## Construction Update: Weeks of February 22 & March 1, 2021

# Nighttime Closures Resumed

We apologize for the confusion. The previously announced canceled closures are resuming for the night of February 24 and possibly the night of February 25 if needed.

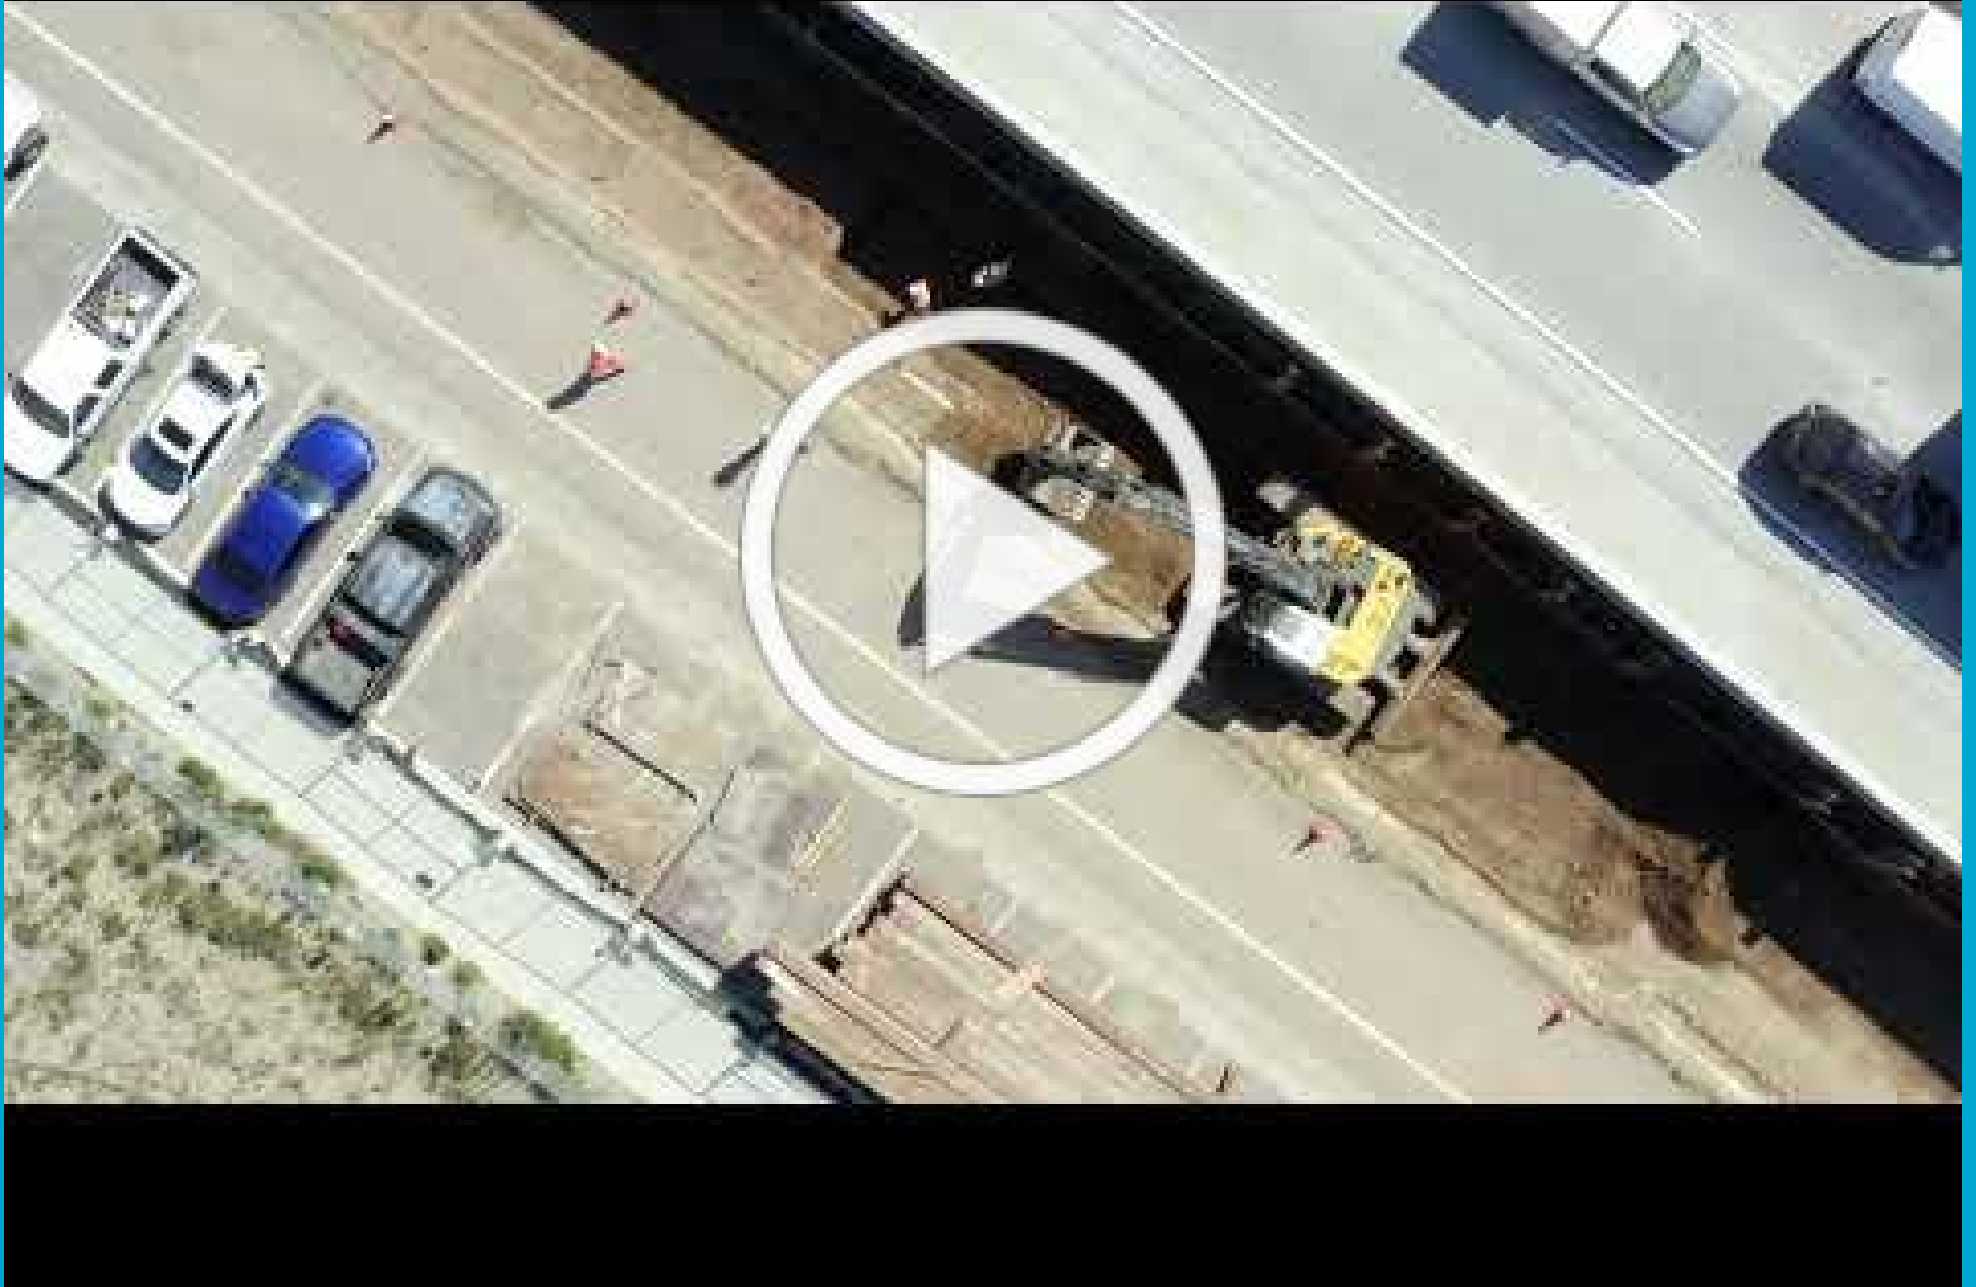

No closures have been scheduled for the week of March 1, 2021.

Construction activity is subject to change. Please watch for updates and follow [@therctc](#) on social media.

Anticipated Dates	Activity	Location	Closure Times
February 24-25, 2021, Nightly	Closure of westbound 91, Lanes #3, #4, and #5	Green River Rd. to 241 Toll Road	9 p.m - 4 a.m.

## Weekly View from Above

## Reminder

### **Temporary Relocation:** Parking Lot at Green River Road Santa Ana River Trailhead

[View PDF](#)

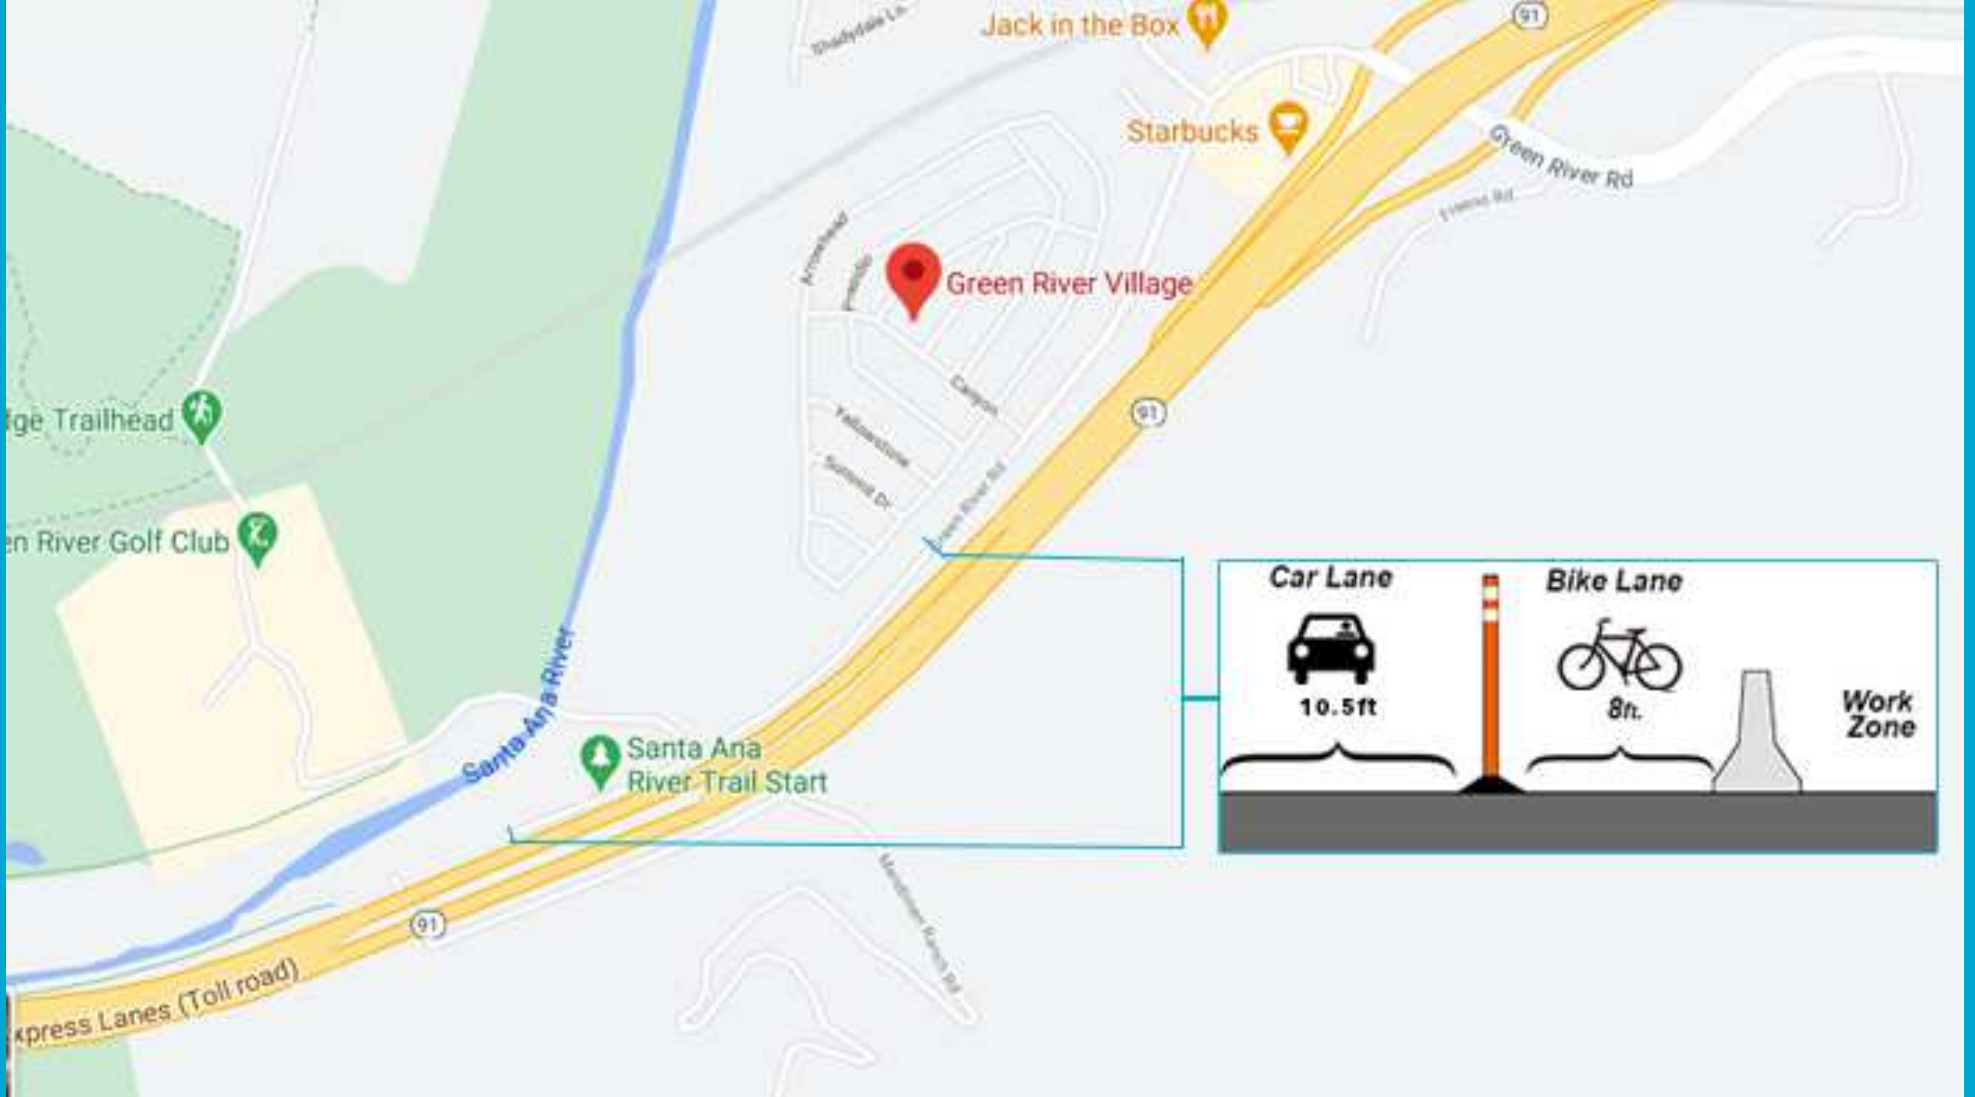

The parking lot at the Santa Ana River Trailhead at Green River Road is closed through summer 2021 for the safety of trail users and construction crews. The SART will remain open during construction, and access to the trail will be provided (see below). During the parking lot closure, trail users may park on the top level of the outdoor parking lot at 4740 Green River Road. **Do not park at the Green River Golf Club; parking is for club patrons only. If you are seen parking at the golf course to use the SART your vehicle could be towed.**

## Please Follow Traffic Signals

Some motorists have been ignoring the temporary signals at Green River Road and running the red light. This creates a safety hazard for yourself, other drivers and pedestrians, and our construction crews. Signal times are no longer than two minutes; please be patient and do not put yourself or others in danger.

## Safety Reminder: Stay in designated lane when heading to the SART

A designated 8-foot travel lane is provided for cyclists and pedestrians to pass through the construction area safely. Please stay in this lane when heading to the Santa Ana River Trail.

## Project Overview

The Riverside County Transportation Commission, in partnership with Caltrans, the Orange County Transportation Authority, the Transportation Corridor Agencies, and the City of Corona, is building the 91 Corridor Operations Project. The project will add a lane to westbound 91 for approximately two miles between the Green River Road on-ramp and the southbound 241 connector. The new lane, which will be built next to the outer shoulder, will help relieve westbound traffic congestion through this heavily traveled corridor and is expected to open in late 2021.

Please stay connected through construction updates, follow @therctc on social media, and watch for lane closures, narrower lanes, construction crews and equipment, and changing conditions on the 91 and Green River Road. Noisy work also may be required.

Check out our project overview video!
