

## **Questions and Answers for I-15 and Cajalco Rd. Excess Land**

- **Completion date for road construction?** Estimated completion is October 2019 <https://www.coronaca.gov/government/departments-divisions/public-works/construction-projects/i-15-cajalco-interchange>
- **Can there be a right in right out along Cajalco Road?** Contact the City of Corona Department of Public Works at 951-736-2266 and Caltrans District 8 at 909-383-4631. Currently, the parcel does not have access from Cajalco Road as Caltrans has access control, as shown in the attached exhibit. Additionally, RCTC is working with the City of Corona and neighboring developer on an access easement connecting the property to the extension of Bedford Canyon Road.
- **Can title provide plotted utility easements?** The current title report is over a year old which requires a new PTR for the title company to prepare plotted easements. Given the timeframe, plotted easements will not be provided at this time.
