

**91 REFRESH  
PROJECT**

## **CONSTRUCTION UPDATE**

A Project of the Riverside County Transportation Commission

### **SPECIAL ALERT: WESTBOUND 91 LANES HAVE REOPENED IN CORONA**

All lanes on westbound 91 in Corona have reopened following this weekend's full closure. Because of the forecasted rain, the amount of work planned for the weekend was reduced, and crews completed their repaving work and began reopening lanes today at 11:30 a.m.

Crews worked through cold and wet conditions to reopen the lanes, ramps, and connectors. Thank you, residents, businesses, and motorists, for your understanding during this closure.

RCTC will review the remaining repaving work to determine if additional weekend closures will be needed. Please watch for updates.

### **ABOUT THE PROJECT**

The Riverside County Transportation Commission, in partnership with Caltrans, is delivering the 91 Refresh Project. This project will repave lanes and make repairs to sound walls and associated concrete barriers along the outer portions of eastbound and westbound 91 in Corona. Work will take place along the 91, mainly between the Lincoln Avenue Interchange and Interstate 15, an area with a long history of roadway settlement. Temporary lane shifts, weekend full closures, and lane closures will allow crews to safely complete the repaving and repair work. Most of the work is expected to be completed by the end of 2022.
