

State Route 60 POTRERO BOULEVARD INTERCHANGE

OVERVIEW:

The Riverside County Transportation Commission (RCTC) and the City of Beaumont, in partnership with Caltrans, is constructing "Phase II" of the State Route 60/Potrero Boulevard Interchange Project. This phase includes construction of a six-ramp partial cloverleaf interchange, realignment of Western Knolls Avenue, and widening Potrero Boulevard to six lanes.

The City of Beaumont completed Phase I construction of a new, six-lane Potrero Boulevard overcrossing in 2019.

The project will:

- Enhance regional mobility and improve access to SR-60
- Improve air quality through reduced congestion
- Support ongoing residential and economic growth in the San Geronio Pass

Construction will begin in early 2026 and the new interchange is anticipated to open to drivers in 2028.

The second phase of the project is funded by state and local funding, including City of Beaumont Capital Improvement Plan (CIP) funds, Transportation Uniform Mitigation Fee (TUMF), and SB1 Trade Corridor Enhancement Program (TCEP) Program funding.
