Update
Extended Weekend Closures
Lakeview Ave & 6th St
*Eastbound Ramona Expressway

The Riverside County Transportation Commission's Mid County Parkway Ramona Expressway project will require **extended weekend closures of Lakeview Ave and 6th St**, starting tonight, Friday, November 13 at 9 p.m. through Monday, November 16 at 5 a.m. These closures will allow crews to safely perform paving, drainage, and electrical work. By completing work at both intersections during a single weekend, one additional weekend closure will be eliminated.

***An additional nighttime closure of eastbound Ramona Expressway from Rider St to Warren Rd will take place Friday, November 13 at 10 p.m. through Saturday, November 14 at 5 a.m. to set k-rail barriers for the weekend closure.**

Please see closure details below. Construction activity and closures are subject to change due to inclement weather and other factors.

Weekend Closures Info

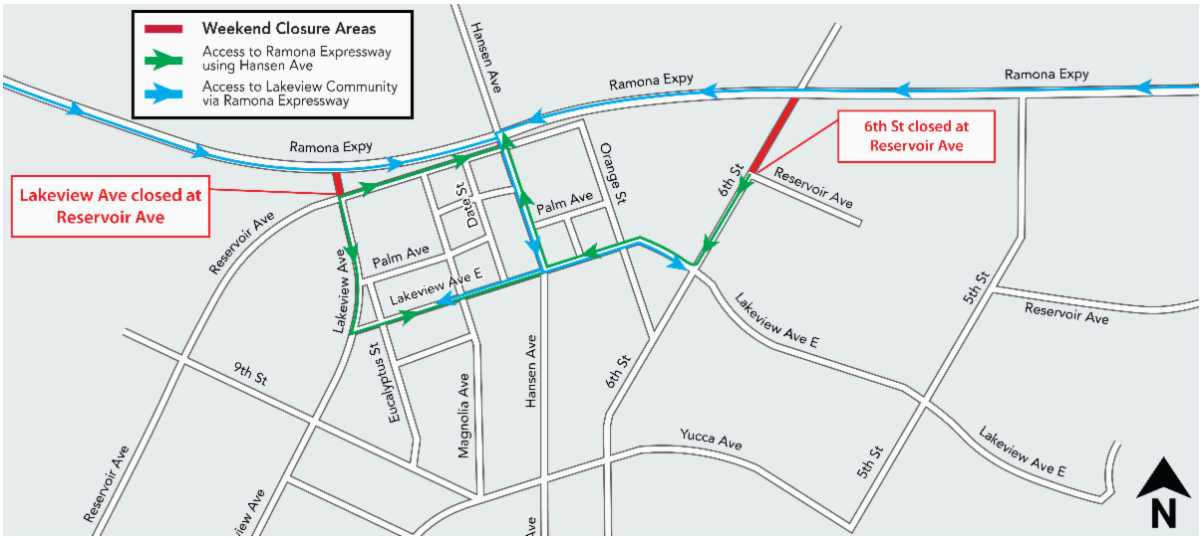

UPCOMING WORK & CLOSURES

Date/Time	Activity & Location	Detour

Eastbound Ramona Expressway Closure Detour

Extended Weekend Closures Detours

Motorists should plan for extra travel time. Emergency responders and businesses will have access as needed. During construction, a reduced speed limit of 45 mph will be enforced throughout the construction zone. Construction activities and schedules are subject to change due to weather conditions and other unforeseen circumstances.

PROJECT OVERVIEW

The Riverside County Transportation Commission (RCTC) is making major improvements along an **8.6 mile stretch of Ramona Expressway,** from one mile east of Rider Street to Warren Road. This corridor has experienced a high number of collisions and is identified

as a high priority for safety and access improvements. Once complete, the project will create a safer, more reliable roadway for residents, commuters, businesses, and visitors. Project improvements include:

- **One new lane in each direction**
- **A raised center median**
- **A new bridge over the San Jacinto River**
- **Traffic signal upgrades**
- **A new wildlife crossing**

Construction will continue through 2028. While this work is underway, we appreciate your patience as crews make these long-term improvements. Drivers should plan for extra travel time, slow down, and stay alert near work areas. Access to homes and businesses will be maintained as much as possible throughout construction.
