Project Overview

The Riverside County Transportation Commission, in partnership with Caltrans, the Orange County Transportation Authority, the Transportation Corridor Agencies, and the City of Corona, is building the 91 Corridor Operations Project. The project will add a lane to westbound 91 for approximately two miles between the Green River Road on-ramp and the southbound 241 connector. The new lane, which will be built next to the outer shoulder, will help relieve westbound traffic congestion through this heavily traveled corridor and is expected to open in late 2021.

Please stay connected through construction updates, follow @therctc on social media, and watch for lane closures, narrower lanes, construction crews and equipment, and changing conditions on the 91 and Green River Road. Noisy work also may be required.
