PILOT PROJECT  
Temecula/Murrieta

Week of May 11, 2025

## I-15 Northbound On-Ramp Extended Closure Begins Sunday, May 11

An extended closure of the northbound I-15 Temecula Parkway on-ramp in Temecula is scheduled to **begin this Sunday, May 11 at 9 p.m. through Monday, May 19 at 5 a.m.** and will allow crews to safely demolish and reconstruct portions of the on-ramp to provide an additional lane for the Smart Freeway system. Additional northbound I-15 lane reductions are also scheduled the week of May 11.

Detour routes will be posted. For more information visit our closure page below:

Closure  
Details

Please see additional closure details below. Construction activity and closures are subject to change due to inclement weather and other factors.

## Neighboring Projects

**I-15 / French Valley Parkway Improvements:** Work is currently underway in Temecula to reduce congestion and improve safety by relieving the I-15/Winchester Road interchange and minimizing weaving movements on I-15 between Winchester Road and the I-15/I-215 Junction. For information and construction details, please visit the **project webpage**.

## Project Background

RCTC, in partnership with Caltrans, the City of Temecula, and the Western Riverside Council of Governments, will be implementing an innovative technology along the northbound Interstate 15 (I-15) in Temecula and Murrieta that is anticipated to improve traffic operations.

The I-15 Smart Freeway Pilot Project will use “smart” technology to continuously monitor real-time traffic conditions along northbound I-15 in Temecula. This section of northbound I-15 encounters high traffic congestion from cars entering the Temecula Parkway, Rancho California Road, and Winchester Road on-ramps during peak afternoon and evening hours. The coordinated system will improve traffic flow by adjusting the optimal number of vehicles to enter and efficiently travel on the I-15.
