PROJECT OVERVIEW

The I-15 Interim Corrido Operations Project will add a non-tolled travel lane to southbound I-15 between the Cajalco Road on-ramp and the Weirick Road off-ramp. This new lane is expected to open in late summer/early fall. To add the lane, crews will strengthen the pavement of the outer and inner I-15 shoulders to handle traffic loads for an interim three-year period until RCTC's I-15 Corridor Operations Project can be completed.
