance and Motorist Assistance programs to remain effective, scalable, and responsive, while supporting long-term mobility, safety, and system performance goals.

- **Next Generation Motorist Aid Study:** This study is underway and will examine traffic patterns, incident trends, and emerging technologies to guide the modernization and optimization of motorist assistance services.
- **Next Generation Strategic TDM Plan:** This TDM-focused study will analyze travel patterns across all trip markets and result in a data-driven blueprint for RCTC's evolving commuter assistance programs;

- **Transit Trainer Program Pilot:** Hands-on support to help new riders learn to navigate transit systems, complementing Experience Metrolink and reducing barriers to transit use.
- **SoCal 511 Modernization:** In partnership with Metro, this effort will modernize the SoCal 511 website, IVR, and mobile application ahead of the 2028 Olympic Games.

Collectively, RCTC's Mobility Services help residents move through Riverside County more easily by reducing congestion, improving air quality, and expanding affordable travel options people can rely on today. These programs strengthen the region's economy by supporting access to jobs and essential services. They keep drivers safe through modern roadside assistance and emergency response. Together, these efforts create a safer, more dependable, and more sustainable transportation system. A system that maximizes the value of existing infrastructure and enhances the performance of the region's transit network.
