

## State Route 91 CORRIDOR OPERATIONS PROJECT

# Construction Update: Week of November 23, 2020

## Crews begin work on Green River Road

Construction of the 91 Corridor Operations Project will require temporary changes to traffic flow on a portion of Green River Road near the Santa Ana Trail parking lot. Green River Road will be reduced to a single lane with signal lights on both ends to note traffic flow. Crews will place k-rail to protect the public and construction workers. A designated 8 foot lane for bicyclist will be constructed to allow riders to pass through the construction area safely. In addition, crews will begin removing asphalt along Green River Road. This work may be noisy but will be completed between 7 a.m. and 3:30 p.m.

## Reminder

# Temporary Closure: Parking Lot at Green River Road Santa Ana River Trailhead

Project construction will require a temporary closure of the parking lot at the Santa Ana River Trailhead at Green River Road. The parking lot will be closed from November 19 to summer 2021 for the safety of trail users and construction crews. The SART will remain open during construction, and access to the trail will be provided, although some traffic control measures will be in place. During the parking lot closure, trail users may park on the top level of the outdoor parking lot at 4740 Green River Road. Do not park at the Green River Golf Club; parking is for club patrons only.

construction crews**

## Project Overview

The Riverside County Transportation Commission, in partnership with Caltrans, the Orange County Transportation Authority, the Transportation Corridor Agencies, and the City of Corona, is building the 91 Corridor Operations Project. The project will add a lane to westbound 91 for approximately two miles between the Green River Road on-ramp and the southbound 241 connector. The new lane, which will be built next to the outer shoulder, will help relieve westbound traffic congestion through this heavily traveled corridor and is expected to open in late 2021.

Please stay connected through construction updates, follow @therctc on social media, and watch for lane closures, narrower lanes, construction crews and equipment, and changing conditions on the 91 and Green River Road. Noisy work also may be required.
