

CONSTRUCTION UPDATE

Week of June 5, 2023

Nighttime eastbound and westbound 91 Express Lane and ramp closures are scheduled for crews to safely prepare to place a support structure in the 91 median the weekend of June 9 – 12.

See below for weekend closure information.

Daytime pile driving is also scheduled to begin in various locations throughout the project and will last for several weeks. Minimal impacts to the public are anticipated.

Upcoming Weekend Closure

The Riverside County Transportation Commission’s 71/91 Interchange Project will require roadway closures the weekend of June 9-12.

- Nighttime Eastbound 91 Full Closure in Corona
- Weekend Full Closure Eastbound and Westbound 91 Express Lanes in Riverside County
- Nighttime Eastbound 91 Green River Rd. On-Ramp

The southbound 71 connectors to eastbound and westbound 91 will remain open. The eastbound and westbound 91 general purpose lanes will remain open during daytime hours.

The closures will allow crews to safely lift a large support structure in the 91 median, place it in a pre-drilled hole, and pour concrete to form the foundation for one of the support columns for the new interchange. Closure details are below.

The closure dates are subject to change based on site conditions and other factors.

Project Background

The new non-tolled interchange is designed to improve safety, expand access to other modes of travel, reduce greenhouse gas emissions, enhance traffic flow, and support continued movement of native wildlife through the area. Construction is anticipated to be completed in 2025.
