

# CONSTRUCTION UPDATE

**Week of November 20, 2023**

Nighttime eastbound 91 full closures, Express Lanes closures, and ramp closures are scheduled Monday, November 20 and Tuesday, November 21 to allow crews to continue falsework installation over eastbound 91.

Closure details are below. Construction activity and closure schedules are subject to change.

**Nightly eastbound 91 full closures are scheduled to conclude this week. See full closure information below.**

**In observance of the Thanksgiving holiday, no closures will take place from Wednesday morning, November 22 through Monday morning, November 27.**

## Full Eastbound 91 Closures Continue

The Riverside County Transportation Commission’s 71/91 Interchange Project will continue nightly full closures of the eastbound 91 **through Tuesday, November 21, 2023.**

These closures are allowing our crews to safely construct support structures for the new eastbound 91 to northbound 71 connector. Crews are building a 30-foot-tall structure over the 91 and will set more than 200 beams over the eastbound and westbound 91 lanes.

## Neighboring Projects

### 15/91 Express Lanes Connector Project

The Riverside County Transportation Commission 15/91 Express Lanes Connector Project

will require ongoing lane reductions and ramp and connector closures near the 15/91 Interchange. The 15/91 Express Lanes Connector is anticipated to open by the end of the year. [Click here to learn more.](#)

### Caltrans Pavement Rehab Project

Caltrans District 8 will require nightly lane reductions, connector and ramp closures in Corona for pavement rehabilitation work on the 91 and 15. For more information follow Caltrans District 8 on [Facebook](#) and [X](#).

### McKinley Street Grade Separation Project

Work is under way on this City of Corona project. For information and construction details, please visit the project [webpage](#) and register for text updates by texting MCKINLEY at 844-518-1409.

## Project Background

The new non-tolled interchange is designed to improve safety, expand access to other modes of travel, reduce greenhouse gas emissions, enhance traffic flow, and support continued movement of native wildlife through the area. Construction is anticipated to be completed in 2025.
